PLACE OF USE:

WILDLIFE, same as STOCKWATER use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right, when considered with all other rights common to the same grazing allotment, shall be limited to the quantity of water beneficially used by the number of stock within the allotment.

IN THE MATTER OF CHANGING THE)
FLOW MEASUREMENT PORT OR)
MEASURING DEVICE CONDITION)
OF APPROVAL FOR PERMIT NO.)
43-07314.)
_____)

ORDER

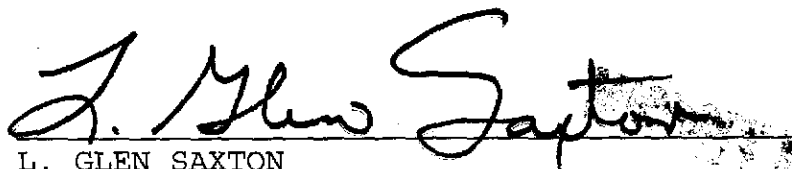

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install a flow measurement port or other device to facilitate the measurement and determination of the rate of diversion by the department; and

WHEREAS, the department has determined that the rate of diversion for certain ground water uses can be estimated by the department without the use of an installed flow measurement port; and,

WHEREAS, the department has determined that the rate of flow for the above captioned permit can be estimated without the use of a flow measurement port;

IT IS THEREFORE, HEREBY ORDERED that the condition of approval requiring the installation of a flow measurement port or other device for the above captioned permit is WAIVED. The department retains the jurisdiction to require the condition be reinstated in the future upon a finding of need by the department.

RE: WATER RIGHT NO. 43-07314

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 60 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

FROM: Brenda Chapman

DATE: October 16, 1995

RE: Returning exam for 43-07314

I recommend the exam for 43-07314 be returned to the region for clarification of the following matters:

1. ✓ The system capacity cannot be calculated without the pump's horsepower information.
2. ✓ The places of use listed on the front of the exam for Sections 4 and 34 are questionable. They do not agree with the permit and the locations shown on the exam maps are either too vague or non-existent. The inclusion of a copy of the map from the permit application adds to the confusion.
3. ✓ The number of stock using the development is not listed.
4. ✓ There is no annual volume recommendation for either use.

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method: Theoretical

$$\frac{8.8 \times 5 \times .70}{280 + (40 \times 2.31)} = 0.08\text{cfs System Capacity}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

$$V_{\text{max}} = Q \times 1.9865 \times \text{days per year} = \text{Max of Theoretical}$$
$$.08 \times 1.9865 \times 365 = 58 \text{ afa max}$$

$$\text{Wild life} = \frac{50 \times 2 \times 365}{325900} = 0.1\text{afa}$$

$$\text{Sheep} = \frac{4000 \times 2 \times 365}{325900} = 9.0\text{afa}$$

$$\text{Cattle} = \frac{400 \times 12 \times 365}{325900} = 5.0\text{afa} \quad 5.4$$

H. RECOMMENDATIONS

MEMORANDUM

TO: File 43-07314 / BLM
FROM: Brenda Chapman
DATE: December 11, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 43-07314 are based on the information below:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Stockwater	1-01 to 12-31	.08	14.4
Wildlife	1-01 to 12-31	.01	.1

2. Recommended Amendments

☐ Change P.D.	☐ Add P.D.	☐ None
☒ Change P.U.	☐ Add P.U.	☐ Other

The exam and exam maps both confirm changes in the place of use locations for T09S, R26E, and S34 and T10S, R26E and S04. An amendment is necessary.

OCTOBER 17, 1995

JAN 8 0 1996

MEMORANDUM

TO: Shelley Keen ^(SK) Southern Region
FROM: Brenda Chapman
DATE: October 16, 1995
RE: Returning exam for 43-07314

=====

I recommend the exam for 43-07314 be returned to the region for clarification of the following matters:

1. The system capacity cannot be calculated without the pump's horsepower information.
2. The places of use listed on the front of the exam for Sections 4 and 34 are questionable. They do not agree with the permit and the locations shown on the exam maps are either too vague or non-existent. The inclusion of a copy of the map from the permit application adds to the confusion.
3. The number of stock using the development is not listed.
4. There is no annual volume recommendation for either use.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 43-07314

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Additionally, enclosed is an Order waiving the flow measurement port condition from your water right permit.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls, at (208) 736-3033.

Sincerely,

A handwritten signature in cursive script, reading 'Julie L. Yarbrough', is written over the typed name.

PROOF DUE NOTICE

RE: PERMIT NO. 43-07314

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

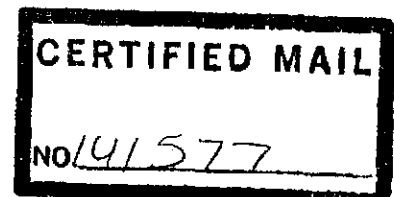

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 43-07314

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

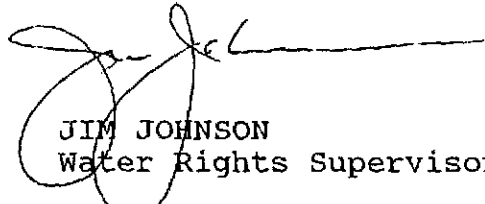

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as

OCT 26 1992

far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: Application for Permit No. 43-07314

Dear Mr. Davis:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the South Idaho Press on 2/7 & 2/14/92. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
