Flood waters of Sugar Creek are diverted by use of a 30" culvert pipe which channels water into a diversion ditch. The ditch is unlined with minimal small plant growth and extends for approximately 5000 ft to a point where it meets Bissel Creek. This water supplements Bissel Creek water and is used to fill Van Dusen Reservoir for irrigation storage. Channel dimensions are given in the system description.

Cannot issue license until the following is determined:

- ☐ Amount of water measured
- ☒ Location of point of diversion
- ☐ Place of use for domestic
- ☐ Place of use for stockwater
- ☐ Place of use for irrigation (number of acres in each 40-acre subdivision)
- ☐ Installation of measuring device
- ☐ Permit holder does not agree with findings of examiner, please re-examine
- ☐ Other

According to the county map, Sucker Creek doesn't run thru the N $\frac{1}{2}$ of Sec. 16. Is the source or p.d. wrong?

Also, this appears to be the same reservoir as that licensed under 65-2953. Can we only allow 98 acre feet? Was this permit filed for an enlargement of the reservoir?

Dear Mr. Little:

One of the conditions of approval of your water Permit No. 65-7061 & 65-7110 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

To the State of Idaho Department of Reclamation

Dear Sirs:

In regards to application # 65-7061 by David Little for a storage dam from Succor Creek.

I have Water License # 19203 for one second foot of water from Succor Creek, tributary of Big Willow Creek. This License was recorded on December 9, 1946 in Book 7 of Licenses, page 4311.

This storage project proposed by Mr. Little would impair my water rights on Succor Creek. Also, Succor Creek does not normally contain the amount of water necessary to make such a project feasible.

Sincerely yours,

James R. Mitchell

Thank you sincerely for your cooperation.

Yours very truly,
