License of Water Right No. 65-2895 Priority June 2, 1965 Amount 0.55 cfs

THIS IS TO CERTIFY, that John H. &/or Karon S. Kienitz
of Emmett, Idaho, has complied with the terms and conditions of Permit
No. 65-2895 issued pursuant to Application for Permit dated June 2, 1965,
and has submitted proof to the Department of Water Resources on March 23, 1978,
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of 0.55 cfs of water from Gill Slough & Payette River,
tributary to Snake River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

RE: Regarding source of this right

Note that the permit lists the source for this right as unnamed slough. This slough is locally known as Gill Slough and has traditionally been fed by the Payette River, rather than being tributary to. Currently there is a headgate from the river into the slough which controls the flow.

In light of local delivery practices, it appears that the source name should always have been Payette River and Gill Slough, since the river supplies a large portion of the flow and the slough contributes through its tributary waste water supplies. Therefore, in changing the source on the license, I would recommend that no delay in date of priority occur.

Permit No. 32410/65-2895

Frank D. Callender / Pearl Kennedy of Cascade,
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. 32410/65-2895.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before June 28, 1976, 1976.

That he has heretofore performed the following work described under said permit:
The entire pumping station located at diversion #2 (NE 1/4 SE 1/4, Sec 20 Twp 13N R 4E Valley count
, Ida.) has been completely done. So has the 6,800 feet of PVC pipe been laid. The
the entire system is completed except that listed below.

Cost to date of complete work-estimated at \$47,266 Costing \$

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: The main ditches leading out from the pipe outlet
are being completed this summer, or I should say we hope to complete them this summer.

Once they (the main ditches) are completed then the lateral and contour ditches
must still be built in order to bring water to all the land.

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations under said permit to June 28, 1978.

APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law;
and,

WHEREAS, these changes raised questions as to the procedures to be followed by
holders of permits issued prior to the effective date of the amendments, May 31, 1967;
and,

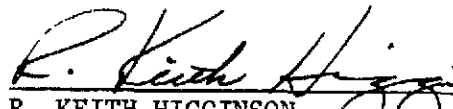

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice
and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 65-2895 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are
hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42,
Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit
holders expense for two weekly issues in the official newspaper of
the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of
works as originally specified, but will be required to submit proof
to the Department of Reclamation of the application of the water to
beneficial use on or before June 28, 1976. The permit holder should
be aware that failure to complete one-fifth (1/5) of the works within
one-half (1/2) of the time originally set for completion of works may
be grounds for cancellation at the instance of the department.

From: Dave Tuthill

On July 28, 1978 Bill MacAllister and I visited Mr. Charles Rekow of Emmett, Idaho to perform a field exam on this permit. We intended to measure a pumping system from Gill Slough in Lot 7, Sec. 6, T 6N, R 1W. However, through a misunderstanding this pump was not operating. Therefore, we decided to measure a similar pumping system in a nearby drainage ditch that Mr. Rekow was using at that time.

The pumping system described in the permit is a 25 horsepower system which delivers to the acres described on the proof of beneficial use. The system that we measured is a 40 horsepower system which delivers water to a different acreage. Both systems pumped water through a series of sprinklers. Through a calculation made with a Collins Impact Tube, we determined the flow provided by the 40 horsepower pump to be 1.17 CFS. Note that this is far less than the 2.0 CFS described in the permit. Therefore, we cannot merely assume that the systems are proportionately similar and attribute a flow to the 25 horsepower system since this flow might be smaller than 2.0 CFS.

Therefore, I recommend that the 25 horsepower ^{pump} be measured when it is operational, early in the irrigating season. In this way the true amount of the water right can be determined.

Cascade, ID 83611

Dear Mr. Callendar:

This is in reference to your letter of October 4, 1977, in connection with the above referenced permits.

We are enclosing copies of these permits for your review. The amendment on Permit No. 65-2883 supercedes the permit and is considered as how the permit now reads. This is the only changes that have happened, that we have on record, in reference to both permits.

The only connection between the permits that we can see is they are both in the name of Frank Callendar, however Permit No. 65-2883 is also in the name of Ben Goslin & Pearl Kennedy. Also the source of water in both is from tributaries of the Payette River.

Either the proof of beneficial use form recently sent or a request for an extension of time form must be received for Permit No. 65-2883 by November 15, 1977, to prevent it from lapsing. These forms must be signed by all three permit holders.

If you have any questions concerning this matter, please contact us.

Dear Mr. Callender:

One of the conditions of approval of your water Permit No. 32410/65-2895 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JUNE 28, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

On March 11, 1970, the Department contacted your office and that of the J. R. Simplot Company. We informed you in our last conversation that we would request that the Simplot Company submit to the Department a direct assignment from their Company to the gentlemen who purchased what is referred to as the Madsen Ranch. Mr. Graves has stated, however, that he feels that it would not be advisable for them to do so as they are not familiar with the contents of the contract under which you sold this property. He also stated that they have submitted to your office an assignment assigning the above referenced water permit to your company.

We should appreciate it if you would forward a copy of the assignment from the J. R. Simplot Company to your company to this office. Along with this assignment, please execute then enclosed assignment form naming the new landowner as the permit holder.

Please contact this office if we may be of further assistance.

Re: Permit No. 32410 (New No. 65-2895)

Simplot Cattle Company
Box 2777
Boise, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

The image shows a grid of graph paper with handwritten notes and a drawing. In the top left, the letters "T E N" are written. Below them, the letters "R", "2", and "W" are written vertically. To the right of these letters is a small, irregular shape filled with a cross-hatch pattern. A line with an arrow points from the bottom left towards this shape. In the center of the grid, the text "E. 111 No. 32110" is printed. Below this, there is a small, faint drawing of a person. At the bottom of the grid, there is a large, stylized signature or drawing that appears to be "Officer 111".
