RE: Field exam for Application for Permit

On July 9, 1976, the applicant, Mr. Lee Roy Riley, accompanied me to his property above Horseshoe Bend. We looked at two springs and a small pond that were located on Mr. Riley's property. One of the springs was almost dry, with only a very small amount of water flowing down a gully. The other spring had a little more water and flowed and sank in several spots before entering the proposed stockwater pond. Neither spring has had any improvements made on them, nor at this time of the year are they tributary to Shafer Creek.

It is my opinion that if these springs are developed as set for in the application for permit that no other person would suffer a loss ~~to~~ their water rights.
