Dear Sir:

The Idaho Department of Parks has recently submitted applications for well permits in Henrys Lake and Ponderosa State Park. An error was made in two items on both of the applications. Please change the amount of water appropriated from 0.02 cu. ft. per second to 0.07 cu. ft. per second and culinary use to domestic use on both applications.

Your assistance in this matter will be appreciated.

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS:

9. The owner shall contact the Department to identify the driller before well drilling starts.
10. If the well being replaced is no longer to be used, it must be abandoned in accordance with the Minimum Well Construction Standards.

Dated this 11 day of April, 19 89.

Gentlemen:

Enclosed please find a copy of the approved application for amendment for the above referenced permit.

A representative of this Department has made an examination of the works covered by your Permit No. 65-7013 and has found the following:

Quantity of water diverted: 0.09 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.07 cfs

The maximum quantity of water diverted shall not exceed 16.7 acre feet per year.

Beneficial use: Domestic purposes within the NW $\frac{1}{4}$, Sec. 3, Twp. 18 N, Rge. 3 E, B.M. (Ponderosa State Park)

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$ (2 points), Sec. 3, Twp. 18 N, Rge. 3 E, B.M.

Priority date established: June 28, 1967

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth above.

Dear Mr. Higginson:

Reference is made to your letter of June 26, 1972, regarding the pending cancellation of Permit No. 65-7003. Please find enclosed a copy of Permit No. 65-7013 which has been amended to include both wells and provides for two points of diversion within the SW $\frac{1}{4}$ NW $\frac{1}{4}$.

Your favorable consideration of this amendment will be appreciated. We anticipate developing this well as soon as funds become available. At this time, we will submit an application for an additional amount of water.

Thank you for your assistance in this matter, and we will look forward to your earliest reply.

Sincerely,

Re: Permit No. 65-7003

Dear Mr. Bly:

We have received your June 8th letter concerning the pending cancellation of Permit No. 65-7003.

This well is one of the two wells within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3 used as a water supply for Ponderosa State Park. The well presently supplying the Park is covered by Permit No. 65-7013 for which a license is presently pending.

Since the reserve well is not being used, or was not used during the development period, it must be cancelled. However, if Permit No. 65-7013 was amended to include both wells, two points of diversion within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, the well covered by Permit No. 65-7003 could be retained as a reserve well. The amendment would allow you the flexibility of pumping the permitted amount of water from either well.

As your need for water continues to expand and the use of both wells simultaneously is necessary, another application should be filed for the additional amount of water.

Please contact me if you have further questions.

Very truly yours,

R. KEITH HIGGINSON
Director

Dear Mr. Higginson:

Reference is made to your letter of March 18, 1971, regarding permits #65-7003 and #65-7013.

According to our records we have a total of five water sources for which we have requested permits. These are:

- No. 65-0544 - SE 1/4 NE 1/4 Sec. 4 T 18 N, R 3 E, B.M.-Old residence well
- No. 65-0545 - SW1/4 NE 1/4 Sec. 3 T 18 N, R 3 E, B.M.-Pilgrim Cove well
- No. 65-2333 - Payette Lake - Storage
- No. 65-7003 - SW1/4 NW1/4 Sec. 3 T 18 N, R 3 E, B.M.-New park well
- No. 65-7013 - SW1/4 NW1/4 Sec. 3 T 18 N, R 3 E, B.M.-Old park well

If the above classification is correct, then the following changes are proposed:

- Well No. 65-0544 has been capped and covered with expectations that could be used as a standby source.
- Well No. 65-7013 has been abandoned for normal operation and will be held as a standby source.
- Well No. 65-0545 will continue in service for the Pilgrim Cove summer homes and camps.
- Well No. 65-7003 will continue in service to supply all park needs.
- No. 65-2333 will still be held for Payette Lake storage.

Dept. of Water Administration
March 23, 1971

Will you please review the above and inform us of the necessary procedure to place the above program of standby and use in operation.

Idaho Dept. of Parks
2261, Warm Springs Ave.
Boise, Idaho 83707

Gentlemen:

The Department has completed a field examination of the two above referenced permits. Our information indicates that the well drilled and used through the period of 1968 under permit no. 65-7003 has been abandoned so far as normal operation is concerned and is being retained only as a reserve well, should it be needed in connection with the well developed under permit no. 65-7013.

If this understanding is true, the Department is prepared to cancel permit no. 65-7003. Before we do this, however, we would suggest that you file an amendment to permit no. 65-7013 including an additional point of diversion so that the well may be properly used as a stand-by well. This would provide two points of diversion under this permit. We are enclosing a partially prepared application for amendment.

If there are any questions, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Gentlemen:

We acknowledge receipt of your affidavit submitted as proof of beneficial use on application for permit 65-7013.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

Gentlemen:

One of the conditions of the approval of your permit 65-7013 was that proof of application of the water to beneficial use be submitted to this office on or before November 1, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

It has been brought to our attention that on or about October 26, 1967, you had a well drilled. The well is reported to be located at a point in the NW 1/4, sec. 10, T. 18 N, R. 3 E, B.M. for domestic use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you might have.

Attention: Donald W. McEldowney

Gentlemen:

We have received your letter of March 22, 1968, wherein you indicate that our Department has failed to file an application for a well drilled in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, sec. 10, T18N, R3E.

A search of our records indicates that the above-described property lies outside of the land encompassed by Ponderosa State Park. We did, however, drill a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, sec. 3, immediately north of the property described in your communication. As per your letter of October 9, 1967, we received an approved permit #65-7013. It appears to me that these wells must be one and the same; however, if further investigation reveals need for additional information, please feel free to contact me.

Sincerely,

Jon E. Soderblom
Assistant Director
