P.D. ?

Six Mile Creek

110 acres under
irrigation

a dry farm

Reservoir

TO U.S. HWY. NO. 30 and MALTA

Allow 20 acre Feet.

This reservoir is a holding reservoir rather
than strictly storage.

**NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that 10:00 A. M. on the 5th day of August, 1953, at Malta, County of Cassia, State of Idaho, before J. Henry Thompson, Notary Public, proof will be submitted of the application to

beneficial use of 20 acre feet per annum of the water of Six Mile Creek in accordance with the terms and conditions of Permit No. R-775 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Francis P. Gunnell and Grant Gunnell, Bridge, Idaho.

The use to which said water has been applied is irrigation of desert lands reclaimed.

The amount applied to beneficial use is 20 acre feet per annum.

The place where said water is used: SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, Township 15 South, Range 28 East, T.M., being 80 acres more or less.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Unnamed.

The right to take water from such works is based upon Permit No. R-775.

The source of supply from which such water is diverted is Six Mile Creek.

The date of priority which said user is prepared to establish is December 10, 1946.

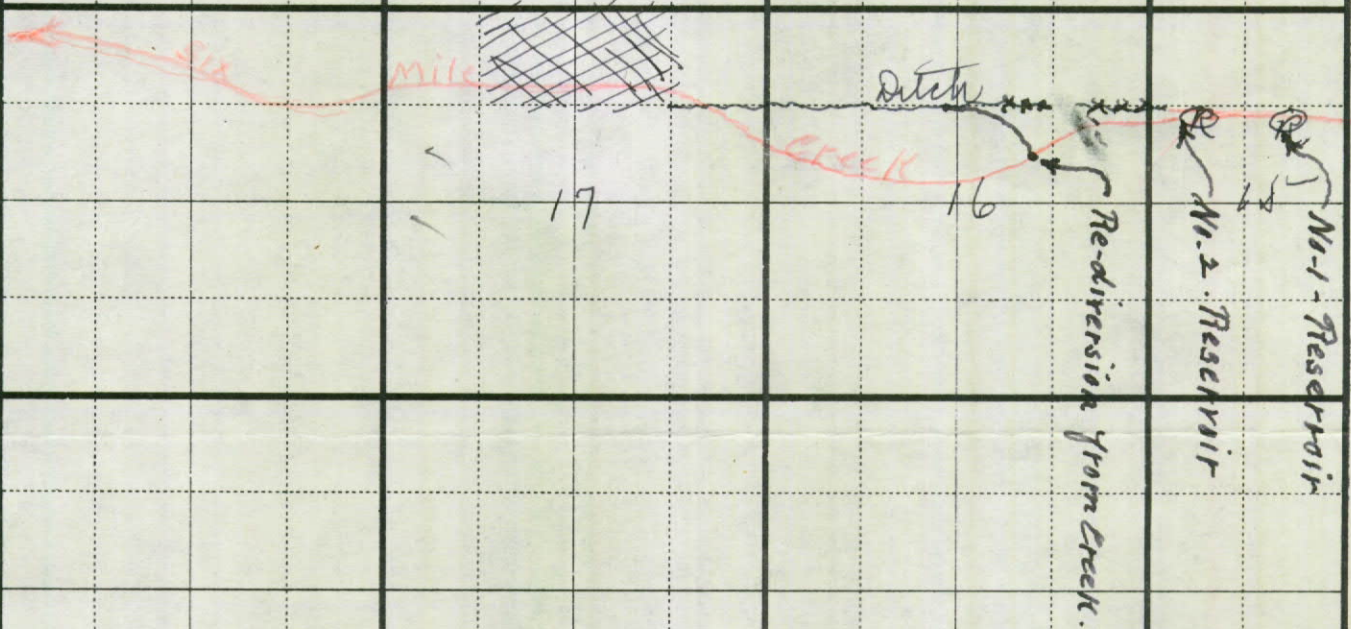

8-775 MARK R. KULP
State Reclamation Engineer

APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R 27547
Permit No. R 775

1. Name of Applicant: W. J. GUNNELL

Postoffice address: Bridge

County Cassia

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored 20 acre feet # 1- 20 acre feet # 2 acre feet per annum.

3. Source of water supply is Six Mile Creek (Creek) (River) (Spring), a tributary of Clear Creek River.

4. The outlet of the proposed reservoir ^{are} located feet distant from the corner of Section Township
No. 1 in SE $\frac{1}{4}$ NW $\frac{1}{4}$ and No. 2 in SW $\frac{1}{4}$ NW $\frac{1}{4}$ (bearing) feet distant from the corner of Section Township
Range and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section 15, Township 15 South, Range 28 E., B. M. County of Cassia

5. Fill out either (a) or (b).
are

(a) The reservoir ~~is~~ located in the channel of Six Mile Creek (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from

the corner of Section, Township, Range, B. M., and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of

Section, Township, Range, B. M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoirs is No. 1- 2 acres- No. 2- a acres.

(b) The reservoir capacity is 40 400 30 acre feet.

7. Height of reservoir dam 10 feet, length at top 400 feet, length at bottom 60 feet, size of outlet feet

by feet. The dam is to be constructed of materials as follows: Earth fill

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Six Mile Creek (Creek) (River) ? No

(b) Water stored in reservoir will be carried in the channel of Six Mile Creek (Creek,) (River,) a distance

of $\frac{3}{4}$ miles to point of diversion located (bearing) feet, distant from the corner of Section

Township, Range, B. M., and in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 16, Township 15 S., Range

28 E. B. M.

9. Amount of water claimed from (Creek) (River) (Spring) in addition to that

stored in reservoir cubic feet per second.

10. Water is to be used for Irrigation and domestic purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range

B. M. and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet

distant from the corner of Section, Township, Range, B. M., in

the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

, which is hereby referred to and made a part hereof.

13. Kind of diversion works: Ditches and headgates (Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width 3 feet, Height 5 feet.
16. Diversion Canal: Width at bottom 2 feet, width at water line 5 feet, depth of water 1 feet, Dimensions of Flume Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.
17. Estimated cost of Works: Storage Works: \$750.00 Diversion Works: \$ 750.00
18. Time required for completion of work Three (3) years.
19. Time required for complete application of water to proposed beneficial use is Three (3) years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE ¹ / ₄				NW ¹ / ₄				SW ¹ / ₄				SE ¹ / ₄				Totals
			NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. R-775

Comes Now W. J. GUNNELL, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. R-775, and requests that the ^{11.57}set of lands to be irrigated, as described in said permit, be changed to read as follows:
SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, Twp. 15 S., Range 28 East, B.M., making a total of 80 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, Idaho, this 12th day of December, 1949.

W. J. GUNNELL

Date of receipt at Office of Department of Reclamation December 12, 1949.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. R-775. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby extend the time for the completion of construction work under Permit to appropriate the Public Waters of the State of Idaho, No. R-755, to December 19, 1951.

Witness my hand this 10th day of April, 1950.

MARK R. KULP
State Reclamation Engineer

CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that W. J. GUNNELL of Bridge, County of Cassia and State of Idaho, the holder of Permit No. R-775, issued upon Application No. R-27547, bearing date of priority of December 10, 1946, authorizing the construction of a reservoir, with the right to appropriate and store Forty (40) acre feet per annum of the waters of Six Mile Creek, a tributary of Clear Creek, in the County of Cassia, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works set out and described in said Permit; that said works include a dam and reservoir adequate for the storage of Twenty (20) acre feet of water per annum, with adequate diversion works and conduit to the reservoir, and a conduit capable of conducting said water to the place of intended use; that the point of outlet of said reservoir is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 15, Township 15 S., Range 28 E., and that the place of use, or the lands proposed to be irrigated by the use of said water, are described as follows, to-wit: SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 15, Township 15 South, Range 28 East, B.M.

Witness my hand this 12th day of May, 1952.

MARK R. KULP
State Reclamation Engineer

Proof of completion of works made December 7, 1949.
Certificate of completion of works issued May 12, 1952.

A S S I G N M E N T

For value received, I hereby assign all my right, title, and interest in and to Permit to appropriate the Public Waters of the State of Idaho, No. R-775 to Francis P. Gunnell and Grant Gunnell of Bridge, Cassia County, Idaho.

WILLIAM J. GUNNELL
Permit holder

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. R-775

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant GRANT & FRANCIS P. GUNNELL, Bridge, Idaho

2. Source of water supply: Six Mile Creek
outlet

3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 15

T. 15 S. R. 28 E. County of Cassia

4. Describe works as they exist, giving dimensions and capacities of same: _____

This is a small reservoir on Six Mile Creek located East of Gunnell's farm home at the mouth of the canyon. Dam is 65 yards long on top and 6' wide, H=18' approximately. Spill way is 8' wide by 9' long by 18" deep concreted and is on the South end of the dam. Down stream slope is 1 to 2 and up stream slope is 1 to 3. There is some rip-rap. The dam has a concrete core practically to top. Outlet pipe is 15" diameter. Outlet gate is Armco Vertical on the up stream end. There is a cat-walk 18' long by 2' wide, mounted on Posts. Free board is estimated at 2 $\frac{1}{2}$ '.

5. Water is used for Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, Twp. 15 South, Range 28 East, B. M.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mr. Gunnell built the dam to use only 10" of water. They believed that by staying at that maximum depth that they were below dam size that required state approval.

There is a good stream of water flowing in Six-Mile Creek the year around. They say that the local precipitation does not control the flow of this Creek. Water flowing into the reservoir was estimated by Grant Gunnell to be 75". I estimated it to be about 50"

There are rising springs in the head end of the reservoir.

110 acres are under irrigation and 215 acres are dry farmed.

This examination was made on the 22 day of July, 1954

(Signed)

E. H. Humphrey

Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Mr. Francis P. Gunnell
Bridge
Idaho

Dear Mr. Gunnell:

We acknowledge receipt of the depositions of yourself and Grant Gunnell, also two witnesses and affidavit of publication in the Burley Herald Bulletin all in proof of Beneficial Use under Permit No. R-775.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

Very truly yours,

Permit No. 775

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Grant Gunnell and Francis P. Gunnell. Bridge Idaho.
ranching, Bridge, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 775, Dec-19-1946- December 10-1946.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Six Mile Creek, Idaho. Reservoir.

SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec 15, Twp 15 South, Range 28 EEM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Earth fill reservoir, with private ditch.

4 second feet.

unnamed private ditch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation-

NW $\frac{1}{4}$ SW $\frac{1}{4}$, containing 40 acres

SW $\frac{1}{4}$ NW $\frac{1}{4}$, containing 40 acres, all in Sec. 17 Twp 15 South Range 28
All cultivated land. E.B.M.

plowed and fenced and raised grain crops, cleared the brush and
made the ditches.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. -----

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. two irrigations.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. By assignment by your office in 1953.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, July 25, 1953

Mr. J. Henry Thompson
Notary Public,
Malta, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. ~~R-775~~ (~~Gunnells~~).....

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On ~~August 5, 1953~~....., the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
~~Malta, Idaho~~..... before ~~J. Henry Thompson, Notary Public~~.....

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

~~MARK R. KULP~~
~~Commissioner of Reclamation~~
State Reclamation Engineer

RE: Permit No. R-775

Mr. Grant Gunnell
Bridge, Idaho

Dear Mr. Gunnell:

We return the assignment of Permit No. R-775 by William J. Gunnell and Grant Gunnell which has been recorded in this department.

We also enclose departmental receipt No. 26066 for the 50 cent recording fee.

As we wrote you on July 7, 1953, notice of Beneficial Use proof to be made under this permit August 5, has been sent to the Burley Herald-Bulletin for publication with instructions to publish it once a week for four weeks and to send you the affidavit of publication together with statement of costs.

We shall send Mr. J. Henry Thompson the Notary Public, the necessary forms of depositions to be used in making this proof and at the time set, you should appear before him together with two witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the deposition.

RE: Permit No. R-775

Mr. Grant Gunnell
Bridge
Idaho

Dear Mr. Gunnell:

We have your letter of June 16, 1953, in regard to Permit No. R-775, and are sorry there has been a misunderstanding in regard to it. Since you have several permits, possibly we had another permit in mind when we talked to you when in the office recently.

We have made out a new form of notice for beneficial use proof on Permit No. R-775 and if this meets with your approval, please return it to us and we shall send a copy to the Burley Herald-Bulletin, with instructions in regard to publishing.

The notice sent us gave as date of priority the fact that the water has been used on the land from this creek since 1883.

No doubt such a priority could be established by proving such early use through the district court, but the earliest priority that can be acquired through Permit No. R-775 is December 10, 1946, the date the application was filed in this department.

There will be a fee of 50 cents for recording the assignment of this permit from William J. Gunnell to Francis P. and Grant Gunnell.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. R-775

Mr. William J. Gunnell
Bridge
Idaho

Dear Mr. Gunnell:

We acknowledge receipt of the assignment of Permit No. R-775 from yourself and wife to Francis P. Gunnell and Grant Gunnell. Also notice for beneficial use proof under this permit, and authorization to publish same in the Burley Herald Bulletin.

The notice fails to indicate the date on which this proof is to be made, but since it is due on or before December 19, 1952, we have filled in that date. We have also corrected the notice to show that the amount applied for and on which proof of completion of works has been made is 20 acre feet, instead of 100 inches.

A copy of the notice will be sent to the newspaper with instructions in regard to publishing, and they will also be requested to send the affidavit of publication together with statement of costs to Francis P. and Grant Gunnell, whose address we assume is also Bridge, Idaho.

There is a fee of 50 cents required for recording the assignment.

Dear Mr. Gunnell:

Reference is made to your letter of December 17, 1951, in regard to Permit No. R-775 on which proof of completion of works is due on or before December 19, 1951.

Since the maximum of 5 years allowed by statute for completion of works will expire December 19, 1951, no extension can be allowed and we suggest that a new application be filed in the name of yourself and Grant Gunnell.

We enclose the necessary form of application herewith together with the pamphlet giving regulations and instructions in regard to filing.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
DEC 19 1951

Department of Reclamation

Bridge, Idaho

Dec. 17th 1951

Dear Sir:

I agreed to furnish the R-775 on
completing diversion works on or before
Dec. 19th 1951. In wording of this Permit
could be extended or amended until
we could get to this work. Dad is
selling the ranch to Grant & myself
so would it be feasible for him to
get a new Permit when we can
start work. May we hear from you
regarding this matter.

Yours Truly

Francis P. Gunnell

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. W. J. Gunnell

Bridge, Idaho

Boise, Idaho **October 1, 1951**

Dear Sir:-

Under the terms of your permit No. R-775-----you are required to complete your diversion works on or before December 19, 1951. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

R-775

RECEIVED
APR 10 1950
Department of Reclamation

Boise, Idaho, April 10, 1950

Hon. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Sir:

In view of the fact that I have only partially completed the works described in my Permit No. R-775, I wish to withdraw the proof of completion of works filed December 7, 1949, and request an extension of time for completion of works until December 19, 1951.

That one dam and reservoir has been completed, but I have not been able to proceed with the other, on account of lack of time.

Very truly yours,

W. J. Gunnell
W. J. Gunnell

Bridge, Idaho

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby extend the time for the completion of construction work under Permit to Appropriate the Public Waters of the State of Idaho, No. R-775, to December 19, 1951.

Witness my hand this 10th day of April, 1950.

Mark R. Kulp

Re: Permit No. R-775

To Mr. W. J. Gunnell
Bridge, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. R-775
to Appropriate the Public Waters of the State of Idaho, have not been complied with as to

Completion of works December 19, 1951

you are hereby notified in compliance with Sec. ⁴²⁻³¹¹~~41-311~~ Idaho Code ~~annotated~~ that said Permit No. R-775
is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from
date of this notice why said Permit should not be cancelled.

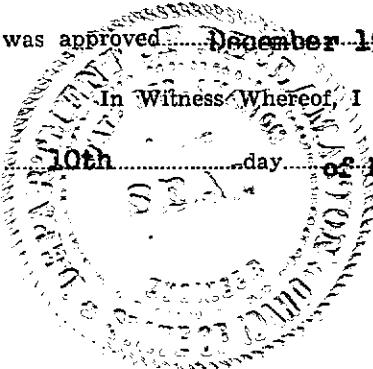

Said Permit No. R-775 claims the use of ~~and storage of 40 acre ft. cubic feet per second~~ of the
waters of Six Mile Creek and Clear Creek with point of ^{outlet}~~diversion~~ located
in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 15, Township 15 South, Range 28 East, B. M., and
was approved December 19, 1946.

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the

10th day of March 19 52

Mark R. Kulp
State Reclamation Engineer.

Re: Permit No. R-775

Mr. W. J. Gunnell
Bridge, Idaho

Dear Mr. Gunnell:

We have had no reply to office letter addressed you on December 14, 1949, in regard to your deposition submitted in Proof of Completion of Works under your Reservoir Permit No. R-775.

In that letter we called your attention to the fact that your proof only described the reservoir from Six Mile Creek for the storage of twenty acre feet of water, whereas Permit No. R-775 also included a reservoir for the storage of twenty acre feet from Clear Creek.

If we accept a partial Proof of Completion of Works, we cannot later accept another Proof of Completion, and for that reason, we suggested that you could file an application for extension of time for making Proof of Completion on both reservoirs until December 19, 1951.

If you wish such an extension, it is important that you file the application promptly because under your present proof, a Certificate of Completion of Works can only be issued for the Six Mile Creek storage.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. R-775

Mr. W. J. Gunnell
Bridge, Idaho

Dear Mr. Gunnell:

We acknowledge receipt of your deposition in Proof of Completion of Works under Permit No. R-775, accompanied by your check for the \$5.00 fee for which we enclose Departmental Receipt No. 21963.

However, this deposition gives the place of use as the SW, NW, and NE SW of Section 17, Township 13 South, Range 28 East, B.M. whereas the Permit describes the NE, NE, and NE NW of said Section 17.

If there has been a change in the place of use it will be necessary to amend the Permit on a form which we will furnish. On the other hand, if this is an error in your proof, we can change same upon your authorization to that effect.

Very truly yours,

MARK H. THOMP

Re: Permit No. R-775

Mr. W. J. Gunnell
Bridge, Idaho

Dear Mr. Gunnell:

We enclose your application for amendment to Permit No. R-775, showing the land location in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, Township 15 South, Range 28 East, B.M. which has been approved by the State Reclamation Engineer.

However, in checking your Proof of Completion of Works, we note that you only describe the reservoir from Six Mile Creek for the storage of twenty acre feet of water whereas your Permit calls for a reservoir from Clear Creek also, with the storage of twenty acre feet.

The Completion of Works Proof for both these reservoirs is due on or before December 19, 1949. We recall that when you were in the office, you inquired as to time for completion of another dam, but we thought you were referring to the time for Proof of Beneficial Use which is not until December 19, 1952.

If you wish additional time for completion of the other dam, you can be allowed two additional years, or until December 19, 1951. We enclose a form of application for extension herewith.

Very truly yours,

MARK R. KULP

Permit No. R- 775

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. W. J. Gunnell, Bridge, Idaho -
Rancher

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. none

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. # 775 - approved, Dec. 19, 1946 -
20 acre feet, #1, Six Mile Creek, tributary of Charles Creek

Ques. 4. Under terms of permit construction was required to be completed by Dec. 19, 1949.

Ques. 5. Construction was actually completed on the date of December 1, 1949.

Ques. 6. Does the construction fully comply with the specifications? Yes.

Ques. 7. Of what material was the dam built? Earth and Rock.

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans. Yes - Some turned in on May 6, 1949 -
20 acre feet - about 50% turned
20.

Ques. 9. The capacity of the reservoir is _____ acre feet.

Ques. 10. The area of the high water line of the reservoir is 2 1/2 acres.

Ques. 11. The height of the dam above bottom of reservoir is 14 feet, above low water is 12 feet.

Ques. 12. The dimensions of the spillway are 10 X 75 and the bottom of the spillway is 3 feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 15 inches X 75 feet.

Ques. 14. Describe the gate and control unit.

Ans. Slide type - water gates

Ques. 15. The reservoir outlet is made of cast iron ~~cast iron~~ steel pipe laid in
cement.

Ques. 16. Is the reservoir filled through a feeder canal? None - Fed by stream.

Ques. 17. If so, where is the point of diversion for same?

Ans. 1/4 1/4 Section, none Twp. Range.

R-775

Ques. 18. Does the feeder canal comply with the specifications in the permit? None

Ques. 19. If not, explain No feeder canal

Ques. 20. Cost of constructing feeder canal? \$ none Cost of reservoir? \$ 1200⁰⁰

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans. Yes - according to specifications.

Ques. 22. Water has (has not) been delivered to place of intended use? Yes - It has.

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. Earth fill 400 feet long 12 feet high 8 1/2 feet wide at top, - upstream slope 3:1; down slope 12:1

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. Domestic + irrigation - To irrigate 80 acres, ±
S104 NW4 and NW4 SW4 Sec 17,
