Dear Sir,

Re: Permit No. 65-7124

The well and sprinkling system for our lawn and garden has been completed in compliance with the above numbered permit with one exception:

Upon reaching the 26 foot depth the driller found that the flow was insufficient so he drilled an additional two feet for a total of 28 feet. The permit calls for a 26 foot depth.

The attached receipt is the only proof of construction that I have. I did the rest of the work myself.

Dear Mr. McEldowney,

Due to the extremely sandy condition of the soil on my lot I believe that the three plus inches per acre as applied for in my application is necessary to properly irrigate my yard. I will not use that amount much of the time but I feel that the application should state the maximum amount that may be required.

Dear Mr. Salyard:

Your application proposes the diversion of .06 cubic foot per second for irrigation, whereas, Idaho law allows a maximum of .02 cubic foot per second per irrigation acre. We realize that it is very difficult to irrigate with a small quantity of water; therefore, we request that you forward a statement stating that you require the three plus inches per acre for irrigation purposes.

Your prompt attention to this matter is appreciated, and we will take final action on your permit application as soon as we hear from you.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney

Dear Mr. Salyards:

We are returning your application for permit. Please be advised that in order for the department to process your application, we must have additional information and the proper filing fee. We have taken the liberty to type the information that was appurtenant from your original application. Please enter the balance of the information requested and submit a filing fee.

Item 3a of the application requires that your well location be identified by a 40-acre subdivision of the public land survey system, section, township, and range. This information could possibly be obtained from the Payette County recorder or from your tax records.

We also assume from the information on the application that item 4 should include 0.02 c.f.s. for domestic use on a year around basis. If there is other uses to be made of this water, please advise us.

Under item 5a, enter the total appropriation that you require. If your use is only for one families domestic well, the total appropriation would probably be 0.02 c.f.s. for which a filing fee of \$10 is required.

Under item 11, a map is required showing the section, subdivision, township, and range identifying the point of diversion and place of use.

We are enclosing an instruction sheet to help you in completing the form. If we can be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
