MEMORANDUM

TO: Files 65-7414 and 65-7769

FROM: David R. Tuthill

DATE: 7/24/79

There is a question as to the proof of beneficial use submitted for water rights of the City of Horseshoe Bend. This memo will explain why a proof of beneficial use filed for water right #65-7414 was transferred as the proof for water right #65-7769.

On July 31, 1978, the proof due letter for Permit No. 65-7414 was mailed. On August 22, 1978 this office received a proof form bearing Permit No. 65-7414; however, all information on the proof referred to the surface water system described in Permit No. 65-7769. This was not noticed immediately and the proof was placed in file 65-7414.

On November 30, 1978, the proof due letter was sent for Permit No. 65-7769. No proof was received in response to the letter; however, I was contacted by Tudor Engineering Company, the engineering representative for the city of Horseshoe Bend. Pursuant to a visit by Bob Mayer of Tudor Engineering, we determined that, in fact, the proof submitted in August of 1978 should have been numbered 66-7769. We determined that no proof would be necessary for 65-7414 since the appropriation of groundwater by the city of Horseshoe Bend was already described by licenses 65-7505 and 65-7040. In fact, the Proposed Findings of Water Rights in the Payette River Drainage recommends that Permit No. 65-7414 be disallowed since it duplicated existing water rights. The result from the meeting with Mr. Mayer was to solicit a relinquishment from the City of Horseshoe Bend for Permit No. 65-7414.

Since January I have called Tudor Engineering two times and Steve Helm two times to urge submittal of the relinquishment form. As there has been no response, I will at this time place the proof in file 65-7769 and initiate lapsing procedures for Permit No. 65-7414.
