Dear Mr. and Mrs. Keller:

Re: Permit No. 65-7439

We have not received the proof of beneficial use affidavit nor a letter concerning your extension request from you.

We are now sending you a partially completed proof of beneficial use affidavit which shows only stockwater use and should be submitted if stockwater is the only use intended for your system. If you are also using the water for irrigation and domestic purposes; those need to be added to the proof affidavit.

If your project is not completed as set forth in the permit and further work is intended, please contact us and we will process your extension request. We will need to know what further work is intended.

Enclosed you will find a notice of lapsing for this permit. However, you have 60 days from the date of this notice within which to submit either the proof of beneficial use affidavit or a letter concerning your extension request. If we do not receive these within this 60-day period this permit will become of no further force or effect.

If you have any questions, please contact us.

Allen &/or Connie Keller

New Plymouth, Idaho 83655

Dear Mr. and Mrs. Keller:

We have received your request for extension and application for amendment.

However, on the application for amendment you are proposing to increase the amount of water on the permit for stockwatering purposes from 0.10 cfs to 0.25 cfs. An amendment cannot be approved for an increase in amount, or place of use as this constitutes an expansion of the water right. It is only used to change the place of use, nature of use, and point of diversion. If more water is necessary, a new permit must be applied for to cover the excess amount. Therefore, we are returning the amendment application to you.

If your system has been installed and is producing the amount of water, and is used for all the purposes originally applied for (a copy of the permit is enclosed) an extension of time is not necessary. If this is the case, the enclosed proof of beneficial use affidavit should be submitted. However, if your system, as applied for, is not completed, please contact us and we will process your extension request.

Sincerely,

JAN GROVER
Water Rights Supervisor

Re: Permit No. 65-7439

New Plymouth, ID 83655

Dear Mr. & Mrs. Keller:

One of the conditions of approval of your water Permit No. 65-7439 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.
