RE: ~~43~~-07289, Request for License Amendment Based on GPS Data

Dear Ms. McHugh:

We have had several meetings with your office to determine how best to pursue license amendments without overburdening the Idaho Department of Water Resources (IDWR) with transfers to just more accurately describe locations of water developments. Based upon IDWR's recommendation, I am requesting that IDWR amend BLM's license to correct land descriptions based upon better technological methods used to locate this water right than the acceptable, standard methods used to establish the right. Global Positioning System (GPS) is a more accurate and reliable method of determining location than previous methods relying on navigation by use of topographic maps and compasses. BLM is not seeking to transfer (or move) the location of the development, but is simply seeking to more accurately describe the original constructed location.

If there are questions regarding any statements above, please do not hesitate to contact me at 373-3828 or at the address provided above.

Sincerely,

Gary A. Madenford
Water Rights Team Leader

RE: Phone conversation with Steve Davis of the BLM

=====

Steve Davis called today to discuss permits 43-07289 and 43-07271. He thinks that the number of stock indicated on each field report is too low. He thinks that the number of stock associated with these two rights was under-reported by a range tech. who divided the number of stock on each allotment by the number of sources of water within each allotment. Steve would prefer that these rights list the number of stock in the entire allotment, up to the number listed on the original application for permit.

I asked Steve to change the number of stock on the licensing amendments before sending them to me and to include a letter explaining changes.

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 60 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 43-07289

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 43-07289

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Gentlemen:

Enclosed are copies of your approved Applications for Permit. We direct your attention to the conditions of approval on the fourth pages.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permits were issued, and you must proceed diligently until the projects are completed. The enclosed blue cards must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permits were approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licenses.

Sincerely,

GARY SPACKMAN
Supervisor, Water Allocation Section

Re: Applications for Permit No. 43-7290, 43-7289,
45-7620, 47-8077

Dear Gentlemen:

The Department of Water Resources acknowledges receipt of your water right applications for permit.

This office is currently in the process of advertising application #47-8077 in the Times News and applications #43-7290, 43-7289, and 45-7620 in the South Idaho Press on 2/4/88 and 2/11/88. The advertisements will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

LW for LH
