Gentlemen:

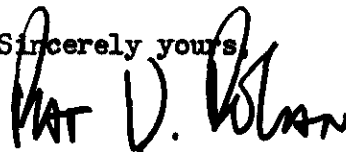

I would appreciate receipt of information concerning the submission of an application to appropriate waters for domestic purposes for use on my property (LOT 1A-2) in Cascade, Idaho.
(SUGD CR-1)

I need the requisite forms for appropriating waters from a spring located next to my lot. I also need the following specific questions answered:

1. How do I quantify "domestic supply" for purposes of making an application?
2. How is the determination made that the proposed source has surplus water from which the appropriation may be made?
3. Is it possible to obtain the legal description of the source contained in another application on file with you for the same source, or would I be required to pay for another location of the same source (since I know the name of my neighbor who has already obtained a domestic use permit on this same source)?
4. Am I correct in interpreting the existing statutes to allow up to eleven years for application of the water to beneficial use? How long would an application such as mine be given before my permanent dwelling structure would have to be erected?

Your assistance in this matter would be most appreciated.

Sincerely yours,

Patrick D. Dolan

Re: DOLAN, Patrick D. and Charlene L.
Water Permit No. 65-7412

Department of Water Resources

Gentlemen:

Enclosed please find our Proof of Application form with regard to the above-referenced water permit.

In regard to the information as set forth on the form, I call your particular attention to Item 7 (a) wherein there were some modifications made in the work for diverting and conveying water to the place of use. In the original application, I had stated my intention to attach to the Levers' (Water License No. 65-2675) cistern, and run approximately 280 feet of 3/4" CPVC pipe into an 80-gallon pressurized water tank utilizing a 1/2 hp. pump.

At the time that the improvements were installed, I found that it was only necessary to run approximately 140 feet of 3/4" CPVC pipe to bring the water to the point of utilization upon my property. In addition, I found that a 50-gallon tank was adequate for the present and that the gravity flow was sufficient that I did not need to install, at the present time, any pump mechanism. In point of fact, however, I do plan on installing a pressure pump in order that the future utilization of the water will enable me added pressure.

Should you require any additional information from me, I would be pleased to supply the same upon your request.

Very truly yours,

PATRICK D. DOLAN

Dear Mr. & Mrs. Dolan:

One of the conditions of approval of your water Permit No. 65-7412 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Re: Application for Permit No. 65-7410 - H. T. &/or Helen J. Morcom
65-7412 - Patrick D. & Charlyne L. Dolan

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Sincerely,

*Bill submitted

Dear Mr. Dolan:

We are processing your application for permit, however before we issue final approval on any permit where the point of diversion is not on property owned by the applicant, we require a copy of the agreement which gives you the authority to trespass.

This not only protects property owners, but the applicant as well.

If you have any questions, please contact this office.

Very truly yours,
