IN THE MATTER OF PERMIT NO. 32947/65-2847 in the name of Clayne Cooper	ORDER MODIFYING REQUIREMENTS FOR COMPLETION OF PERMIT TO APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Water Administration adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 32947 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.

2. The conditions of the above numbered permit are modified as follows:

   a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

   b. The permittee will be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Water Administration of the application of the water to beneficial use on or before June 24, 1977 The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for completion of works may may be grounds for cancellation at the instance of the department.

E. NARRATIVE/REMARKS/COMMENTS

A 5 HP pump set in natural channel of river lifts water to an 8-10" pipeline. Diversion pipeline runs approximately 20') to dump open discharge into a main ditch. The main ditch runs along the southerly edge of the property with 3 laterals to carry water through fields. Pastures are flood irrigated and all except one has been leveled to assist in uniform application to fields.

Right Nos. 65-01854 & 65-01858 appear to overlap this right, but are no longer used according to current user. He noted that water from the old drain, P/D for wastewater under these rights, is no longer used. This right is the sole source of water used on these acres. SRBA claims on these rights should be relinquished or disallowed due to non-use. (Memo sent to AJ Section)

____ Additional Computation Sheets Attached

Measured Method:

Theoretical = $\frac{8.8 \times .7 \times 5\,hp}{5' + (2.31 \times 0')} = 6.16$ cfs capacity

No Measurement possible during exam due to low water this time of year + continued drought conditions.

168.1 Acres x .02 = 3.36 cfs

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R}$ = (Acres Irrigated) x (Irrigation Requirement) = 168.1 x 4.5 = 756.5

$V_{D.R}$ = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = 3.36 x 245 x 1.9835 = 1632.8

V = Smaller of ($V_{I.R}$) and $V_{D.R}$ = 756.5 afa

2. Volume Calculations for Other Uses: NA

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

MAY 31 1995

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Cooper:

We acknowledge receipt of the affidavit of publication for this permit. We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit, also.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Sincerely,

JANICE RENK

Re: Permit No. 65-2847

Mr. Clayne Cooper
Route 2, Box 171A
Emmett, Idaho 83617

Dear Mr. Cooper:

One of the conditions of approval of your water Permit No. 65-2847 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 24, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 32947/65-2847

Mr. Clayne Cooper
Route #2, Box 171A
Emmett, Idaho

Dear Mr. Cooper:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
