WATER RIGHT LICENSE

License of Water Right No. 65-7257 Priority April 29, 1972 Amount .30 cfs (late proof)

THIS IS TO CERTIFY, that JUGHANDLE CORPORATION
of McCall, Idaho, has complied with the terms and conditions of Permit
No. 65-7257 issued pursuant to Application for Permit dated February 18, 1972,
and has submitted proof to the Department of Water Resources on November 10, 1977,
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of .30 cfs of water from a spring,
tributary to Boulder Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic (57 units)	from <u>January 1</u> to <u>December 31</u> at <u>.30</u> cfs and <u>68.4</u> acre feet		
	from <u> </u> to <u> </u> at <u> </u> cfs and <u> </u> acre feet		
Recreation	from <u>January 1</u> to <u>December 31</u> at <u> </u> cfs and <u>14</u> acre feet		
	(both dates inclusive)		

Subject, however, to condition that no more than .30 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
82.4 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 7, Twp. 17N,
Rge. 4E, BLM. in the County of Valley

Description and location of place of use.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO's. 65-7257 AND
65-7290 IN THE NAME OF MOOSEJAW ASSOCIATES

ORDER OF REINSTATEMENT

WHEREAS, on February 18, 1972, Moosejaw Associates applied to the Department of Water Resources for a permit to appropriate 1.14 cubic feet per second of water from an unnamed spring within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, and NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 7, Twp. 17N, Rge. 4E, B.M., Valley County, to be used for domestic and recreation purposes, and on July 7, 1972, the Moosejaw Associates applied for a permit to appropriate 0.30 cubic feet per second of groundwater to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 7, Twp. 17N, Rge. 4E, B.M., Valley County, to be used for domestic purposes; and,

WHEREAS, on September 18, 1972, the first permit was issued and given number 65-7257 and on September 19, 1972, the second permit was issued and given number 65-7290, both with the conditions that proof of beneficial use of water be submitted to the Department on or before September 1, 1977; and,

WHEREAS, on December 9, 1976, the permit holder submitted two notarized Payette River adjudication claims; and,

WHEREAS, these claims were returned by letter of December 30, 1976, from the Department stating that previous claims had already been filed for these water rights; and,

WHEREAS, on June 30, 1977, the Department notified the permit holder by certified mail that proof of beneficial use of water was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on September 6, 1977, in answer to the June 30 proof due notices, a letter stating that he had already submitted notarized documents on the two permits was sent by the permit holder; and,

WHEREAS, on September 9, 1977, the Department notified the permit holder that the permits had lapsed; and,

WHEREAS, the permit holder notified the Department that these documents had already been filed and notarized in 1976; and,

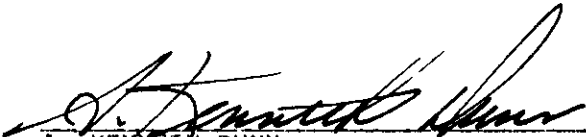

WHEREAS, there was a lack of understanding between the permit holder and the Department; and,

WHEREAS, the permit holder has been proceeding with diligence in the completion of his projects; and,

WHEREAS, the permits should be reinstated and the proofs should be accepted;

IT IS, THEREFORE, HEREBY ORDERED and Permit No's. 65-7257 and 65-7290 are REINSTATED and the priority is advanced to April 29, 1972 for Permit No. 65-7257 and to September 15, 1972 for Permit No. 65-7290.

Dated this 30 day of January, 1978.

A. KENNETH DUNN
Deputy Director

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

In the Matter of Application for Permit No.)
65-7257 in the name of Moosejaw Associates)
_____)

MEMORANDUM DECISION
AND ORDER

On February 18, 1972, Moosejaw Associates applied to the Department of Water Administration for a permit to appropriate 1.14 cubic feet per second and/or 20 acre feet per annum of water from an unnamed springs within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 7, Twp. 17 N, Rge. 4 E, B.M., Valley County, to be used for domestic and recreation purposes.

The Department caused notice of the application to be published in the Star News at McCall, Idaho, on March 9 and March 16, 1972. On March 27, 1972, the Department received a protest against said application from the Roseberry Irrigation District. As a result of that protest, a conference was held on June 27, 1972, at McCall, Idaho.

At the above mentioned conference, both parties requested a delay so that an agreement might be worked out to supply water during the period of short water supply. As an agreement was not forthcoming, the Department held an informal hearing on September 1, 1972, at McCall, Idaho.

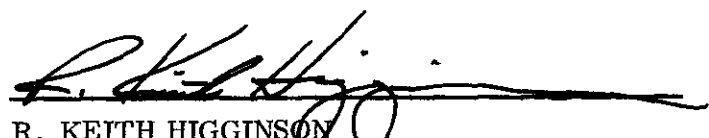

As a result of the informal hearing, on September 11, 1972, the Department received a withdrawal of the protest from the protestant, Roseberry Irrigation District.

IT IS, THEREFORE, HEREBY ORDERED that Application for Permit No. 65-7257 be APPROVED subject to the following conditions:

1. That the permit be and is subject to all prior water rights.
2. That proof of construction of works and application of water to beneficial use be submitted to the Department on or before September 1, 1977.
3. That measuring devices of a type approved by the Department be permanently installed and maintained as part of the inlet and outlet works.

Dated this 18 day of September, 1972.

TO Mike Stubblefield

DATE April 2, 1987

SUBJECT License No. 65-7257

I've been delinquent in responding to your request to amend the storage component on the above right for the Jughandle Estates reservoir. I find nothing wrong with your numbers - but I'm reluctant to charge the right unless the request is coming from the owner and we find that the measurement of the examiner was clearly erroneous. I'm not sure either factor prompts a change. Furthermore, the license holders had the opportunity to differ with the ~~amount~~ quantity of storage at the time of licensing.

FROM MIKE STUBBLEFIELD

DATE 12/3/06

TO FILE NO. GS-7257

SUBJECT JUGHANDLE ESTATES DAM RESERVOIR CAPACITY.

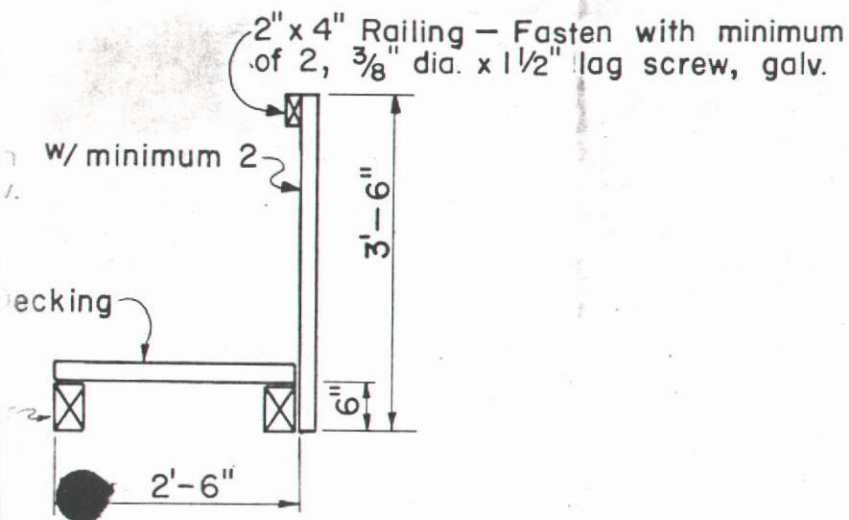

Application No. GS-7257 was originally filed for 20 AF for recreation use. The field exam for licensing the water right calculated the reservoir would hold only 14 AC-FT; therefore, the reservoir was licensed for 14 A-F instead of 20 AF as noted in the permit.

A contour map of the reservoir is provided in the dam safety files (OGS-7257) which indicates the actual reservoir capacity is 26.56 AF. I feel the license needs to be amended to allow the original 20 AF rather than 14 AF.

Dear Ms. Johnson:

Re: Jughandle Estates
Water System Design Requirements

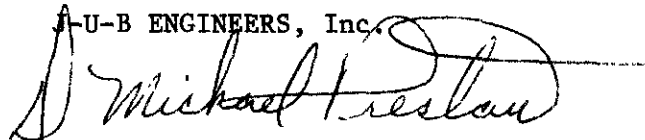

This letter is to acknowledge to your office that the Jughandle Estates Subdivision's domestic water system was designed on the basis of requiring approximately three-tenths (3/10) cubic feet per second water right from the spring source to handle both the domestic and lake requirements for the development.

Our request for more than one (1) cubic foot per second was prior to the actual design of the system and measurement of the water available at the source. We have since reduced our requirements.

If you have any questions regarding this issue, please call.

Sincerely,

J-U-B ENGINEERS, Inc.

Gentlemen:

Enclosed is an Order of Reinstatement; please note that the priorities of both permits have been advanced.

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in **Boise**.

Gentlemen:

Our office received your water right claims (65-7290 and 65-7257) on December 9, 1976. It appears that these two claims are duplicate filings of the ones you submitted in January of 1974. We will disregard your recent filing of these two claims unless our assumption is not correct.

The third claim you recently submitted (65-7573) is not a duplication; however, you neglected to have it notarized. Please resubmit this claim as soon as possible after having it notarized.

If you have any questions regarding this action, please feel free to contact this office.

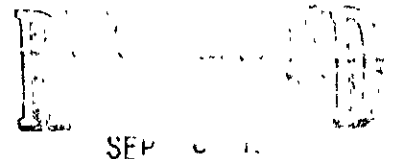

Sincerely,

Moosejaw Associates
Attn: Mr. Lester O. Peterson
Box 95, Route 1
McCall, Idaho 83638

Dear Mr. Peterson:

You recently submitted a proof of beneficial use affidavit for your Permit No. 65-7257, however, this proof cannot be accepted since it was filed more than 60 days after you were notified that your permit had lapsed. The last date that proof of beneficial use could be accepted on your permit was November 8, 1977 and we received your proof on November 10, 1977. Therefore, your permit can no longer be reinstated.

If you wish to continue with the project and the use of water, a new application for permit must be filed. Enclosed is an application for permit form and instructions. If you need any assistance, please feel free to visit our office at Boise at 92 South Cole Road. If you have any questions, please let us know.

Sincerely,

Lester O. Peterson
Moosejaw, Assoc.
Box 95, Route #1
McCall, ID 83638

Dear Mr. Peterson:

This is in reference to your letter dated September 28, 1977.

The forms which were mailed to you on June 30, 1977, were for making proof of beneficial use for the above referenced permits. This was a condition of approval of your permits when they were approved on September 18 and 19, 1972. Enclosed are copies of these permits. (See last page of Permit No. 65-7290 Item #1b and Memorandum Decision and Order for Permit No. 65-7257 for these conditions). In order for the field exam to be made and a license issued, based on the findings of the field examiner, these proof affidavits must be submitted. We are again enclosing these forms with instructions. Please complete and return these by November 8, 1977, in order to avoid the lapsing of the permits.

If you have any questions, or need any assistance, please contact us.

Moosejaw Associates
c/o Lester O. Peterson
Route 1, Box 95
McCall, Idaho 83638

Dear Mr. Peterson:

One of the conditions of approval of your water Permit No. 65-7257,
65-7290 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: 65-7257

Mr. Lester G. Peterson
Rt. 1, Box 95
McCall, ID 83638

Dear Mr. Peterson:

Enclosed is a certificate for storage of water behind Jughandle Estates Dam. The Department has issued this certificate in accordance with Title 42, Chapter 17 of the Idaho Code. The certificate is issued for a two-year period, at which time the dam will be re-examined and another certificate issued, if it is in satisfactory condition.

A recent inspection of the dam revealed it to be in satisfactory condition and no maintenance work will be required at this time; however, the willows planted in the seepage area on the north end of the dam must be removed. Any change in seepage must be noted and reported to this Department immediately.

Two feet of freeboard is the minimum allowable for this dam and if any settlement takes place in the dam, the spillway would have to be modified or the crest of the dam built up to meet this requirement. As discussed with you during a recent inspection by the Department, the spillway grate openings must be large enough to prevent clogging by small debris, leaves, etc.

Please feel free to contact me, if you have any questions.

Sincerely,

Kenneth H. Foit

R.W.H.

65 72574

September 5, 1972

The regular meeting of the Roseberry Irrigation District was called to order by Chm. Bob Baker. All of the Directors were present, also, Ken Leach.

The minutes of the previous meeting were read and approved. The correspondence was read with 4 warrants drawn:

849 Kenneth W. Leach	\$298.35
850 Boise Project Board of Control	222.00
851 Idaho Power Company	65.04
852 Public Employee Retirement System of Idaho	14.91

It was discussed that the Cecil Hanes pipe crossing could use some more dirt over the top, as reported by Ken Leach.

The Directors reported on the hearing with the Idaho State Dept. of Water Administration that they all attended on September 1, 1972, concerning the Moosejaw and Associates filing for a water permit #65-7257. It was further discussed that the District would drop its protest in view of the fact that downstream storage on this stream would insure the applicant sufficient domestic water during July and August, and Mr. Peterson of Moosejaw and Associates, has indicated he would accept a reasonable settlement for such land as a lower storage reservoir might require. A motion was made by Bob Keyes that the Roseberry Irrigation District hereby withdraw its' protest to this Application. Seconded by Paul Kleint. Carried. A photo-copy of these minutes to be sent to the Department of Water Administration.

It was decided that Ken Leach would be paid the regular monthly salary for the month of August then to go on single handed labor. Mr. Leach stated that irrigation water stopped on August 22, this season.

Discussion on Pearle James' ditch, to attempt this fall to dig a drain, then to use the dirt later to build up the fill. Back-hoe operator to be contacted.

Bob Keyes reported that Ken Leach had done a good job on cleaning up the dam, however, more needs to be done soon.

Discussion on blowing a deeper ditch between the two parts of Boulder Lake to attempt to obtain additional water from the upper end.

The obs. Lappens crossing was discussed again and a new plan drawn up by the SCD was reviewed. More information is to be sought, then presented to Mr. Lappens for his consideration.

The meeting was adjourned.

8/23/72

65 7257

M E M O

TO: File # 65-7257

On June 27, 1972, at McCall, Idaho, a hearing was held to consider the protest against the approval of application for permit # 65-7257.

The applicant, Moosejaw Associates, was represented by Ward Hower, attorney-at-law, from Cascade, Idaho. The protestant, Roseberry Irrigation District, was represented by Robert Bakes, chairman, Robert Keyes and Paul Kleint, members of the board.

After discussing the issues, it seemed apparent that water would not be available for use during the later part of the irrigation season, possibly a two-month period. A delay was requested by both parties so that an agreement might be worked out to supply water during the period of short water supply. An agreement should be submitted on or before August 26, 1972.

There are two individuals that own farms between the point of diversion and the point where water is returned to Boulder Creek that could be injured by the "non-consumptive" use of water for filling the recreation pond.

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

In the Matter of Protest Against Approval)
of Application for Permit No. 65-7257 in)
the name of MOOSEJAW ASSOCIATES)

NOTICE OF HEARING

On February 18, 1972, Moosejaw Associates filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. On March 27, 1972, the Department received a protest against approval of said application from the Roseberry Irrigation District.

The Department has set the matter of protest for hearing for Friday, September 1, 1972, at 1:00 p.m., in the Conference Room of the Inter-Mountain State Bank at McCall, Idaho. Said hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before said hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 14 day of August, 1972.

RE: Application for Permit #65-7257 and,
Letter of July 12, 1972

Gentlemen:

After considerable discussion the Directors of the Roseberry Irrigation have decided that any filing on the spring in question would be a detriment to our water supply, unless a definite arrangement for water storage is made further down this creek; to supply water during the critical July-August irrigation season.

Since there is a possibility that a site exists, we are hoping that Mr. Heikkila and Mr. Petersen might still get together.

Sincerely,

Gretel M. Kleint

Re: Application for Permit No. 65-7257 - Moosejaw Associates

Vernon & Irene Heikkila
Route 1 - Box 94
McCall, Idaho 83638

Dear Mr. & Mrs. Heikkila:

We received your July 14th letter protesting the approval of the above referenced application for permit. However, we cannot accept your protest as the final date for submitting protests was March 27, 1972.

You indicate in your letter that you feel you have a right that has been established by diversion and beneficial use of the water dating back to 1942. If this can be established in the District Court, either by a quiet title action now or during the Payette River Adjudication at a future date, then the permit, if issued to Moosejaw Associates, would have a later priority than your right.

Your letter has been entered in the file of Application for Permit No. 65-7257 to indicate your concern about this appropriation.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

RE: Application for Permit 65-7257

Roseberry Irrigation District
Board of Directors
P. O. Box 42
Donnelly, Idaho 83615

Gentlemen:

We recently received a letter from D. Michael Preston of J-U-B Engineers, Inc. who is representing Moosajew Associates in their development of Jughandle Estates. This letter proposes to reduce the amount of water requested from 1.14 c.f.s. to 0.3 c.f.s.

At the conference you attended in McCall, there was some concern regarding a supplementary water supply for this domestic use during periods of when the flow is not adequate to fill prior rights. Moosajew Associates has filed an application to divert groundwater from a drilled well to supply this supplementary water.

The Department is prepared to take final action on this application. If approved, the following conditions would be made a part of the permit:

1. That the amount of water diverted shall not exceed 0.3 c.f.s.
2. Subject to all prior water rights
3. A measuring device of a type approved by the Department of Water Administration shall be permanently installed and maintained
4. The use of water under this permit is subject to control by the watermaster

If the inclusion of these conditions would satisfy your protest please sign and return the enclosed protest withdrawal.

If you have any questions regarding this matter please let us know.

Sincerely,

BOBBY D. FLEMMER
Assistant Director

RECEIVED

JUL 6 1972

Department of Water Administration

Mr. Bob Fleenor
Water Administration Dept.
State of Idaho
614 W. State Street
Boise, Idaho

Dear Mr. Fleenor:

We are representing Mr. Lester Petersen in the development of the Jughandle Estates Subdivision east of Lakefork. It was brought to my attention just last week that Mr. Peterson's application for water rights to the site were protested and a hearing was held concerning this application.

As you indicated in our phone conversation on July 5, 1972, it was left up to Mr. Petersen to arrive at an agreement that would settle the differences between him and the protesters. It is my understanding that there is no quarrel over Jughandle Estates using this water for nine to ten months out of the year. The problem arises during the late irrigation season when the streams in the area are diminished and the farmers require all available water. Since these people have prior rights to the water, we are proposing to supply the subdivision from a well during these critical periods and thus would not require the use of this water when the shortage was evident.

Subsequent to the original application of 1.14 cubic feet per second, we have completed a design for the system which will only require the use of 0.3 cubic feet per second.

We are in hopes that this reduced flow should further resolve the differences between Mr. Petersen and the Irrigation District in the area since the development will require very little water for domestic use. The water that is supplied to the lake will be, in most part, returned to Boulder Creek through the lake overflow. It is my understanding that this application for useage has not been protested by the farmers since they will not be losing any appreciable amount of water.

It is, therefore, our position that we respect the prior water rights of the spring and will not utilize this water during critical flows. We are, therefore, requesting that you rule favorably to the appropriation of 0.3 cubic feet per second subject to prior rights to Moosejaw Associates, for the domestic supply to Jughandle Estates Subdivision.

Your immediate attention to this matter will be greatly appreciated.

Yours truly,

65 7257

J-U-B ENGINEERS, INC.

NOTICE OF CONFERENCE
AND/OR HEARING

On February 18, 1972, Moosejaw Associates filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. On March 27, 1972, the Department received a protest against approval of said application from the Roseberry Irrigation District.

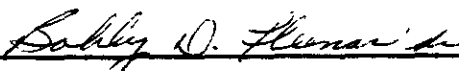

The Department has set the matter of protest for conference and/or hearing for Tuesday, June 27, 1972, at 1:00 p.m., in the Conference Room of the Inter-Mountain State Bank at McCall, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 7th day of June, 1972.

Re: Application for Permit No. 65-7257

Gentlemen:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 65-7257. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Sincerely,

BOBBY B. FLEENOR
Assistant Director

65 7257

Re: Application No. 65-7257 - Moosejaw
Associates

Gentlemen:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Sincerely,

BOBBY D. FLEENOR
Assistant Director
