RECEIVED

APR 11 1977

Department of Water Resources
Western Regional Office

NOTICE OF AMENDED APPLICATION FOR PERMIT

Notice is hereby given that Application No. 65-7777 in the name of TOM J. DAVIS was filed on December 3, 1976 for the diversion of 15.0 cubic feet per second of water from Flat Creek trib. Gold Fork Creek with the point of diversion within the SW 1/4 SE 1/4, SE 1/4 SW 1/4, SW 1/4 SW 1/4 Sec 21 T15N-R4E and SE 1/4 SE 1/4, SW 1/4 SE 1/4 Sec 20 T15N-R4E B.M., Valley County to be used from Apr 1 to June 1 for irrigation of 3015 acres within parts of Sec 7, 8, 17, 18, 19, 20, 29, 30, 31 and 32 T14N-R4E B.M.

The application holder now proposes to amend the application by changing the irrigation season to Apr 1 to Oct 31.

Any protests to this proposed amending of the application must be filed with the Director of the Idaho Department of Water Resource 92 S. Cole Road, Boise, ID 83704 on or before April 18, 1977.

C. STEPHEN ALLRED

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that TOM J. DAVIS, Cascade, ID has on December 3, 1976 submitted Application No. 65-7777 for a permit to appropriate 15 cubic feet per second of water from Flat Creek trib. Gold Fork Creek by means of diversion dam and gravity ditch within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 21 T15N-R4E; SE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 20 T15N-R4E B.M., Valley County to be injected into the West Fork of Beaver Creek for storage in reservoir located in Sec 5 T14N-R4E. The storage period is from May 1 to Oct. 31 to be used for storage for irrigation of 3015 acres within the parts of Sec 8, 7, 17, 18, 19, 20, 29, 30, 31 & 32 T14N-R4E B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720, on or before January 10, 1977.

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
3. No water shall be diverted under this right after June 15 of each year without prior approval of the watermaster.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
5. Two points of diversion are located within SWSE, S21, T15N, R04E.
6. Rights 65-02536, 65-02832, 65-02920, 65-02931, 65-03579, 65-03580, 65-03582, 65-03583, 65-04031A, 65-04031B, 65-04031X, 65-07312, 65-07649, 65-07777, 65-12202, 65-13019 and 65-13619 when combined shall not exceed a total annual maximum diversion volume of 14,500. af at the field headgate, and the irrigation of 4831 acres.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Signed and sealed this 13th day of DECEMBER, 1999.

From: David R. Tuthill *DRT*
Date: September 11, 1986
Re: Licensing of Permit

We have been advised by users of water in the vicinity of this permit that the actual period of use under this water right has been limited to the period from April 1 through June 1 annually rather than the period from April 1 through October 31 annually which was requested in the amendment to the application dated March 17, 1977. At the time of field examination and licensing, particular attention should be given to the actual period of use established by the permit holder.

RE: WATER RIGHT NO. 65-07777

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MICROFILMED
DEC 29 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: WATER RIGHT NO. 65-07777

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that your place(s) of use is in a location other than what was described on your permit. Therefore, before a license can be issued, the permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the place(s) of use and other information as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7944.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

Re: Licensing Recommendations
.....

I met with Phil Davis, Sheryl Chapman and Sue Bock at Western Region on October 26, 1999, to go over the licensing recommendations for the above rights and they also went over their SRBA recommendations. We discussed the licensing amendments and found changes need to be made.

Permit 65-12202 – Mr. Davis would like to have 1300 acre feet under this right which is the amount Steve recommended with additional exam fee submittal. Mr. Davis will be submitting an additional \$100.00 to increase the exam fee paid so that we can allow more water under this earlier priority right – per Steve's memo of 2/28/91 this is an acceptable way to allow the increased amount of storage water and the amount that was developed at time of the exam. Late exam fee submitted 11/2/99 under Receipt No. C047006.

Mr. Davis took an assignment of permit form for Permit Nos. 65-07777 & 65-12202 which were in his father's name. He said these permits should be in the name of Davis Cattle Company like the rest of these permits. He will have his father sign the assignment form and return it when he submits the additional exam fee. Mr. Davis returned the assignment form changing the names to Tom J. Davis &/or Davis Cattle Company.

Permit 65-13019 – Reduce the amount of water to 1360 acre feet after receiving the additional exam fee for 65-12202.

Permit 65-13619 – They were happy with the recommendations for this permit. I held onto the application for licensing amendment so we could send them all out for signature together.

Re: Licensing Recommendations
.....

In a review of this permit for licensing, I found a problem that needs to be addressed.

The season of use for this right has been in question for some time. Members of Gold Fork Irrigation Company have looked into this several times. The season of use was amended by the applicant several times prior to permit approval by IDWR. It appears that the applicant originally requested an irrigation season of May 1 to October 31; amended to April 1 to June 1 in next publication; amended again to April 1 to October 31 which is the season that was on final approval by the Department. If Gold Fork Irrigation Company has concerns about their water rights not being filled due to diversion under this right, they should be advised that their rights are senior and if necessary, the watermaster could shut off the junior right. Gold Fork Irrigation currently has two senior right Nos. 65-02256 and 65-10943 (August 4, 1919 & April 15, 1907, respectively). I have also added conditions to the license to identify the watermaster's control of the system even though water district 65 records do not show any measurements of water for North Fork of the Payette River area.

E. NARRATIVE/REMARKS/COMMENTS

John Noyes conducted a partial exam on this right in 1984-'87. Steve Lester completed the exam in 1991. The p/u consists of several overlapping water rights and sources. In an effort to coincide with SRBA recommendations, the p/u determination was delayed with the thought of allowing one huge ppu for all the rights.

On 8/16/1999, Sue Bock and myself met with Phil Davis and Sherl Chapman. Based on CFSA photos and GIS maps, we determined which acres could be irrigated with which water considering the reservoir locations and the existing ditch system. As a result more than one ppu was recommended for the Davis property because of system limitations.

65-07777 sources are conveyed to the Jamima K. reservoir via W. Fk. Beaver Creek. No water is used for irrigation before reaching the reservoir. Point of diversion #1 is an unnamed fork of

Flat Creek and p/d #2 is Flat Creek tributary to Gold Fork River, not Gold Fork Creek as listed on the permit. Both points are located and tributary to the North drainage but are diverted into the South drainage. Point of diversion #3 is another unnamed stream tributary to Flat Creek. The diversion is near the divide between Flat Creek & W. Fk. Beaver Creek drainages. The area is relatively flat, making it difficult to determine with certainty whether this source drains to Flat Creek or Beaver Creek. Short of probably unwarranted survey work to make this determination, it is reasonable to conclude that p/d #3 includes water from the Flat Creek drainage.

Storage water capacity for Jamima K. Reservoir is covered by other water rights. This permit represents a natural flow component.

The ppu for water diverted from the Jamima K. Reservoir consists of 2,282.1 acres. A portion of those acres overlap with the ppu recommended for water diverted from the Tom J. Reservoir. Therefore, this right is limited to 2,282.1 acres within the irrigation of the combined total of 4,831 acres in a single irrigation season. Combined right nos.: 65-02832, 65-02920, 65-02931, 65-03579, 65-03583, 65-02536, 65-07312, 65-07649, 65-04031A, 65-04031B, 65-04031X, 65-03582, 65-12202, 65-13019. This recommendation coincides with the SRBA recommendations submitted to the court for decree.

The property is irrigated via ditch and gravity irrigation. No other rights are used other than those listed above.

Recommended p/d's include:

- _____ #1. Unnamed stream trib. to Flat Ck.: .95 cfs capacity
- _____ #2. Flat Cr. Trib. to Gold Fk. River: 3.87 cfs capacity
- _____ #3. Unnamed stream trib. to Flat Ck.: 1.44 cfs capacity

Total live flow recommended for this permit is **6.26 cfs.**

Have conditions of permit approval been met? ☒ X yes ☐ no

F. FLOW CALCULATIONS Y_ Additional Computation Sheets Attached

Measured Method:

Channel capacity results for the three diversions: 6.26 cfs

G. VOLUME CALCULATIONS

1 Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2,282.1 \times 3 = 6846.3$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 6.26 \times 184 \times 1.9835 = 2,284.7$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 2,284.7$$

2 Volume Calculations for Other Uses:

MICROFILMED

DEC 29 1999

(NOTE that DAVIS RES. AKA Boyd Smith RES.)

65-07777

Ditched water from Flat Cr. & warm stream conveyed via W. FK. BEAVER CR. to J.K. RESERVOIR. No withdrawals from " " " before reach " ".

From Reservoir, 2 main ditches route water S & SW. Numerous laterals, sometimes are enhanced natural drainages, convey water to land between Hwy 55 & Beaver Cr. and N & S of Warm Lake Hwy.

The eastern-most of the 2 main ditches from J.K. Res. ends near Tum J. Res. & can irrig. land between W. Fork Beaver Cr. & Beaver Cr.

Tum J. Res. stores Beaver Cr. water (constream).

Several main ditches route water S, SW & NW. The ditch going N/NW crosses W. Fork Beaver Cr., then turns S/SW to allow irrig. on most of same lands as J.K. Res. water. The ditch from Res. going S/SW carries water to lands N & S of Warm Lake Hwy and E of Beaver Cr. Another ditch (the highest one) on E side of Plu can deliver water to Davis Res. (aka Boyel Smith Res. from Peoresol Cr. etc.). Then, ditches from Davis Res. deliver to land S of W.L. Hwy & E of Beaver Cr.

W. border of Plu is $\pm$ N. Fork Payette R & then Hwy 55.

P/O - Flat Cr. etc. ditch system to deliver water to J.K. Res. - same div. system as 2 licenses.

P/O #1 - earth dike on W. Fork of Flat Cr. diverts all of flow to earth/gravel ditch. Ditch injects into Flat Cr. c 50' upstream of ~~Microfilm~~ ^{#2}.

DEC 29 1999

P/O #2 - checkdam on Flat Cr., hdgate, 32" buried culvert, (25' long) to ditch. This ditch is limiting factor for all water diverted from P/O 1 + P/O 2.

65-12202

SEE
TOPO
MAP

trib. to
Gold
Fork

trib to
W. FK.
Beaver

* P/O #3 = W. FK. stream provides flow to short ditch to inject into headwater of W. FK. Beaver Ck - same "pt" where P/O 1+2 inject water to W. FK Beaver Ck.

Very little straight stretch this ditch so Mannings Eq. done at best point could find on ditch (just up from culvert that crosses the road).

Water from all 3 pld's conveyed to J.K. Res. via W. FK Beaver Ck

Storage = J.K. Res. covered by other rights so GS-07777 just natural flow component.... which is why Mannings Eq. done.

Ditch conveying water from P/O 1+2: bed has layer of small gravel, not much vegetation or other obstructions, significant to SEVERE meandering, big enough to carry lots of water but vegetation indicates h.w. mark not very much in comparison to theoretical capacity.

Also see dam safety files c J.K. & Tom J. Reservoirs.

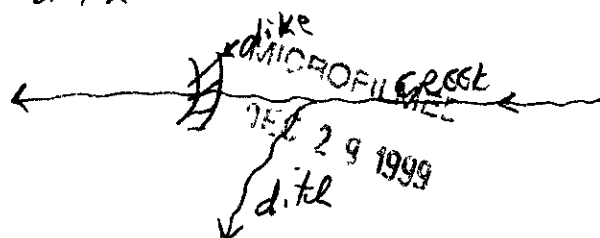

* Addendum 11/15/99 : per follow up discussions with other Regional & E.S. staff: AREN very flat & hard to accurately tell if flows to Flat (it is Beaver Ck Reservoir) I-MICRO include that is trib. to 1st Ck.

MEMORANDUM

To: File 65-7777
From: L. Glen Saxton *LS*
RE: OFFICE VISIT
Date: February 26, 1992

Today, Glenn Loomis representing Goldfork Irrigation Company and Von Jasper (?) of Center Irrigation Company visited me in connection with permit file 65-7777.

The concern of Loomis and Jasper dealt with the season of use for the irrigation. Their concern was that the withdrawal of protest by Laurel Hansen on March 17, 1977, probably was based on some concession by the applicant, but the file does not show the concession, if any.

I described the licensing process to Mr. Loomis and Mr. Jasper and advised of protest procedures available in the ongoing Snake River Basin Adjudication. I provided a copy of the file at the request of Mr. Loomis and Jasper.

RE: Water Right Permit No. 65-07777 (Tom J. Davis)

Dear Mr. Loomis:

Based on your request of 6/17/91 for information relating to the protest record in the approval process of the above water right, please find the enclosed copies from the department records.

As you can see from the 6/26/89 letter from D. Tuthill to L. Hansen, the water right does not have any conditions of approval related to drainage pipes or other items to which you referred during your recent visit.

The period of use for permit 65-07777 is either 4/1 to 10/31 or 4/15 to 10/15. The confusion over the period of use will be clarified upon licensing of the right. In either case, the period is not restricted to end on 6/1. June 1 was the original ending date, but it was modified by the last application for amendment advertised on 3/31 and 4/7, 1977. No protests were received related to the period of use amendment. The period of use is therefore 4/1 to 10/31 (as amended), although this may be reduced to the standard season of 4/15 to 10/15 when a license is finally issued.

This office will attempt to complete the licensing field work for 65-07777 during this irrigation season.

If you have additional questions, please contact this office.

Sincerely,

Steve Lester
Sr. Water Resource Agent

Re: Water Right #65-7777 in the name of Tom J. Davis

Dear Mr. Hansen:

At the water right conferences held earlier this month, you raised a question regarding the conditions of approval that were applied to the above-referenced water right, which is for the diversion of water from Flat Creek. This letter is in response to the questions that you raised.

The first question that you asked concerned whether or not a condition of approval was added to the water right requiring the installation of drainage pipes under the ditch to increase the runoff for the Flat Creek water right. In response to this question, there was no condition of this type added to the water right. I have reviewed the record of this water right and do not see any written mention of it.

Your second question regarded the requirement to install a headgate. The water right approved for this project does not specifically require that a headgate be installed. However, water right statutes of the State of Idaho do require that headgates must be installed where necessary. If your organization determines that a headgate is needed for proper delivery and control of this water right, and if you advise the department of this determination in writing, we will review the present diversion works to determine if a headgate will be required.

If you have further questions based on this response, please feel free to contact this office.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on August 5, 1987, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on June 5, 1986.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before October 5, 1987, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

Sincerely,

L. GLEN SAXTON, Chief
Operations Bureau

EXAMINATION FEE REMINDER

Dear Permit Holder:

Earlier this year you were mailed a certified letter by our state office, which described a new law related to your water right permit. The water right permit to which this law applies is identified by the number at the top of the mailing label above. The purpose of this letter is to act as a reminder of the new law and to warn you that your permit is now losing priority daily.

As described in the certified letter, House Bill 671 enacted by the 1986 Idaho Legislature requires payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. The certified letter described the procedure for selecting the latter alternative, whereby you initially notify us regarding which water right examiner you have selected, and provide a statement from the examiner as verification.

The date of priority of your water right permit is now being delayed one day for each day the response is late. Also, if the fee or completed field examination report are not submitted within a year from the sixty-first day after the certified letter was mailed, the permit may be lapsed and rendered invalid. The fee, or notice that a private field examination will be conducted, should be submitted as soon as possible if you wish to maintain your permit in a valid status.

Enclosed please find an Examination Fee Information Sheet, with the License Examination Fee Schedule printed on the back. This sheet should be submitted if either the fee payment option or the private examination option is selected. If you have questions or desire assistance in this matter, please feel free to contact this office.

Sincerely,

David R. Tuthill, Jr.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and still be added for the department to conduct the field examination, but you can change to another certified examiner.

MAR 01 1988

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PROTEST AGAINST APPROVAL)
OF THE APPLICATION FOR PERMIT NO. 65-7777)
IN THE NAME OF TOM J. DAVIS)

NOTICE OF CONFERENCE
AND/OR HEARING

On December 3, 1976, Tom J. Davis filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On January 10, 1977, the Department received a protest against approval of said application from Laurel Hansen, Chairman of the Gold Fork Irrigation Company.

The Department has set the matter of protest for conference and/or hearing for Thursday, March 17, 1977 at 10:00 a.m., in the conference room of the Cascade Community Center, Cascade, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 3rd day of March, 1977.

(Tom J. Davis)

Mr. Laurel Hansen
Gold Fork Irrigation Company
Donnelly, ID 83615

Dear Mr. Hansen:

Reference is made to your protest against the approval of Application for Permit No. 65-7777.

The application was incorrectly advertised by the Department on December 23 and December 30, 1976. The advertisement indicated that the water from Flat Creek on Application No. 65-777 would be stored from May 1 to October 31.

The corrected advertisement shows that the applicant proposes not to store water under this application, but to divert natural flow from Flat Creek from April 1 to June 1 assuming prior water rights are filled. Application No. 65-7777 does not propose storage.

Please advise me within fifteen (15) days if you do not wish to proceed with your protest. If I do not hear from you within fifteen (15) days, I will schedule a conference &/or hearing as indicated in my letter of January 12, 1977.

If you have questions concerning this matter, please contact this office.

Sincerely,

Tom J. Davis

Laurel Hansen
Chairman, Gold Fork Irrigation Co.
Donnelly, ID 83615

Dear Mr. Hansen:

This office acknowledges receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Sincerely,

L. GLEN SAXTON, P.E.

McCall, ID 83638

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear in the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(Signature of Claimant)

Sincerely,

Bill submitted
