NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that CARMEN &/or GEORGE IRWIN Cascade, ID has on October 18, 1976 submitted Application No. 65-7697 for a permit to appropriate 0.16 cubic feet per second of water from a ground-water source by means of well, pump and pressure system within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 16 T13N-R4E B.M., Valley County to be used from Jan 1 to Dec 31 for domestic and stockwater purposes and from May 1 to Oct 31 for irrigation of 5 acres within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 16 T13N-R4E B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720, on or before November 15, 1976.

WATER RIGHT LICENSE

WATER RIGHT NO. 65-07697

Priority: May 3, 1979

Maximum Diversion Rate: 0.01 CFS
Maximum Diversion Volume: 3.4 AF

This is to certify, that GEORGE IRWIN
CARMEN IRWIN

PO BOX 164
CASCADE ID 83611

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 18, 1976; and has submitted Proof of Beneficial Use on July 11, 1983. An examination indicates that the works have a diversion capacity of .010 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	05/01 to 10/15	0.01 CFS	3.3 AF
STOCKWATER	01/01 to 12/31	0.01 CFS	0.1 AF
	Totals	0.01 CFS	3.4 AF

LOCATION OF POINT(S) OF DIVERSION:

SENW , Sec. 16, Township 13N, Range 04E
VALLEY County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
13N	04E	16	SENW	2		2

Total number of acres irrigated: 2

PLACE OF USE: STOCKWATER, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 65-07697

CONDITIONS/REMARKS:

5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.0 afa per acre for the lands above.
6. Stockwater use is for 2 horses.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 21ST day of SEPTEMBER, 1992.

Acting for R. Keith Higginson, Director

RECEIVED
SEP 21 1992

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT)
NO. 65-7697 IN THE NAME OF)
GEORGE OR CARMEN IRWIN)

ORDER ADVANCING
DATE OF PRIORITY

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 65-7697 for issuance of a license, the Department finds, concludes and orders:

FINDINGS OF FACT

1. The Department approved Application for Permit No. 65-7697 to appropriate the public waters of the State of Idaho with a proposed priority of OCTOBER 18, 1976.
2. On JUNE 05, 1986 the Department advised the permit holder that a license examination fee was required before an examination could be conducted to confirm the extent of use developed under the permit. The examination fee was due on AUGUST 04, 1986.
3. The license examination fee was not paid within one year of the date, and the permit lapsed for failure to pay the license examination fee.

MICROFILMED

MAR 06 1989

4. The license examination fee was received on
FEBRUARY 17, 1989, 927 day(s) late.

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the license examination fee is late, pursuant to the provisions of Section 42-217, Idaho Code.

2. The date of priority of Permit No. 65-7697 should be advanced 927 day(s).

ORDER

IT IS HEREBY ORDERED that Permit to Appropriate Water No. 65-7697 is reinstated.

IT IS FURTHER ORDERED that the date of priority of Permit No. 65-7697 is advanced to MAY 03, 1979.

Dated this 24th day of February, 1989.

MEMORANDUM

TO: Sharla Curtis *DM*
FROM: Dave Tuthill and Mel Schulte *MTA.A.*
DATE: January 28, 1992
RE: Beneficial Use Field Report for Permit No. 65-7697

Thank you for your careful review of the above-referenced Field Report. The purpose of this response is to provide an explanation as to the recommendation in the report.

We agree with your comment that the irrigation system in place is not capable of providing sufficient water for the irrigation of two acres of land. The examination shows that the irrigation requirement for this use is 6.0 AFA, whereas the system is capable of providing only 3.6 AFA if diverted continuously during the irrigation season.

You have requested information to demonstrate that the low rate of flow per acre is beneficial. In this particular situation, the water is used to irrigate pasture grass (see photos). While the amount of water provided would not be sufficient to provide for a row crop such as sugar beets or potatoes, the rate is sufficient to increase the amount of grass produced on the entire parcel. The field examiner confirmed that the irrigation system that is installed has the capability of reaching all 2 acres, and it is conceivable that the sprinkling system could be used over the entire parcel at different periods of the irrigation season.

The question, then, becomes a matter of how many acres to show in the license. Do we show two acres, for which a parcel supply is available, or one acre, for which a full supply is available?

In this particular case, we are inclined to show both acres in the license, as limited by the acre-foot amount of 3.6 AFA for irrigation. This solution seems to better reflect the actual usage for this parcel.

You have referred to the position taken on adjudication claims for which low flows are provided, as described in Adjudication Memorandum #16B, Section A.5. We are pleased to see the intent to have the licensing review dovetail with the adjudication process. However, this scenario appears to be slightly different from the guidance about permissible place of use as described in Memorandum #16B. In this case the permit holder has a permit that identifies the two acres for which a water right is sought. In the situation of permissible place of use, the claimant is requesting to spread an existing water right, with an existing rate of flow, onto additional acres. The memo places a reasonable limit on this spreading of the water right.

In summary, we recommend that the license be issued as originally proposed. However, we appreciate your review of the recommendations and would be happy to consider any additional views.

MEMORANDUM

TO: Dave Tuthill
FROM: Sharla
DATE: January 22, 1992
RE: Returned Exam

JAN 23 1992

Department of Water Resources
Western Regional Office

Dave, this exam is being returned to you for further review. The irrigation system in place is not capable of providing sufficient water to two acres of land.

To issue a license based upon the examiner's recommendation of 2 acres at 0.01 cfs would acknowledge irrigation at .005 cfs/acre ($\frac{1}{4}$ "/acre) as being beneficially used. If such a license is to be issued, the permit holder must provide information to show that such a low rate per acre is beneficial and if this information cannot be provided, the acres must be limited to the number resulting in a diversion rate of $\frac{1}{4}$ "/acre. This is also in harmony with the position taken on adjudication claims with the same scenario (Adj. Memorandum #16 B - section A.5)

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
sprinkler head gauge (pitot)						

2. Measurements:

sprinkler head measurement on the only sprinkler (1/4" diameter) registered 53 psi

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

1/4" diameter sprinkler head @ 53 psi = 4.31 gpm = .01 cfs
2 Head x 12 = 24 = 1.2 gpm ÷ 449 = .0004 cfs

2. Alternate Method for Checking Purposes

See theoretical Hp calculation attached that indicates .02 cfs

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head (1) + (2) = _____ (3)

: Flow rate: _____ cfs (4)

Water HP (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_R = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2 \times 3.0 = 6$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .01 \times 184 \times 1.9835 = 3.6$

$V = \text{Smaller of } V_R \text{ and } V_{DR} = 3.6$

2. Volume Calculations for Other Uses

2 Head of horses for 365 days - $\frac{12 \times 2 \times 365}{325,850} = .03 \text{ cfs}$

OR .2 AFA from chart, year-round use.

OCT 27 1992

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Other rights in same PP do not affect this permit.

The owner agreed during the exam that he did not irrigate more than approximately 2 acres. Based on the size and kind of irrigation system the recommendation is to license at the flow the system produces of .01 and the volume the system creates. Priority date should be advanced to 5-3-79 per Order of Reinstatement. (attached)

No Domestic found (old trailer not used; not hooked to well)

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
<u>Irrigation</u>	<u>5-1</u>	<u>10-31</u>	<u>.01</u>	<u>3.6</u>
<u>Stockwater</u>	<u>1-1</u>	<u>12-31</u>	<u>.01</u>	<u>0.2 .2</u>
Totals:			<u>.01</u>	<u>3.6 3.8</u>

2. Recommended Amendments

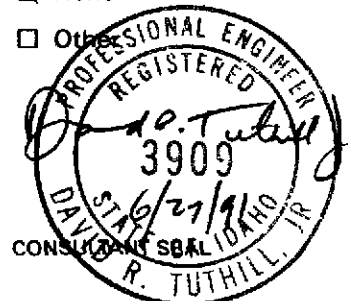

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above

☒ None

☐ Other

J. AUTHENTICATION

Field Examiner's Name Melvin T. Schulte
Signature Melvin T. Schulte
Certification Date _____
Field Report Preparation Date 8-1-90

K. Licensing recommendation shall be prepared by an Idaho Department of Water Resources employee on a computer printout attached hereto.

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{2}{\text{Found Acres}} * \frac{3.0}{\cancel{55}} = \frac{76}{\text{AFA}}$$
2.
$$\text{STATIC?} \leftarrow \frac{(0.5) \text{ HP} * 8.8 * (.7) \text{ EFF}}{(20) \text{ Dyn Level} + (2.3 * \{50\} \text{ PSI})} = \frac{.023 \text{ CFS}}{\text{Theor. Div. Rate}}$$
3.
$$\frac{.023}{\text{Theoretical Div. Rate}} * \frac{184}{\text{Days in season}} * 1.9835 = \frac{8.33}{\text{AFA}}$$

at assumed pumping level of 40', Q = .019 = .02

Note: for electrical motors
 EFF = 0.70
 for diesel motors
 EFF = 0.60

Data Requires Verification ☐
 Measurement Required -- ☐
 Measurement Not Required ☒

Calculation data sources:

Found acres = per owner and method of irrigation equipment used.
 HP = from pump motor plate
 Dyn Level = per owner
 PSI = from gauge during exam

184 days = May 1 to Oct. 31 from application

MEMORANDUM

TO: Dave Tuthill
FROM: Sharla
DATE: January 22, 1992
RE: Returned Exam

Dave, this exam is being returned to you for further review. The irrigation system in place is not capable of providing sufficient water to two acres of land.

To issue a license based upon the examiner's recommendation of 2 acres at 0.01 cfs would acknowledge irrigation at .005 cfs/acre ($\frac{1}{4}$ "/acre) as being beneficially used. If such a license is to be issued, the permit holder must provide information to show that such a low rate per acre is beneficial and if this information cannot be provided, the acres must be limited to the number resulting in a diversion rate of $\frac{1}{4}$ "/acre. This is also in harmony with the position taken on adjudication claims with the same scenario (Adj. Memorandum #16 B - section A.5)

June 25, 1987

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on August 5, 1987, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on June 5, 1986.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before October 5, 1987, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

Sincerely,

A handwritten signature in cursive script, reading "L. Glen Saxton", is written over the word "Sincerely,".

EXAMINATION FEE REMINDER

Dear Permit Holder:

Earlier this year you were mailed a certified letter by our state office, which described a new law related to your water right permit. The water right permit to which this law applies is identified by the number at the top of the mailing label above. The purpose of this letter is to act as a reminder of the new law and to warn you that your permit is now losing priority daily.

As described in the certified letter, House Bill 671 enacted by the 1986 Idaho Legislature requires payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. The certified letter described the procedure for selecting the latter alternative, whereby you initially notify us regarding which water right examiner you have selected, and provide a statement from the examiner as verification.

The date of priority of your water right permit is now being delayed one day for each day the response is late. Also, if the fee or completed field examination report are not submitted within a year from the sixty-first day after the certified letter was mailed, the permit may be lapsed and rendered invalid. The fee, or notice that a private field examination will be conducted, should be submitted as soon as possible if you wish to maintain your permit in a valid status.

Enclosed please find an Examination Fee Information Sheet, with the License Examination Fee Schedule printed on the back. This sheet should be submitted if either the fee payment option or the private examination option is selected. If you have questions or desire assistance in this matter, please feel free to contact this office.

Sincerely,

David R. Tuthill, Jr.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee to the department to conduct the field examination. **MICROFILMED** you may change to another certified examiner.

MAR 06 1989

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

The Star News
P. O. Box 709
Weiser, ID 83672

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear in the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(Signature of Claimant)

Bill Submitter

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that CARMEN &/or GEORGE IRWIN
Cascade, ID
has on October 18, 1976 submitted Application No. 65-7697
for a permit to appropriate 0.16 cubic feet per second ~~XXXXXX~~
~~XXXXXX~~ of water from a groundwater source
by means of well, pump and pressure system
within the SE 1/4 Sec 16 T13N-R4E B.M., Valley County

to be used from Jan 1 to Dec 31
for domestic and stockwater purposes and from May 1 to Oct 31
for irrigation of 5 acres
within the SE 1/4 Sec 16 T13N-R4E B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720, on or before November 15, 1976.

R. KEITH HIGGINSON

Director
