License of Water Right No. 43-7086 Priority July 22, 1977 Amount 6.23 cfs

THIS IS TO CERTIFY, that Jack &/or Kathryn Erickson
of Almo, Idaho, has complied with the terms and conditions of Permit
No. 43-7086 issued pursuant to Application for Permit dated July 22, 1977,
and has submitted proof to the Department of Water Resources on December 9, 1982,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 12.43 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u>	at <u>6.23</u> cfs and	<u>1260.0</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 6.23 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1260.0 acre feet per year, said waters to be diverted within the SE1/4SW1/4 Section 13;

CONDITIONS OF APPROVAL

a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

The maximum combined rate of diversion under this right and Right Nos. 43-2557 & 43-7087 shall not exceed 12.43 cfs.

Use of water under this license is subject to control by the watermaster of State Water District No. 43B, Upper Raft River.

Flows of Reed Springs, depleted by pumpage of groundwater under this license, shall be replaced to protect prior water rights.

Remarks At the time of this exam there were not enough lines set up to run well # 2 at full capacity. Because an exam had recently been done on this well for WR# 43-7087 I will use that measurement as the pump & motor are the same. (See Attachment)

*^{*} The Access part was located only 8" from the well but the needle on the Eagle eye held steady and it seemed like a good measurement.

Wells #1 and #2 provide water for Lis. # 43-2557 Well #2 provides water for Lis. # 43-7087. Excess water is piped to land covered under this permit.

Wells #1 & 3 were measured for his 43-2557 but system has gone from gravity to sprinkler & pumps & motors have been replaced and boosters added. When 43-2557, 43-7086 & 43-7086 combined shall not exceed 100% of div. rate.

THIS IS TO CERTIFY, that Dennis H. &/or Pauline Erickson
of Almo, Idaho, has complied with the terms and conditions of Permit
No. 43-7087 issued pursuant to Application for Permit dated July 7, 1977,
and has submitted proof to the Department of Water Resources on January 29, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 6.07 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Re: Permit 43-7086

Dear Mr. & Mrs. Erickson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

Gary L. Funderburg

SUBJECT Withdrawal of Protest on Amendment

On July 8, 1982 Elbert Dufee and Jack Erickson were in my office and discussed the protest Mr. Dufee made on Mr. Erickson's Amendment. Mr. Dufee agreed to withdraw his protest if Mr. Erickson would agree to replenish Reed Spring by that amount which additional pumping from his wells in sec 23 and 26 would deplete the spring. Mr. Erickson is selling the property and has advised the new owner of the agreement.

I do hereby withdraw my protest against Application for Amendment # 43-7086 by JACK ^{and/or} Kathryn Erickson. Providing That a condition be placed on the permit and subsequent license that would require the holder to replenish Reed Spring by that amount which additional pumping from the wells in Sections 23 and Sections 26, T.16S, R.24E would deplete said Spring.

Dear Sirs,

I do not protest the well in Section 13 T~~2~~6S R24 EBM. The fifty inches of water that Ericksons pumped from it did not diminish Reed Spring.

The Ericksons have pumped the well in SE $\frac{1}{4}$ NW $\frac{1}{4}$ S 23 T 16S R 24 EBM licensed for 7.30 C.F.S. and I have pumped my well in SW $\frac{1}{4}$ NW $\frac{1}{4}$ S 23 T 16S R 24 EBM for about 19 years. When both pumps are in service, Reed Spring, with a normal flow of 2.40 C.F.S., is dried up. This spring is a tributary of Raft River and decreed about 1870, so we have had to replace the spring water from our wells. When the wells were not pumped the flow of the spring has fully recovered within twelve hours.

Four years ago, Ericksons began using another well drilled in NW $\frac{1}{4}$ NW $\frac{1}{4}$ S 26 T 16S R 24 EBM. This well, when pumped while the one in SE $\frac{1}{4}$ SW $\frac{1}{4}$ S 16 T 16S R 24 EBM is being used, will also dry up the spring.

These last four years that all three pumps have been in use, the spring has been very slow to recover. Therefore my protest concerning their proposal to change the points of diversion from the well in S 13 to the ones in S 23 and 26 with the intention of increasing the permits to pump more water than licensed on February 21, 1963 for the well in S 23, and also to pump more from the one in S 26, is not withdrawn.

Sincerely,

Re: Application for Amendment of a Permit No. 43-7086

Dear Mr. Erickson:

Enclosed is a copy of a protest filed against the issuance of a permit, pursuant to your above referenced amended application. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an amended application for permit (Section 42-203, IDAHO CODE):

- 1) Does the change constitute an enlargement of the original permit?
- 2) Will the rights of others be injured by the amendment?

If this office can be of further assistance, please contact us.

Protestant's water licenses also divert from well, which affect Reed Springs

- 3) The groundwater users must replace flows of the springs for owners of prior rights.
- 4) Approval of the application for amendment would allow greater pumpage from the additional wells to be added to the permit, further depleting the flow of the Springs, thus injuring the water rights of the protestants.
