RE: Water Right No. 65-7375

Edward Grindstaff 1020 W. 2nd Weiser, ID 83672

Dear Mr. Grindstaff:

We are in receipt of the correspondence concerning ownership of the above referenced water right.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right license, if the previous land owner did not exclude the water right from the sale. Therefore, we will place your correspondence in the file for future reference only and no further action will be taken.

If you have any questions, please let us know.

Sincerely,

Water Rights Supervisor

Delwin C. Jones Box 922 Caldwell, ID 83605

Dear Mr. Jones:

One of the conditions of approval of your water Permit No. 65-7375 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, <u>Idaho Code</u>, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
