This water right as indicated by this legal description is in error due to the survey correction of the township and range grid.

According to the county map (V-156) there is no Sec. 31 and this should be considered and a correction made to the legal description at the time of adjudication of Payette River.

Presently this water right is plotted in Sec. 33 which geographically corresponds to the legal description

Dear Sir:

We are writing to you in regards to license # 657012 requesting a waiver for a measuring device. Recommended by John Noyes because the system is used only as an emergency back-up and as a back flush for the present water system.

Thank you for your help in this matter.

Re: Permit No. 65-7012

Rulon E. Thornock

Boise, Idaho

Dear Mr. Thornock:

One of the conditions of approval of your water Permit No. 65-7012 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Director
