PUBLISHER'S AFFIDAVIT

STATE OF IDAHO)
) ss.
County of Valley)

Donald E. McMahan, being first duly sworn, deposes and says: That he is the co-editor of the Star-News, a weekly newspaper published at Cascade and McCall, in the County of Valley, State of Idaho; that said newspaper is in general circulation in the county of aforesaid and is a legal newspaper; that the advertisement, a copy of which is hereto attached, was published in said newspaper once a week for two consecutive weeks in the regular and entire issue of every number thereof during the period and time of publication, and was published in the newspaper proper and not in a supplement; and that publication of such notice began June 3, 1976, and ended June 10, 1976.

Subscribed and sworn to before me a Notary Public in and for the County of Valley, and the State of Idaho, this 19 day of July, 1977.
My commission expires July 20, 1977.

RECEIVED

JUL 11 1976

Department of Water Resources

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Bezates Land & Cattle Co. Ontario, OR has on May 24, 1976 submitted Application No. 65-7624 for a permit to appropriate 9.6 cubic feet per second of water from UNNAMED SPRINGS by means of open pit, earth ditches and-or sprinklers within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec 18; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec 7, T18N-R3E, B.M., Valley County to be used from May 1 to Oct 1 for irrigation of 480 acres within the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec 18, T18N-R3E; SE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec 13, T18N-R2E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720, on or before June 21, 1976.

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

IN THE MATTER OF CHANGING THE MEASURING)
DEVICE REQUIREMENT FOR PERMIT NO. 65-7624)

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

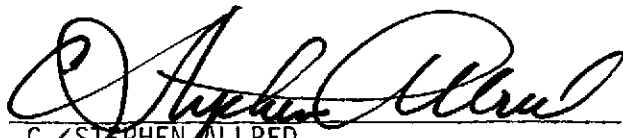

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

RE: WATER RIGHT NO. 65-07624

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit. If you have any questions, please contact me within 10 days of receipt of this license.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

FROM: Shelley W. Keen ^{SUK}

RE: Appropriated volume

This afternoon George Bezates supplied the following information regarding the development under Permit 65-07624.

His pond is 300' x 50' x 17', with sides sloped about 1:1. Mr. Bezates pumps until about 5 ft. of water is left in the bottom of the pond. At 1150 gpm it takes him about 60 hours. The volume of water in the pond, about 3 af, recovers in 30 hours.

Based on the information provided, the following calculations can be made.

- 60 hrs * 1150 gpm = 12.7 af each irrigation cycle
- The recovery averages about 543 gpm.
- In a standard 184 day irrigation season Mr. Bezates could potentially complete 49 ninety hour cycles and divert about 623 af

The pond appears to function like a shallow well.

Permit # 65-07624.

Shelley,

During the months of July and August, 1996, we irrigated out of our pond at MCCAAL four times.

Our pond measures approximately 300 ft long, 50 ft wide at the top and 17 ft deep. The sides of the pond are sloped at approximately 1:1.

Each time we irrigated, we pumped at 1150 gallons/min for 60 hrs. We never drained the pond completely - we left between 4 and 5 ft each time.

After shutting the pump off, the pond replenished itself in approximately 30 hrs.

If you have any further questions, please call.

RE: Water Right No. 65-07624

Dear George:

I am writing to find out if you had an opportunity to carry out the water measurement for Water Right 65-07624 that you and I discussed in July. You were going to pump from your pond at 1150 gpm and time how long it takes to deplete the volume of water in the pond. You were also going to time how long it takes for the water level in the pond to recover. The additional information is needed in order to issue an accurate water right license to you.

To avoid any delay in issuing your license, please let me know right away if you had an opportunity to collect this information. My phone number is 208-327-7946. You can reach me by e-mail at skeen@idwr.state.id.us.

Respectfully,

A handwritten signature in cursive script that reads 'Shelley Walter Keen'. The signature is written in dark ink and is positioned above the printed name and title.

FROM: Shelley W. Keen *SWK*

RE: Phone call from George Bezates

This afternoon George Bezates called to say that next week would be a good time for a re-measurement for right 65-07624. We agreed that he would pump at 1150 gpm and record the amount of time it takes to deplete the volume in the pond. He will then monitor and record the time required for the water level in the pond to recover. Mr. Bezates will then compile his information and send it to me

Mr. Bezates also indicated that he now uses a different pump which will move 1650 gpm. However, he also has a flow meter, which will allow him to set the system to pump 1150 gpm for the test. Mr. Bezates will probably need to file an application for permit to cover the additional capacity of his system.

RE: Phone call from George Bezates

Today George Bezates called in response to my 5/13/96 letter. He told me that in 1988, a drought year, it took about 60 hours to divert 85-90% of the water in the pond. He said the pond refilled in 28 to 30 hours.

Mr Bezates suggested checking again this year when he starts irrigating, around the first part of July. I agreed that collecting more data might be a good idea. We agreed to talk again when he starts irrigating.

George Bezates's phone number is 541-889-5196.

RE: Water Right No. 65-07624

Dear Water Right Holder:

Permit 65-07624, which was issued to you in 1976, is in the process of being licensed. A printout showing the elements of the right as permitted is enclosed for your reference.

In 1988 a Department of Water Resources field examiner inspected your water use and reported that your pump was able to divert 2.56 cfs (about 1149 gallons per minute) from the pond you excavated at your spring site. He also reported that your pond holds about 5.6 acre feet of water. In order to license your right properly, we need to know two additional things.

1. How long can you pump at 2.56 cfs before your pond is depleted?
2. How much time is required for your pond to refill?

To avoid any delay in licensing your water right, please write or call me with this information within fourteen (14) days.

If you have any questions, please contact me at 208-327-7946

Respectfully,

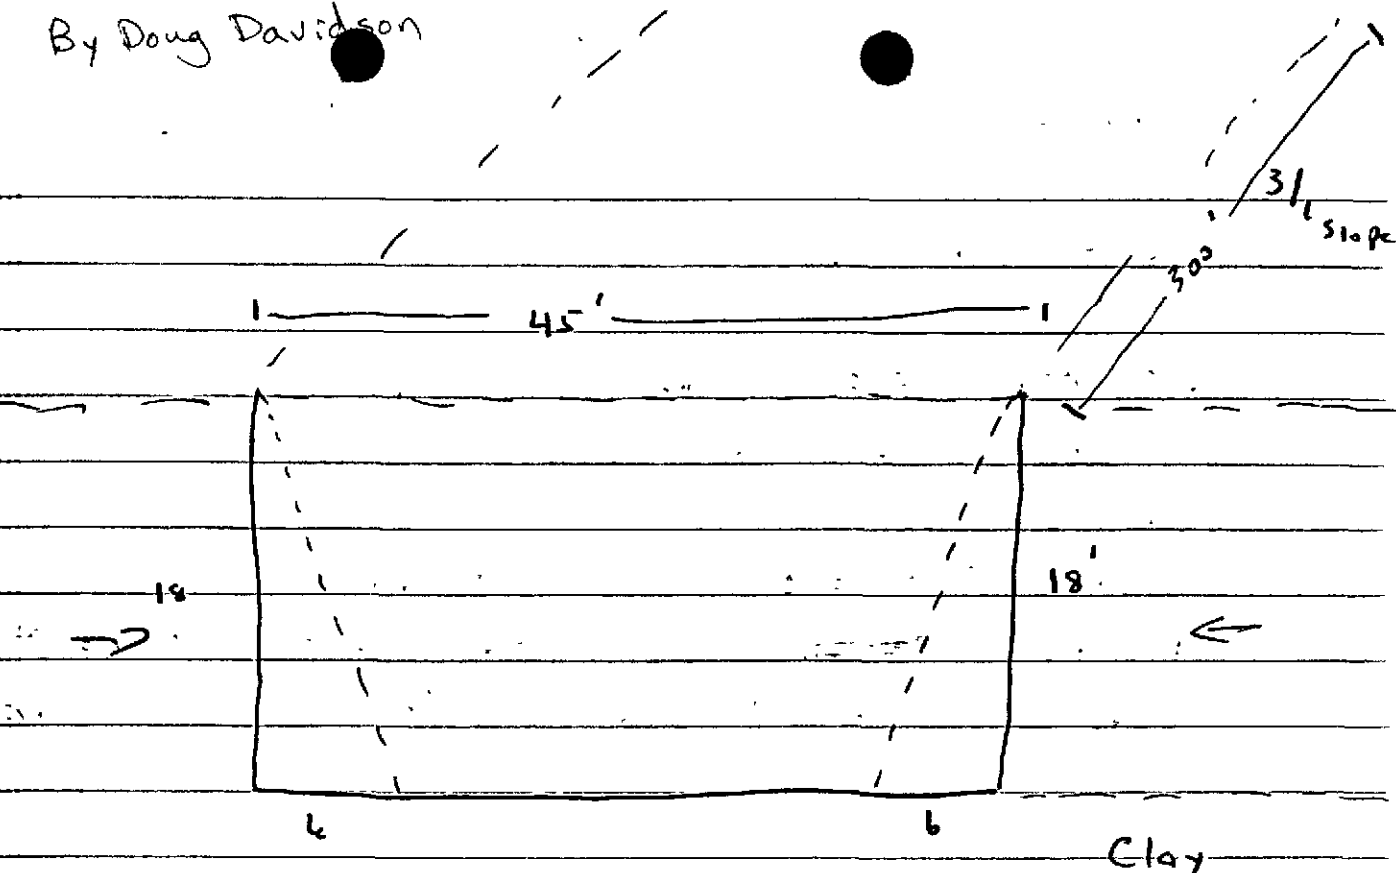

Shelley Walter Keen
Water Rights Supervisor

MEMORANDUM

TO: File 65-7624
FROM: Brenda Chapman
DATE: 8-25-94
RE: Adjustments Made

=====

* A season of use, rate or volume adjustment was recommended based on the information below.

- ☐ The stockwater rate was adjusted to the current Field Examiner's Handbook recommended rate.
- ☐ The stockwater rate was reduced based on a 24 hours a day spring diversion rather than a 2 hour per day groundwater diversion.
- ☐ The irrigation season and volume rates were adjusted to the current Field Headgate Requirement and Season of Use chart's recommendations.
- ☒ The Period of Use was modified to coincide with the standard irrigation season for that area.

SUBJECT

Exam, 65-7624

Due to Dept. error, need to reexamine this permit. There is no exam fee because of the error. I couldn't locate a file (probably just original exists at State office) and prepared the enclosed from microfiche records. Probably need a better aerial photo and some info about the system to best determine how to measure water use. Notice that the permit mentions an open pond (?). Is storage involved?

You may need to obtain a copy of original file from the State office to provide our office with a complete file.

Dear Mr. Bezates,

The examination fee sheet that you submitted explaining that a field exam had been conducted for Permit 65-7624 was temporarily misplaced. This sheet has now been located and placed in the proper file. I am sorry for the inconvenience this has caused.

The field exam conducted by John Noyes has not been located. Therefore, another field exam will have to be conducted before a water right license can be issued. A field examiner will contact you to schedule another field exam.

If you have any questions, please feel free to contact me at (208) 334-7939 or the Western Regional Office at (208) 334-2190.

Sincerely,

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

FILED

1986

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

EXAMINATION FEE REMINDER

Dear Permit Holder:

Earlier this year you were mailed a certified letter by our state office, which described a new law related to your water right permit. The water right permit to which this law applies is identified by the number at the top of the mailing label above. The purpose of this letter is to act as a reminder of the new law and to warn you that your permit is now losing priority daily.

As described in the certified letter, House Bill 671 enacted by the 1986 Idaho Legislature requires payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. The certified letter described the procedure for selecting the latter alternative, whereby you initially notify us regarding which water right examiner you have selected, and provide a statement from the examiner as verification.

The date of priority of your water right permit is now being delayed one day for each day the response is late. Also, if the fee or completed field examination report are not submitted within a year from the sixty-first day after the certified letter was mailed, the permit may be lapsed and rendered invalid. The fee, or notice that a private field examination will be conducted, should be submitted as soon as possible if you wish to maintain your permit in a valid status.

Enclosed please find an Examination Fee Information Sheet, with the License Examination Fee Schedule printed on the back. This sheet should be submitted if either the fee payment option or the private examination option is selected. If you have questions or desire assistance in this matter, please feel free to contact this office.

Sincerely,

David R. Tuthill, Jr. P.E.

MAY 31, 1981

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 65-7624 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE AUGUST 01, 1981. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. A REQUEST FOR EXTENSION OF TIME FORM IS ENCLOSED FOR YOUR CONVENIENCE. PLEASE NOTE THAT A FEE OF \$15.00 MUST BE SUBMITTED WITH THIS FORM.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

RITA FLECK
SR. SECRETARY

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Gentlemen:

Enclosed is a copy of your approved Application for Permit No. 65-7624. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

INTER-DEPARTMENT MEMO — 1

FROM Dave Tuthill

DATE August 10, 1976

TO Pete Chamberlin

SUBJECT Field exam on 65-7624 (Pre - permit)

These exams should conclude with your recommendation on whether or not you believe there will be sufficient water to satisfy the proposed use: make a judgement.

P.S. This app was approved and signed by Keith.

SIGNATURE

MEMORANDUM

FROM: Peter Chamberlin *PJC*

Date: August 4, 1976

TO: File 65-7624

RE: Pre-permit exam

On August 2, 1976, Jim Bezates accompanied me on a field examination of the Bezates Land and Cattle Company proposed diversion works. The source of water is groundwater which is to be developed by digging to large sumps (up to 50' X 100' in surface area) and pumping from the sumps to flood irrigate or sprinkle. The two sumps have not been constructed, but are to be located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 18, SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 7 T18N-R3E.

The land that the sumps are to be constructed on and the lands to be irrigated are owned by the Bezates Land and Cattle Company.

Re: Notice of Application for Permit No. 65-7624 - Bezates Land & Cattle Co.

The Star News
Box 985
McCall, ID 23638

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear in the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(Signature of Claimant)
