NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that
Harry Bettis Star Rt.,
Payette, Id has on Jan. 20,
1976 submitted Application
No. 65-7603 for a permit to
appropriate 660 acre feet per
annum of water from Dry
Creek, trib. to Payette River
by means of diversion within
the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, T. 9 N,
R. 2 W, B. M. Payette County
and ditch to a reservoir
located within the
NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 34 T. 9 N, R.
2 W. The water is proposed to
be diverted to storage at a
rate of 10 c.f.s. from Oct. 31
to April 1 and to be stored for
irrigation from Jan. 1 to Dec.
31. The water is to be used
from April 1 to Oct. 31 for
irrigation for 2,240 acres
within the S $\frac{1}{2}$ NE $\frac{1}{4}$,
SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$,
NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2,
SE $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{2}$, SE $\frac{1}{4}$, Sec. 2,
3, SE $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 4,
SE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 5,
NE $\frac{1}{4}$, SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec.
7, N $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 8,
NE $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 9,
NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 10,
T. 8 N, R. 2 W, B. M.

If issued, this permit will be
subject to all prior water
rights. Protests against the
granting of the permit must
be filed with the Idaho
Department of Water
Resources, Statehouse,
Boise, Idaho, 83720, on or
before Feb. 16, 1976.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-07603 with the following;

CONDITIONS OF APPROVAL AND REMARKS

1. The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.
2. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
3. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
4. A reservoir gage of a type approved by the Department shall be permanently installed and maintained.
5. Facility Volume = 1060 acre feet.
6. Rights 65-02204, 65-03247, 65-03248, 65-02500, 65-02501, 65-03125, 65-03126, 65-03127, 65-03128, 65-07789, 65-09076, 65-10533, 65-10534, 65-10535, 65-10536, 65-02601, 65-07603 and 65-07136 when combined shall not exceed a total diversion rate of 22.61 cfs, a total annual maximum diversion volume of 3006.5 af at the field headgate, and the irrigation of 859 acres.
7. Right 65-07136 is also diverted through the point of diversion described above.

Witness my hand this 5TH day of JANUARY, 2001.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF REMOVAL OF THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 65-7603
IN THE NAME OF HARRY BETTIS

ORDER

WHEREAS, on January 20, 1976, Harry Bettis applied to the Department of Water Resources for a permit to appropriate 10.00 cubic feet per second of water from Dry Creek tributary of the Payette River, to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, Twp. 9N, Rge. 2W B.M., to be used for storage for irrigation, irrigation and diversion to storage purposes; and,

WHEREAS, on February 24, 1976, the Department approved said application and issued Permit No. 65-7603 with the condition that proof of construction of works and application of water to beneficial use be submitted on or before February 1, 1981 and a measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on December 9, 1981, the Department received the required proof of application of water to beneficial use along with a request that the measuring device requirement be removed from said permit; and,

WHEREAS, it has been determined by the Department that a measuring device as part of the diverting works is not required at this time for determination of water appropriated under said permit; and,

WHEREAS, it has further been determined that a reservoir gage will suffice for the required measuring device;

IT IS, THEREFORE, HEREBY ORDERED that the condition of approval that "A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works" be and is changed to "A reservoir gage of a type approved by the Department shall be permanently installed and maintained."

Dated this 2nd day of March, 1981.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No 65-7603, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions
 - a. SUBJECT TO ALL PRIOR WATER RIGHTS.
 - b. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 19 81.
 - c. Other A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons _____

Witness my hand this 24 day of February, 19 76.

Director

STATE OF IDAHO

DEPARTMENT OF WATER ADMINISTRATION

POWER OF ATTORNEY

The undersigned owner (s) of Permit (Application) No. attached of the Department of Water Administration of the State of Idaho hereby nominates and appoints Idaho Land & Appraisal Service, whose address is P. O. Box 1603, Boise, ID 83701, as attorney-in-fact with full authority to act for and on behalf of the undersigned in all matters pertaining to Application or Permit. Such acts shall include, but not be limited to the filing of applications for extension of time and for amendment of said Permit, and the submission of proofs of completion of works and beneficial use of water.

Dated this 19th day of January, 19 76.

Tony Butler

State of Idaho)
 : ss
County of Ada)

On this 19th day of January, 19 76,
personally appeared before me the signer (s) of the above instrument,
who duly acknowledged to me that he (she) (they) executed the same.

RE: License No 65-7603 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Also enclosed is a copy of your Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

PAYETTE ID 83661**

**Kari Lynn Townsend
Secretary**

MICROFILMED

JAN 31 2001

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Permits 65-07136 & 65-07603

Dear Mr. Bettis:

I previously forwarded to you Applications for Amendment so that you could amend your permits to depict your water rights as they have been actually developed. I have not yet received the amendments. If I do not receive them within 14 days, I will assume you no longer have any interest in the permits and cancellation proceedings will begin.

Enclosed for your convenience are more amendment forms. Please note that the filing fee for each amendment is \$30.00 making the total due \$60.00.

If you have any questions regarding this matter, please call me at 208-327-7944.

Sincerely,

Kay Walker

Re: Permit Nos. 65-07136 and 65-07603

Dear Mr. Bettis:

The Department of Water Resources is reviewing the above referenced permits prior to issuing water right licenses. By issuing the licenses, the Department confirms that a water right has been established in compliance with the terms of the permits. The examiner who verified your water uses reported that the point of diversion and place of use developed are in locations other than what was described on your permits. Therefore, before licenses can be issued, your permits must be amended to depict your water rights as they were actually developed.

The enclosed Application for Amendment forms depict the point of diversion and place of use and other information as they will appear on your licenses when they are issued. Please review the amendment forms carefully. If you concur with the information presented please sign the forms and return them with a \$60.00 filing fee (which will cover both amendment forms) within 14 days

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7944.

Sincerely,

KAY WALKER
Sr Water Resource Agent

MEMORANDUM

TO: Files 65-07136 & 65-07603

FROM: KAY WALKER *KW*

RE: Licensing Recommendations

Date: November 16, 2000

.....

In a review of these permits for licensing I have made changes to the recommendations completed by the field examiner.

Since both permits are diverted through the same point of diversion for the same purpose of use it was determined to list a permissible place of use for the lands under these rights. We have recommended an 859 acre ppu on both permits with a limit on Permit 65-07136 since the permit only allowed 280 acres. No limit is required on 65-07603 since permit covered more acres than found irrigated. The GIS shape file (see in file 65-07603) for this system was prepared by Sue Bock in coordination with Dan Nelson who prepared the licensing recommendations at the region. It is acceptable to recommend a ppu per discussion with both Sue (Sue will be recommending the Bettis rights in the SRBA) and Dan.

Mr. Bettis has developed a ditch that can carry 58.5 cfs of water into his reservoir even though his water rights are no where close to that amount. The Mannings equation was used to measure the capacity of the ditch. Exam write-up states ditch is used for diversion of natural stream flow and floodwater.

Mr. Bettis will have water rights for 10.1 cfs of water from Dry Creek under live flow and 10.0 cfs for diversion to storage use; 22.61 cfs of Big Willow Creek water was decreed in the Payette River Basin decree. The 22.61 cfs are more than an inch to the acre but has been decreed so that is the amount used in the limiting condition on the licenses. Per Sue Bock, who has not completed her final recommendations in the SRBA, she cannot reduce the amount decreed from Big Willow but will check to see if some of that flow can be used as conveyance loss. Mr. Bettis also has 4.0 cfs of water from Sucker Creek on this same ppu. The Dry Creek rights will total 10.1 cfs of live flow and 10.0 cfs for diversion to storage which does not exceed capacity of ditch or 1" of water to the acre for the ppu so no limitation is required on the Dry Creek rights.

MICROFILMED

NOV 31 2000

I have recommended we use condition 01P for regulation of these permits in the future if necessary. The measuring device condition on 65-07136 was removed in June of 1977. In 1981, the Department issued an Order changing the measuring device condition to "a reservoir gage". Since the Department has changed original measuring device conditions on both permits at one point I recommend we use condition 01P so the Department can require a lockable device in the future if the watermaster feels it is necessary. I have also carried forward the reservoir gage condition on 65-07603 since that condition was on the permit and was complied with.

The Department attempted to license these permits back in 1984 and we received licensing amendments for each of them. These licensing amendments have never had any action taken on them so we will only be charging Mr. Bettis \$30.00 fee apiece for the two new licensing amendments that will be required.

APPLICATION FOR AMENDMENT OF A PERMIT

To change the point of diversion and/or the place of use.

Comes now Harry Bettis Phone _____
of (address) Star Route Payette, ID 83661, and represents to the
Director of the Idaho Department of Water Resources:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho
No. 65-7603, and requests that the permit and permit map be changed as follows:

1. Point of diversion: NE ¼ SE ¼, Section 27, Township 9N, Range 2W, B.M.,
County of Payette. Other points of diversion: _____

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)
Amount 10.0 for Storage purposes from 11/15 to 3/15 (both dates inclusive)
(cfs or acre feet per annum)
Amount 660.0 for Irrigation purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre feet per annum)
Amount 660.0 for Storage purposes from 3/15 to 11/51 (both dates inclusive)
(cfs or acre feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

3. Place of use or land to be irrigated:

TWP	RGE	SEC	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	

Total number of acres to be irrigated = _____

4. a. Who owns the property at the point of diversion? _____
b. Who owns the land to be irrigated or the place of use? _____
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the
applicant to make this filing: _____

E. NARRATIVE/REMARKS/COMMENTS

Permits 65-07136 and 65-07603 were field examined in 1986 by Richard J. Gemperle on 7/26/1986 and Daniel A. Nelson; Senior Agent completed the report, in August of 2000.

Richard J Gemperle's Narrative:

Natural stream flow and floodwaters are diverted from Dry Creek by use of a large diversion canal. See the Mannings Equation supplemental sheet for canal specifications. Dry Creek is then used at a lower point to carry water to its use for irrigation. Other diversion ditches carry water both East and West along to Big Willow Creek Valley.

Daniel A. Nelson's Narrative:

The water for these permits is diverted from Dry Creek in the NESE $\frac{1}{4}$ $\frac{1}{4}$ of S27 T9N R2W. The water is delivered through a canal that has a capacity of 58.5 cfs to a reservoir approximately 2000 ft from the point of diversion in the S $\frac{1}{2}$ of S27. Dam safety records show the capacity of the reservoir of 1060-acre feet of storage. The water in the reservoir is released into the Dry Creek channel to deliver the water to the fields and ditches shown on the GIS map prepared by Sue Bock. The map prepared by Sue Bock was created by using the 1987 NAPP aerial photography, Snake River Basin Adjudication (SRBA) decrees, and the CSFA maps created by Richard J Gemperle. I can not find any other lands that could be irrigated by this reservoir.

OVERLAP REVIEW:

Please see attached overlap review sheets for each section. The only overlap with this storage component is 65-07136. This storage right does not affect the remaining overlapping rights.

MICROFILMED
JAN 31 2001

RECOMMENDATIONS:

The reservoir, canal capacity, and place of use exceed the amounts requested in this permit. Therefore, I recommend that this permit be licensed as follows:

1.) DIVERSION TO STORAGE: Diversion to storage was listed on the original permit at a rate of 10.00 cfs. The Mannings calculation performed on the canal shows a possible diversion rate of 58.5. However, the permit limits the capacity of the diversion and it should be limited to 10.0 cfs for this permit and 15.6 cfs when combined with water right 65-07136. This permit requests a season of use of 01/01 to 12/31, which is acceptable for this permit.

2.) IRRIGATION STORAGE: The total capacity of the reservoir is 1060-acre feet. This permit requests 660 afa of storage and it should be limited by that amount. 65-07136 covers the other 400 AF of storage, so when combined the maximum amount of storage for this right should be 1060 AF.

3.) IRRIGATION FROM STORAGE: The irrigation from storage should be limited to the amount of storage for this right of 660 AF and a season of use the total diversion rate should be limited to 10.00 cfs or 15.6 cfs when combined with water right 65-07136. The total number of acres that can be irrigated from this storage is 577.1 acres within the above-described permissible place of use. The season of use will be 3/15 to 11/15.

Have conditions of permit approval been met? X yes ___ no

MICROFILMED
JAN 31 2001

F. FLOW CALCULATIONSYES Additional Computation Sheets Attached

Measured Method:

The Mannings calculation shows that the maximum capacity of the canal is 58.5 cfs. This permit limits the diversion to 10.0 cfs and this is what is recommended for this permit. When combined with 65-067136 the total diversion rate should be limited to 15.60 cfs.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

 $V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____ $V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____ $V = \text{Smaller of } V_{IR} \text{ and } V_{DR} =$ _____

B

2. Volume Calculations for Other Uses:

See Dam Safety sheet for dam's volume of 1060 AF. This permit is limited to 660 afa of storage and that is what is recommended for this permit. When combined with 65-07136 the total diversion rate should be limited to 1060.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
<u>DIVERSION TO STORAGE</u>	<u>11/01</u>	<u>03/15</u>	<u>10.0 CFS</u>	_____
<u>IRRIGATION STORAGE</u>	<u>11/01</u>	<u>03/15</u>	_____	<u>660 AFA</u>
<u>IRRIGATION FROM STORAGE</u>	<u>03/15</u>	<u>11/15</u>	_____	<u>660 AFA</u>
			Totals: <u>10.0 CFS</u>	<u>660 AFA</u>

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None

Please Note: These two permits are from irrigation storage from Dry Creek. There is a total of 857.1 acres of ground that can be irrigated by this permit. The first permit (65-07136) is for 400 afa of storage for 280 acres or 1.4 afa / acre. This permit (65-07603) is for 660 afa of storage for the remaining 577.1 acres or 1.14 afa per acre. The overlapping rights cover the same lands, but are from different sources and do not affect this permit. This permit can cover the lands irrigated from natural flow rights out of Dry Creek that were not covered under the first permit.

Estimation of channel flow using Mannings Equation:

FORMULA

$$V = \frac{1.49}{n} R^{2/3} S^{1/2}$$

$$Q = VA$$

WHERE

V = VELOCITY

n = MANNINGS n

$$R = \frac{A}{P} \quad \left(\frac{\text{CROSS SECTIONAL AREA}}{\text{WETTED PERIMETER}} \right)$$

S = SLOPE

CHANNEL DIMENSIONS:

EARTHEN LINED DITCH WITH IRREGULAR SIDES AND SLOPING OCCURRING IN AREA. GRASS AND DENSE WILLOW GROWTH WITHIN TO CHANNEL MANNINGS $n = .080$

CALCULATIONS:

$$S = \frac{2 \text{ FT}}{2000 \text{ FT}} = .001$$

$$A = (16 \times 3) + (3 \times 3) = 57 \text{ FT}^2$$

$$P = 16 + (\sqrt{(3)^2 + (3)^2}) \times 2 = 24.5 \text{ FT}$$

$$R = \frac{57 \text{ FT}^2}{24.5 \text{ FT}} = 2.3 \text{ FT}$$

$$V = \frac{1.49}{n} R^{2/3} S^{1/2} = \frac{1.49}{.080} (2.3)^{2/3} (.001)^{1/2} = 1.03 \text{ FT/SEC}$$

$$Q = VA = (1.03 \text{ FT/SEC}) (57 \text{ FT}^2) = 58.5 \text{ FT}^3/\text{SEC}$$

MEMORANDUM

TO: Dave Shaw
FROM: Jim Johnson
DATE: August 21, 1984
RE: 65-7136/65-7603

During Dave Tuthill's review of the license prepared for signature, he felt that right 65-7136 should maybe include a natural flow component of 5.6 cfs.

However, in reviewing the file and advertisement, the 5.6 cfs may have been intended for diversion to storage, only, it is not clear exactly what was intended by the applicant. The field examiner had recommended the 5.6 cfs as natural flow, however, the field exam only shows one point of diversion location which appears to be the diversion to storage.

The map shows lands irrigated on both sides of Big Willow Creek but does not show the conveyance system from reservoir or rediversions from Big Willow Creek, if there are any.

The field exam states that the system is gravity flow but does not show how the land east of the creek is irrigated.

If the natural flow is part of this right, then an analysis of overlap with other water rights is needed. The Payette Proposed Findings Report shows Bettis with 65-3248, 65-3247 and 65-2204 with source as Dry Creek. Each of the above rights has partial overlap with Right 65-7136 but with different points of diversion.

RE: Permit No. 65-7603

Harry Bettis
Star Route
Payette, ID 83661

Dear Mr. Bettis:

A representative of this Department made an examination of the works covered by your Permit No. 65-7603 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 660.0 acre feet Source: Dry Creek trib to Big Willow Creek

The maximum quantity diverted shall not exceed 660.0 acre feet
per year.

Point(s) of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 27, Twp 9N, Rge 2W

Beneficial Use: Diversion to storage, storage for irrigation and irrigation
from storage on lands described on attached add list.

Priority date established: January 20, 1976

Conditions (if any): This right when combined with Right 65-7136 shall not
exceed 5.0 acre feet per acre per year.

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

INTER-DEPARTMENT MEMO — 1

FROM

Jan Grover

DATE

May 18, 1984

TO

Jim Johnson

SUBJECT

Req. Reservoir Gage

I found this in my field exam file and spoke with Mike S. and Dave Lepard about it. They stated he does have a 2x4 in the top of dam with nails stuck in at 1' intervals for his use as a reservoir gage. I spoke with Dave Tuthill and asked if this would be good enough. He said since there is no one else above Mr. Bettis he didn't see any reason why it wouldn't be sufficient. Therefore, I recommend we go ahead and issue this license.

INTER-DEPARTMENT MEMO — 1

DATE 6-4-81

FROM Jim Johnson *ju*

TO Dave Shaw

SUBJECT Required Reservoir Gage

RECEIVED

JUN 8 1981

Department of Water Resources
Western Regional Office

The attached copy of an Order issued March 2, 1981, requires that a reservoir gage be installed.

The field exam does not make any reference to this gage therefore, we are not sure if the license can be issued.

Please have John confirm wheather or not the gage has been installed.

Thanks.

RE: Permit Nos. 65-7602 and 65-7603

Dear Mr. Bettis:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department.

☐ A field examination of your system has been scheduled for

If this time and date is not convenient for you, please contact this office as soon as possible.

☒ A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office.

Sincerely,

Kay Walker

RE: 65-7602 and 65-7603

Dear Mr. Battis:

Pursuant to a review of the above referenced permits, the measuring device requirements have been modified as described in the enclosed Orders.

The measuring device requirement for 65-7602 has been changed to a requirement for an access port. Department field examiners have equipment for readily measuring the output of your pump for licensing purposes when the access port is installed, thereby eliminating the need for a measuring device. Instructions for installing the access port are enclosed.

The measuring device requirement for 65-7603 has been changed to a requirement that a reservoir gage shall be installed. This device is necessary for dam safety considerations, and must be installed before the field exam is completed and the license issued.

Thanks for your visit to the office.

Sincerely,

DAVID R. TUTHILL JR., P.E.
Supervisor, Water Allocation Section

DATE 12/12/80FILE 65-7603NAME OF PARTY Harry BettisEMPLOYEE Dave TuthillRE: Measuring Device Requirement

Mr. Bettis stopped by the office to explain that the diversion ditch from ~~the~~ Dry Creek to his reservoir conveys the entire flow of the creek.

He is the only wateruser on Dry Creek and a measuring device does not appear to be necessary at this time.

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 65-7603 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE FEBRUARY 01, 1981. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. A REQUEST FOR EXTENSION OF TIME FORM IS ENCLOSED FOR YOUR CONVENIENCE. PLEASE NOTE THAT A FEE OF \$15.00 MUST BE SUBMITTED WITH THIS FORM.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

RITA FLECK
SR. SECRETARY

Dear Mr. Bettis:

Enclosed is a copy of your approved Application for Permit No. 65-7602 and 65-7603. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

65-7503 - Harry Lettice

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear in the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(Signature of Claimant)

Sincerely,

Bill submitted
