Dear Jim:

As a followup to our phone conversation today, I am forwarding a partially completed "Claim to a Water Right" which should be filed in lieu of Permit No. 43-7125. Note that Item 1 on the claim should be completed. The Department will accept the fee submitted with the application as the fee for the claim, therefore, an additional fee is not required.

As background information, application for permit No. 43-7125 was submitted for use of groundwater within the Raft River Critical Groundwater Area. The application was inadvertently approved by the Department since permits have not been issued in the critical groundwater area since approximately 1977.

Groundwater in a critical groundwater area may, however, be used for single family domestic use or stockwater use without a permit providing the use does not exceed 13,000 gallons per day, Section 42-230(d), Idaho Code. To provide documentation in the state's records of your use, however, the enclosed claim to a water right (provided for in a different section of the Idaho Code than the application for permit statutes) should be completed and filed with us. Please also return the enclosed relinquishment form for Permit No. 43-7125 in order that we may clear our records of the improperly issued permit.

I apologize for our oversight and any inconvenience caused you. If you or others have further questions relative to this matter, please feel free to contact me at 334-4410.

Sincerely,

L. GLEN SAXTON
