APPLICATION FOR PERMIT

Ident. No. 43-7160
RECEIVED

JUN 30 1980

To appropriate the public waters of the State of Idaho

Department of Water Resources
Salem District Office

1. Name of applicant Raymond H. &/or Verletta M. Anderson Phone 678-7006

Post office address Hazelton, Idaho, 83335

2. Source of water supply Subwater groundwater RA 1/13/81 which is a tributary of _____

3. Location of point of diversion is SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 5 Township 14S

Range 25E B.M. Cassia County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.40 for Irrigation purposes from May 1 to Aug. 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 0.40 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Existing 8" drain collects the subwater and delivers it to a small pond; from the pond the water is pumped to a 6" buried pipeline approx. 1000' long. The buried pipeline is plastic and delivers water to an open earthen ditch.

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial

(Note: Use was established in 1977)
use is 1 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____

Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 43-07160

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 43-07160

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P43-07160

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

RECEIVED

AUG 22 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

MEMORANDUM

TO: File - 43-7160

FROM: Jim Johnson

DATE: June 13, 1985

RE: Review of Applications Being Held in Hold Drawer Which Are
Located Within Elba Sub-basin

On May 16, 1985, the Dept. received a completed Proof of Beneficial Use form on this application. The form was apparently prepared by the applicant in response to Idaho Power's attempt to determine when water use was developed under rights they enjoined in their law suit.

A review of the listings showing rights which have been released from the Idaho Power law suit was made and this application has been released.

A review was then made of water rights that had been previously approved in the Elba Sub-basin to determine how many rights have lapsed. The summary of this review is contained in a file labeled Elba Sub-basin and is located in a file cabinet in the vault. This review determined that 1864 acre feet had been removed from a total of 4807 acre feet appropriated as of May, 1978.

A balance of 2943 acre feet remains at this time without approval of this right.

In a memo prepared by Bill Ondrechen on May 11, 1978, he estimated that an average of 1400 acre feet may be available for appropriation but had indicated that yields of 2800 acre feet were not unreasonable.

It is expected that additional permits will not be developed in the Elba Sub-basin, therefore the appropriated volume will continue to decline.

Only two groundwater applications have been received in this area since 6/1/78; this one and 43-7171. Application 43-7171 has not been released from the I.P. law suit and will continue to be held without approval.

Water use under this right will deplete the groundwater supplies by 30 acre feet. Since the appropriations are now near the 2800 acre feet amount, it does not appear that approval of an additional application for 30 acre feet would have adverse impact on the area.

Also, since it has already been removed from the I.P. law suit, because the use started in 1976, there appears to be no reason to continue to delay approval.

Mr. Raymond H. Anderson
Hazelton, Idaho 83335

RE: Application for Permit No. 43-7160.

Dear Mr. Anderson:

We have received your Application for Permit to appropriate water from the State of Idaho.

Your application is located in the area identified as the Elba Sub Basin, in which past hydraulic studies have shown the groundwater supply to be very limited. The Department has already received several applications for water permits in this area and if all were to be developed the available groundwater supply would be exceeded.

For this reason, the Department is not issuing any new permits until it is known what effect the existing permits, as they are developed, will have on this supply.

We will hold your application without approval until it can be determined that water is available for appropriation.

If you have any questions on this matter, please contact this office.

Sincerely,

DAVID R. TUTHILL JR., P. E.
Supervisor, Water Allocation Section

Date: 12-5-80
Comments: water is collected from a drainage tile underneath irrigated pasture land. Any water which overflows the pond runs down a ditch into a stream which the map shows as intermittent & sinking before it reaches the Cassia Creek channel. The pond is probably in the NW 1/4 Sec 5 instead of the SW 1/4.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before AUGUST 1, 1980.

Yours truly,

Mary A. Hill
Secretary

Encl.
