NOTICE OF PROPOSED CHANGE OF WATER RIGHTS, TRANSFER NO. 5616

Notice is given that IDAHO DEPARTMENT OF FISH AND GAME of 3101 S Powerline RD, Nampa, ID 83686 has applied to the Department of Water Resources to add a point of diversion pursuant to I.C. § 42-222 for 65-00485 recorded as follows in T7N R2E S23, Boise county:

DECREE, 65-00485, priority 7/1/1956, 1.09 cfs diversion to storage, 1.09 cfs/60 afa fish propagation storage and 1.09 cfs/ 60 afa wildlife storage for a total of 1.09 cfs/60 afa, Payette River tributary to Snake River diverted in NENW Lot 9 and used in NWN Lot 8 and NENW Lot 9.

PROPOSED CHANGE

The applicant proposes add a new point of diversion the Payette River next to their existing point of diversion for the Horseshoe Bend Mill Pond in the NENW S23 T7N R2E in Boise County.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before January 24, 2000. The protestant must also send a copy of the protest to the applicant.

PART 1**6 General Information:**

- a. Description of diversion system Current intake is gravity flow into pipe on southside of Payette River.
Pipe runs under Highway 55 then to open ditch and then to the Horseshoe Bend Mill Pond.

- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes X _____ No If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer

The additional point of diversion will allow stable water levels in the Mill Pond by the use of a pump when the river level is poor for gravity diversion or sedimentation restricts flow.

- d. Remarks:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

And said application is hereby _____, subject to the following limitations and conditions:

Witness my hand this _____ day of _____, 19 _____.

RE: Water Right 65-00485 (Transfer 5616)

Dear Water Right Holder(s):

Enclosed is the copy of your approved Transfer of Water Right for the above referenced water right (Transfer 5616). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section

MAR 20 2000

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Right 65-00485

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5616

DATE: February 29, 2000

Transfer 5616 adds a second point of diversion under Right 65-00485. The applicant is adding a pump diversion to maintain stable water levels in the pond during times when the gravity diversion is limited by river fluctuations or sediment restricts flow. The total diversion is limited to the 60 AF storage capacity of the pond.

Recommended conditions include multiple points of diversion limits, watermaster control, measuring & lockable device and standard transfer conditions.

Department of Water Resources

FILE PRESENTATION

This application was processed prior to the January 12, 2000 memo "Changes to Water Right Applications." The old technique of making application changes was used.

To avoid additional processing delay, the file is forwarded as "one in the pipeline" with respect to that memo. The regional office anticipates that this will be acceptable for this limited group of applications.

MEMORANDUM

TO: FILE

FROM: DANIEL A. NELSON *DAN*

DATE: 12/21/99

SUBJECT: IDAHO FISH AND GAME APPLICATION FOR TRANSFER OF WATER
RIGHT 65-00485

On this date I spoke with Dale Allen of the Idaho Department of Fish and Game (IDFG). Mr. Allen is the official representative of the IDFG. I asked Mr. Allen if they planned to irrigate the area around the pond since they listed acres in the place of use table on the application for transfer. Mr. Allen said that IDFG were not irrigating and did not plan to irrigate any land from the pond. Mr. Allen said the acres listed on the table was the surface area of the pond in each 40-acre tract. I also told Mr. Allen that according to the Government Plat Maps in our office it looked as though the point of diversion was located in Government Lot 9 and that place of use was located in Government Lot 8 (NWNE) and Government Lot 9 (NENW). Mr. Allen did not have a Government Plat map of the area available, but said that I should include the Government Lots to the application for a proper description.

NOTICE OF PROPOSED CHANGE OF WATER RIGHTS, TRANSFER NO. 5516

Notice is given that DEANNA STEVENSON, Editor of THE IDAHO WORLD, 3101 S Powerline RD, Nampa, ID 83656 has applied to the Department of Water Resources for approval of diversion pursuant to I.C. § 42-222 for 65-00485 recorded as follows in T7N R2E S23, Boise county:

DECREE, 65-00485, priority 7/1/1956, 1.09 cfs diversion to storage, 1.09 cfs/60 aia for proposed storage and 1.09 cfs/60 aia for storage for a total of 1.09 cfs/60 aia, Payette River tributary to Snake River diverted in NENW Lot 8 and NW 1/4 Lot 9 and NENW Lot 9.

PROPOSED CHANGE

The applicant proposes add a new point of diversion the Payette River next to their existing point of diversion for the Horseshoe Bend Hill Pond in the NENW S23 T7N R2E in Boise County.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5805, together with a protest fee of \$45 for each application on or before January 24, 2000. The protestant must also send a copy of the protest to the applicant.

Dan —

I suppose your question is whether the pump will divert more water than could be supplied previously - I think I would ask whether pond size ^(volume) is increasing - & if not send it on - purpose is probably to stabilize water levels in pond.

Thanks.

Gary

GARY,

THIS IS A SIMPLE
P/D addition. However,

DAN

DATE: 12/20/99

RE: IDAHO DEPARTMENT OF FISH AND GAME TRANSFER,
RIGHT 65-00485

The transfer proposes to add a point of diversion in the NENW S23 T7N R2E in Boise County.

DOCUMENTS AND APPLICATION PREPARATION

The application consists of 6 pages and 0 attachments.

Dale Allen of the Idaho Department of Fish and Game (IDFG) prepared the application.

Other information used in this review includes 1987 NAPP Aerial Photo, memo dated 12/15/1999, memo dated 12/21/1999, Government Plat map, place of use comparison report, water right profile report, and adjudication claim profile report. All of these documents are attached to this memo.

CURRENT RECORDS & PROPOSED CHANGE

This water right was decreed in the Payette River Basin Adjudication for Wildlife Storage, Fish Propagation Storage, and Diversion to storage for 60 afa and 1.090 cfs. An adjudication claim has been filed exactly like the original decree (see attached water right and adjudication profile reports).

The additional point of diversion will be located at approximately the same point as the original point of diversion. The transfer application does not show the annual volume for the storage rights, but the applicants are not requesting to change diversion rates or volumes. The only change this application will be the additional point of diversion (see attached water right and adjudication profile reports).

VERIFICATION & OTHER ANALYSIS

Ownership of this pond is commonly known as being in the ownership of fish and game. Many agents of this department have visited this pond in the last five years and the pond is shown on the 1987 NAPP Aerial Photo (see attached aerial photo). Forfeiture of this right is not an issue.

MICROFILMED

MAR 20 1999

A review of the Idaho Department of Water Resources data base did not reveal any overlapping water rights. There are a couple of water rights in the same 40-acre tract, but they do not seem significant to this application (see place of use comparison report).

In reviewing the maps I discovered that the point of diversion is located in Government Lot 9 and the place of use is located in the Government Lot 8 (NWNE) and Government Lot 9 (NENW) (see memo dated 12/20/1999).

On the application for transfer the applicant lists acres in the Place of Use Table (Part 1 Section 5). I contacted the applicant and they stated that this was surface area of the pond located in these 40-acre tracts. I left the acre amounts for future reference if needed.

The only problem that I foresee is the historic diversion for the pond. On page 1 of the transfer the applicant states that the diversion to the pond has been limited to fluctuations of the water levels of the river. By adding the pump diversion the applicant could deliver water to the pond during low river flows. This raises the question of whether or not this would constitute an expansion. The pond is located on the river and all water diverted to the pond is returned to the river excluding evaporative losses. Due to the close proximity of the pond to the river it is safe to assume that any water loss due to infiltration into the ground would go back into the river. The surface area of the pond should not fluctuate significantly enough to cause any significant increase in evaporative losses. Therefore, I believe that if there was any expansion it would very minimal.

RECOMENDATIONS

I recommend that this transfer be recommended as described on the decree with 2 points of diversion in the NENW Lot 9. I also recommend that the government lots be added to the original decree as indicated on page 1 of this transfer. I would also recommend that a permanent measuring device be installed to monitor the rate of diversion and the annual volume being diverted by both the pump and the original diversion.

DATE: 12/15/99

SUBJECT: FISH AND GAME APPLICATION FOR TRANSFER WATER RIGHT 65-00485

I spoke with Steve Lester today concerning the Idaho Department of Fish & Game (IDFG) application for transfer for the Mill Pond at Horseshoe Bend. Mr. Lester told me that we did not need proof of ownership or proof of use within the last 5 years. The reason for this is that it is common knowledge that IDFG owns this pond and that they have been using it for some time. Many agents of the Department of Water Resources have visited the pond for business and personal reasons over the past 5 years. Our office has a 1987 NAPP aerial photo of the pond for proof of use at that time.

**NOTICE OF PROPOSED CHANGE OF WATER
RIGHTS, TRANSFER NO. 5616**

Notice is given that **IDAHO DEPARTMENT OF FISH AND GAME** of 3101 S Powerline RD, Nampa, ID 83686 has applied to the Department of Water Resources to add a point of diversion pursuant to I.C. § 42-222 for 65-00485 recorded as follows in T7N R2E S23, Boise county:

DECREE, 65-00485, priority 7/1/1956, 1.09 cfs diversion to storage, 1.09 cfs/60 afa fish propagation storage and 1.09 cfs/ 60 afa wildlife storage for a total of 1.09 cfs/60 afa, Payette River tributary to Snake River diverted in NENW Lot 9 and used in NWNE Lot 8 and NENW Lot 9.

PROPOSED CHANGE

The applicant proposes add a new point of diversion the Payette River next to their existing point of diversion for the Horseshoe Bend Mill Pond in the NENW S23 T7N R2E in Boise County.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before January 24, 2000. The protestant must also send a copy of the protest to the applicant.

Karl J. Dreher, Director
