THIS IS TO CERTIFY, that GEORGE & MARGARET HILL
of Reno, Nevada, has complied with the terms and conditions of Permit
No. 65-7265 issued pursuant to Application for Permit dated April 3, 1972,
and has submitted proof to the Department of Water Resources on August 7, 1978,
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of 0.10 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic (3)</u>	<u>from January 1 to December 31</u>	<u>at 0.10 cfs</u>	<u>and 3.6 acre feet</u>
_____	_____	_____	_____
_____	_____	_____	_____

Subject, however, to the condition that no more than 0.10 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
3.6 acre feet per year, said waters to be diverted within the SE¹SE¹, Sec. 3, Twp. 13N,

Dear Mr. & Mrs. Hill

A representative of this Department made an examination of the works covered by your Permit No. 65-7265 ~~on~~ in July, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.10 cfs Source: groundwater

The maximum quantity diverted shall not exceed 3.6 acre feet per
year.

Point of diversion: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 3, Twp. 13 N., Rge. 3 E., B.M.

Beneficial use: Domestic use for three houses within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 3,
Twp. 13 N., Rge. 3 E., B.M.

Priority date established: April 3, 1972

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Dear Sir:

I am writing to request information that I have been informed that may have been requested in a well log record. I need the name and address of a well driller for a proof of beneficial use document.

The well was drilled in August - September of 1962, S.E. $\frac{1}{4}$ S.E. $\frac{1}{4}$, Sec. 3, Twp. T-13-N, Rge. 3-E, Lot 19, Block 2, Gratton & Barnard Sub. two, Cascade, Ida., Valley Co.

I am sending a copy of a letter to Anita L Warntjes, this same date, in hope that if she is unable to act that your office can handle the situation.

Thank you.

Sincerely,

Anita L. Warntjes

Dear Ms Warntjes:

I received your letter dated 1-13-78 with considerable anxiety. I have a large file of correspondence concerning this application for water rights. There seems to be new forms every year. I now have two claim numbers with the names in different order and two priority dates. (4-3-72 and 6-63)

At the present time I am working on getting a Proof of beneficial use document, as requested for permit #65-7265. I can't locate the well drillers' name or address. (Pruett or Bowlands?) There must be quite a file on us by now, apparently from some snarl, who knows where. It is becoming increasingly difficult to handle the conflicting data.

You were so kind to offer assistance at the end of your letter. I am sending some sample copies of my papers. I sincerely hope that you can help us or advise us on what help to seek in this problem. The well was drilled in August and September of 1962. We have been trying in all good faith and honest effort to return all forms, documents fees and queries since being informed that we needed a permit.

If it is in your power to help us in this situation we would be very relieved.

Sincerely,

George Hill

Dear Mr. Hill:

We are returning your application and your Check No. 94-58 in the amount of \$10.00. In reviewing your application we find that there are several items that need clarification before we can process it.

Under Item 3a you have listed the point of diversion as the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 3, Township 33 North, Range 3. We have no way of determining whether the range is 3 East or 3 West. Please submit this information under Item 8a(1) also.

Due to the fact that the application is in the name of George and Margaret Hill, it will be necessary to have both signatures on Page 3 of the application.

Please clarify these items and return the application as soon as possible so that we may continue with its processing.

Dear Mr. Koenig:

In reply to your letter of Feb. 17, 1972, there is apparently some misunderstanding somewhere along the line in regard to my application.

This well, located on lot 19 in block 2 of Gratton-Barnard subdivision No. 2, was drilled in August of 1961 and has been in continuous summer use since that time. I am advised that a recent legislative act has made it necessary to secure a permit from the State for the use of even a small domestic type well such as this and application was made to the State in an effort to conform to this ruling.

This well is 6" in diameter and is 185' deep. It cased all the way down with $\frac{1}{2}$ " wall steel casing and is perforated at 160'. In view of it's considerable depth before perforation, we doubt that it could be subject to surface contamination.

If there is any further information we can furnish, we will most happy to comply.

Sincerely,

George Hill

Dear Mr. Hill:

I have received a water permit application from the Idaho Department of Water Administration for your proposed well on the West side of Cascade Reservoir. Due to the development on this side of the reservoir, we are concerned about water supplies in the area.

We would appreciate the opportunity to review the plans for this well and system. We review such items as location, well construction, well sealing, sources of possible contamination, and other factors to prevent contamination or future contamination of the well.

Your cooperation would be appreciated.

Mr. George Hill

Dear Mr. Hill:

It has been brought to our attention by the Forest Service of New Meadows, that possibly you have listed the wrong township when you filed your application for permit. You have listed the location at your point of diversion as the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, Township 23 North, Range 3 East, Boise Meridian, which is located in the wilderness of Idaho County. We have no way of determining actually where Gratton Bernard Subdivision #2 is located. If your land is located by the south end of the Cascade Reservoir, the township will be 13 North, rather than 23 North.

We have taken the liberty of re-typing your application and locating the point of diversion as the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, Township 13 North, Range 3 East, Boise Meridian. If you agree, please sign our typed application once again at the bottom of page three and return it to this Department.

Due to the fact that your application has been advertised, it will be necessary for you to submit a \$10.00 fee for re-advertisement. Upon receipt of this fee, and our re-typed application, we will then proceed once again in the processing of your application for permit.

If you should have any questions in reference to this matter, please do not hesitate to contact this Department.

Dear Mr. & Mrs. Hill:

One of the conditions of approval of your water Permit No. 65-7265 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

We received your letter, dated Feb. 28, 1977, regarding the affidavit for required proof of beneficial use. We are unable to provide the information requested by the date indicated due to a death in the family of the person handling this matter.

The well on our property is used for a summer cabin. We will not be able to get up to the property until June to verify the status of the well. If I recall correctly, the pump was pulled for repairs and some of the works were temporarily dismantled.

We were under the impression that all requirements had been fulfilled several years ago. We therefore request an extension of time to allow an onsite inspection and for the gathering of information required for the proof affidavit.

Mr. George Hill

Dear Mr. Hill:

It has been brought to our attention by the Forest Service of New Meadows, that possibly you have listed the wrong township when you filed your application for permit. You have listed the location at your point of diversion as the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, Township 23 North, Range 3 East, Boise Meridian, which is located in the wilderness of Idaho County. We have no way of determining actually where Gratton Bernard Subdivision #2 is located. If your land is located by the south end of the Cascade Reservoir, the township will be 13 North, rather than 23 North.

We have taken the liberty of re-typing your application and locating the point of diversion as the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, Township 13 North, Range 3 East, Boise Meridian. If you agree, please sign our typed application once again at the bottom of page three and return it to this Department.

Due to the fact that your application has been advertised, it will be necessary for you to submit a \$10.00 fee for re-advertisement. Upon receipt of this fee, and our re-typed application, we will then proceed once again in the processing of your application for permit.

If you should have any questions in reference to this matter, please do not hesitate to contact this Department.

Very truly yours,

Fred Eisenbarth

Dear Mr. McEldowney:

In answer to your letter concerning Permit No. 77-7022 for George Hill, this office has not received plans for this installation.

The location, number of families served, and the use of septic tank and tile fields in this subdivision would necessitate that the well be properly protected. Precautions such as location, proper well sealing, and well construction must be considered.

I am contacting Mr. Hill for the purpose of securing plans for this installation. If I can be of any additional help, please feel free to contact this office.

Yours truly,

Larry L. Koenig

Dear Mr. Hill:

We are returning your application and your ~~Check~~ No. 94-58 in the amount of \$10.00. In reviewing your application we find that there are several items that need clarification before we can process it.

Under Item 3a you have listed the point of diversion as the SE 1/4, Section 3, Township 23 North, Range 3. We have no way of determining whether the range is 3 East or 3 West. Please submit this information under Item 8a(1) also.

Due to the fact that the application is in the name of George and Margaret Hill, it will be necessary to have both signatures on Page 3 of the application.

Please clarify these items and return the application as soon as possible so that we may continue with its processing.

Very truly yours,
