SUBJECT 43-7048 - Application for permit

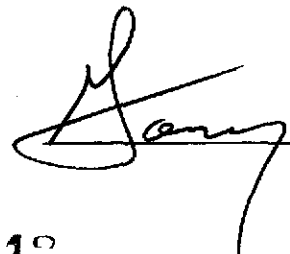

I checked the source of water supply for this permit as you asked us to do.

There is a pond at this location. There doesn't seem to be any ditches leading into the pond at this time. The only way water could be in the pond area would be from subbing. There was no water in the area of the pit for which the pond will be in.

I hope this is enough information for you to go ahead and issue a permit.

Thanks.

Dear Mr. Wight:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Twin Falls.
