Dear Mr. Reed:

I am enclosing an assignment of permit form in the event Mr. Mosel wishes to assign his water permit number 65-7054 to a new owner. Please see that the form is properly filled out and returned to this office. There is no fee for this service.

As I related to you in our telephone conversation today, Mr. Mosel submitted his application October 7, 1968, and requested an extension of the time limit to submit proof to beneficial use. The applicant or assignee, whichever the case may be, must submit proof that he is putting the water to beneficial use on or before December 1, 1978.

Domestic use is defined as the water necessary for one household, including livestock and irrigation of up to one-half acre of land. The total for all uses cannot exceed 13,000 gallons per day. The development of ground-water (well water) used strictly for the purpose of domestic use is an exception to the permit system and need not be filed with this agency.

Surface water, such as Mr. Mosley's unnamed spring as a source of water supply for domestic use, is not included in this exception.

If I can be of further assistance, please do not hesitate to contact me.
