Dear Mr. Hackney:

We are returning your personal check for the amount of \$10.00 and your application to appropriate the public waters of the State of Idaho. Before we can accept your application, we must have additional information.

Under item #2 of the application, you have failed to enter the source of water supply. We have entered "subterranean" as the source. If this is correct, please initial it. If not, enter the correct source.

In regard to item #4, quantity of water to be appropriated, please list what portion of the water claimed is to be owned by yourself and what portion is to be owned by George Oxford, and Gratton and Barnard, Inc.

Under statement #5, you have listed the use as irrigation of lawns and domestic use. Please be advised that domestic purposes include lawn irrigation, limited stock watering, and domestic purposes, not to exceed .02 cubic feet per second or 1,300 gallons per day. The second portion of #5 inquires to the period during each year that the water is to be used. Usually, domestic purposes are used year round. Therefore, a date of January 1 to December 30 would be acceptable. Please enter the period of each year that the water will be used.

Under statement #7, you are requested to apply for at least one year.

Item #11 requires a map showing the township, range, section, and legal subdivisions. We have entered the information found on the point of diversion. If this is the actual description of your land and the point of diversion, please ink in the characters on the map.

Please contact us if we may be of further assistance.
