**NOTICE OF PROPOSED CHANGE
OF WATER RIGHT**

Notice is hereby given that Jack Erickson of Almo, Idaho has applied to the Department of Water Resources for a change of point of diversion and add diversion points from a groundwater source. The right sought to be changed is evidenced by License #43-2557 and recorded as follows:

Amount: 7.30 cfs. Priority: February 21, 1963.
Point of Diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13;
SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 23, T16S, R24E.

the water is used for irrigation of 378 acres from April 1 to October 31 within the N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13; SE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 14; NW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 23, T6S, R24E, Cassia County.

TO BE CHANGED AS FOLLOWS:

Amount: 7.30 cfs. Point of Diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 23; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 26, T16S, R24E, Cassia County. Place of Use: No Change.

Any protest against the approval of the above proposed change of the portion of the right described above must be filed with the Idaho Department of Water Resources, 1041 Blue Lakes Blvd. North, Twin Falls, Idaho 83301, on or before May 22, 1981.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that on February 28, 1968, at Albion, County of Cassia, State of Idaho, before notary public Jay L. Nielson, Albion, Idaho proof will be submitted of the completion of works for the diversion of 11.2 c.f.s. of the waters of three wells, and the application to beneficial use of said water, in accordance with the terms and conditions of permit G-30822, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and address of permit holder is Jack Emery Erickson, Almo, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 11.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 11.2 c.f.s.

4. The point of diversion of said water is NW¹/₄SW¹/₄, Sec. 13; SE¹/₄SW¹/₄, Sec. 13; SE¹/₄NW¹/₄, Sec. 23, T. 16 S. R. 24 E. B.M., Cassia County.

5. The place where said water is used is NW¹/₄, N¹/₂NE¹/₄, SW¹/₄NE¹/₄, NW¹/₄SW¹/₄, Sec. 13; S¹/₂SE¹/₄SW¹/₄, Sec. 14; NW¹/₄NE¹/₄NE¹/₄NW¹/₄, SE¹/₄NW¹/₄, Sec. 23, T. 16 S. R. 24 E. B.M.

6. The date of priority which said user is prepared to establish is November 23, 1962.

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 43B.
2. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.
3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
- * 6. The total instantaneous diversion of water from all points of diversion under Transfer 5287 shall not exceed 12.43 cfs, nor total combined annual volume of 3816.0 af.
- ** 7. Right 43-02557 is limited to the irrigation of 378 acres within the place of use described above in a single irrigation season.
- ** 8. Right 43-07086 is limited to the irrigation of 360 acres within the place of use described above in a single irrigation season.
- ** 9. Right 43-07087 is limited to the irrigation of 216 acres within the place of use described above in a single irrigation season.

Re: Notice of Proposed Change of Water Right 43-2557

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Sincerely,

Mary A. Hill
Sr. Secretary

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 38902
Permit No. G- 30822
District No.

1. Name of Applicant: Jack Emery Erickson
Postoffice address: Almo County: Cassia State: Idaho
2. Quantity of water claimed: 560 inches or 11.2 cfs
 (a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 23
Twp. 16 S , Rge. 24 E , B.M., County of Cassia
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Pump
8. Estimated cost of works: \$ 10,000
9. (a) Is reservoir to be used?
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) 560 (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

By Gus L. Erickson Agent.

Corrected application received:

12.

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals

AMENDMENT TO LAND LIST

Comes now Jack Emery Erickson and represents to the State Reclamation Engineer of the State of Idaho, that he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G30822, and requests that the list of lands to be irrigated as described in said Permit be changed to read as follows: NW $\frac{1}{4}$, NE $\frac{1}{4}$, SW $\frac{1}{4}$, NW $\frac{1}{4}$, Section 13, SE $\frac{1}{4}$, SE $\frac{1}{4}$, Section 14, NW $\frac{1}{4}$, NE $\frac{1}{4}$, SE $\frac{1}{4}$, Section 23, all in T 16 S., R 24 E., B.M., making a total of 560 acres. That an additional amount of water is not asked for and that the rights of others will not be adversely affected by such change.

Signed at Almo this 5th day of December, 1966.

/s/ JACK EMERY ERICKSON

Date of receipt at office of Department of Reclamation: 12-8-66

APPROVAL OF STATE RECLAMATION ENGINEER

I, R. Keith Higginson, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-30822. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

/s/ R. KEITH HIGGINSON
State Reclamation Engineer

Recorded: 12-16-66

AMENDMENT TO POINT OF DIVERSION

Comes now Jack Emery Erickson and represents to the State Reclamation Engineer of the State of Idaho, that he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G30822. That the point of diversion is described in said Permit as being located: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23, T 16 S., R 24 E., B.M. That he now requests that the point of diversion be changed to points located: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 13, all in T 16 S., R 24 E., B.M. That the reason for desiring to make such change is as follows:

One well did not produce enough water. That no one will be injured by such change and such change will be made at permit holders own risk. Signed at Almo, this 5th day of December, 1966.

/s/ JACK EMERY ERICKSON

Date of Receipt at Department of Reclamation: 12-8-66.

APPROVAL OF STATE RECLAMATION ENGINEER

I, R. Keith Higginson, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-30822. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers and of which it becomes a part and said application is approved only insofar as the rights of others will not be adversely affected thereby.

/s/ R. KEITH HIGGINSON
State Reclamation Engineer

Recorded in book 108 of permit at page G-30822, December 16, 1966.

APPLICATION FOR AMENDMENT

Comes now Jack Emery Erickson, and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-30822 and requests that the permit be changed as follows:

2. Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 13, T 16 S., R 24 E., B.M. Other points of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23; SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 13, T 16 S., R 24 E., B.M.

That no one will be injured by such change and that such change will be made at Permit Holder's own risk.

Signed at Boise, this 20th day of November, 1967.

(Transfer 5287)

Dear Water Right Holder(s):

Enclosed is the copy of your approved Transfer of Water Rights for the above referenced water rights (Transfer 5287). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

for Jeff Peppersack, Manager
Water Right Permits Section

NOV 26 2000

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Transfer of Water Rights by Gary E. and Sonia Steed/
RHL Financial property in Cassia County, Idaho
Transfer No. 5282

Dear Larry:

Enclosed is a copy of a Application for Transfer OF Water Right sent to me by Kay Walker of the State of Idaho, Department of Water Resources.

Mr. and Mrs. Steed had applied for moving around acreage to cover ground that does not have water rights prior to transferring the real property to RHL Financial, Inc. Kay Walker, at the Department of Water Resources at P. O. Box 83720, Boise, Idaho 83720-0098, telephone number 208-327-7900 fax number 208-327-7866, would like to have the consent of an official of RHL Financial, Inc. prior to granting approval of this Application.

Would you please contact the necessary official of RHL Financial, Inc. and if they agree with the transfer, have them submit in writing either by fax or letter, approval for the State of Idaho Department of Water Resources to act on Mr. and Mrs. Steed's application for transfer.

Very truly yours
Land Title and Escrow, Inc.

A handwritten signature in black ink, appearing to read "Larry Roberts".

MEMORANDUM

TO: Transfer Application No. 5287

FROM: Kay Walker

Date: April 19, 2000
.....

I called Gary Steed on this day to find out about this transfer.

Mr. Steed stated these rights should probably be in RHL's name. He does not have any documentation from RHL saying it is okay to transfer these rights.

Mr. Steed gave me a number to contact RHL. That number is 678-3524 in Burley (Land Title and Escrow, Inc.)

Vikie Hancock
IDWR
1341 Fillmore Street Suite 200
Twin Falls, Idaho 83301-3380

Dear Vikie,

Jay Harper gave me a letter from you requesting data about Reed Springs and asked me to answer it. I am enclosing a list of measurements for each year, before Ridge River Ranch turned their pumps on, and another list showing the average amount which was replaced when replacement was required. I have not required Steed to replace the spring water when there was water running out of District 43-B unecalled for.

I have also included a list of all the measurements which were taken in the past 11 years. The lists on the first page are based on these other lists.

If I can be of further assistance, feel free to contact me.

Dave Sundberg

NOTES TAKEN FROM DAILY LOG JULY 11-23, 1997

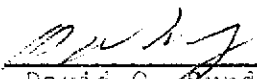

On July 11, I received a letter from IDWR saying to take charge of the replacement of Reed Springs by Gary Steed which he has not been doing except enough to keep the fish alive in his pond. Gary Steed was not putting any water into the river and Bruce Durfee was putting in about 25 inches which was just barely reaching the road below Olen Ward's. In fact it may not have been running on the surface at 2:00 p.m. I went to Malta and talked to Jay Harper who suggested that I talk to Gary. When I went back at about 7:00 p.m. it had rained and a fair stream was running down below Ward's. I couldn't find Gary so I didn't do anything. Saturday I didn't do anything about Steed because nobody was home. Sunday, July 13, I turned some water into Reed Spring from Steed's injection pipe. Monday morning there was nothing leaving the pond so I went up to the injection pipe and found the valve wide open with 3-4 cfs running into the spring. When I arrived at the pond somebody on a 4-wheeler went up to the spring and obviously opened the valve because the water was not reaching the pond and in fact did not reach the pond while I was there. The water had obviously been shut off shortly after I left Sunday afternoon because the moss had not floated off of the pond and plugged the standpipe.

Tuesday there was no water leaving the pond and it had obviously been turned off as soon as I left Monday. Wednesday I talked quite a while with Gary. He claimed that no water was reaching the road below Olen Ward's. We went down and looked and there was about 10 inches crossing the road. About 20 inches was coming from Utah and Durfee's were putting in 25 inches, so of 45 inches, 10 were reaching the users below. I pointed out to Gary that if he put in 60 inches it would all probably reach because the river was already sinking it's capacity. He agreed to put water in. I turned a stream which I quite carefully estimated as 60 inches where it forms a channel below the injection pipe. It was 2' wide and 10" deep and moving a little less than 1 foot per second.

I talked to Bruce Durfee and He told me to turn 35" if I wanted to from his pipe. I turned 30". I didn't ask Bruce to give water because he really has no obligation to do so. Thursday morning the weir below the pond measured 5" deep or 1.75 cfs but was not reaching the road any more than when only Durfee's water was running. Friday morning there was some water running from the pond but not reaching so I went back later and it was shut off. Apparently they are turning it on just before I get there and back off as soon as I leave.

July 23, Allen Merritt and I met with Gary Steed and we agreed that he would put a handle that can be locked on the injection pipe and an accurate measuring device below the pond.

These notes were taken from my handwritten notes in my daily log.

NOS. DESCRIPTION

MICROFILMED

NOV 20 2000

FROM: Allen Merritt *AM*

DATE: July 30, 1998

TO: Transfer File No. 5287
Water Right(s): 43-02557
43-07086
43-07087

In the Name of: GARY STEED

SUBJECT: Review and Recommendation

This transfer application was precipitated on investigation of an illegal water use on lands owned by Steed and adjoining lands owned by BLM & Durfee (See File).

This transfer proposes to create a PPU for the three licenses and essentially slightly modify the land list to acknowledge the changes in irrigation practices that would correct the illegal use of water on the Steed property.

The application was advertised without protest. Forfeiture does not appear to be an issue.

Questions have recently developed over the approval conditions of license 43-07086 as it relates to replacement of Reed Springs water as a result of groundwater pumping. This is the only right conditioned in this manner in the area. (See letter to Steed 7/10/97; letter from watermaster 7/13/97; ADM memo 8/13/97; letter by ADM 10/9/97) No response has come from the last letter. Maybe further direction could be provided in approval of this transfer.*

RECOMMENDATION

I recommend that the transfer be approved subject to the following conditions:

- Subject to SRBA.
- Maintain measuring devices on all wells.
- Maintain measuring device on Reed Springs.
- Replacement of Reed Springs water due to groundwater diversion is under control of watermaster of District 43B.
- Director retains jurisdiction to further define replacement requirements of Reed Springs as more information develops.

**NOTICE OF PROPOSED CHANGE
OF WATER RIGHT, T# 5287**

Notice is hereby given that GARY E. & SONIA STEED, PO BOX 127; ALMO ID 83312 have applied to the Department of Water Resources for changes to the rights listed below.

The purpose of Transfer No. 5287 is to move acres around creating a 954 acre permissible place of use. PRESENTLY, Licensed Water Right No. 43-02557 (7.30 cfs) with a priority date of 02/21/1963 is diverted from groundwater within SE1/4NW1/4, S23 & NW1/4NW1/4, S26; for irrigation of 378 acres within parts of Sections 13, 14, & 23, all T16S, R24E; Cassia County. PRESENTLY, Licensed Water Right No. 43-07086 (6.23 cfs) with a priority date of 07/22/1977 is diverted from groundwater within SE1/4SW1/4, S13; SE1/4NW1/4, S23; and NW1/4NW1/4, S26; for irrigation of 360 acres within parts of Sections 13 & 14, all T16S, R24E; Cassia County. PRESENTLY, Licensed Water Right No. 43-07087 (4.32 cfs) with a priority date of 07/22/1977 is diverted from groundwater within NW1/4NW1/4, S26; for irrigation of 216 acres within parts of Sections 22, 23, 26, & 27 all T16S, R24E; Cassia County.

PROPOSED CHANGE

The applicant wishes to divert a combined total of 12.43 cfs from three (3) existing, inter-connected wells within SE1/4SW1/4, S13; SE1/4NW1/4, S23; NW1/4NW1/4, S26; to irrigate a 954 acre permissible place of use within parts of Sections 13, 14, 22, 23, 26, & 27, all T16S, R24E; Cassia using the above listed water rights. Any protest against the proposed changes must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St., Suite 200; Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before July 17, 1998 to be considered by the Department in its decision to grant or deny any part of the proposed change. The protestant must also send a copy of the protest to the applicant.

Re: Application for Transfer No. 5287 (43-02557, 43-07086, 43-07087)

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office has scheduled advertising the application in the South Idaho Press for 6/29 and 7/6/98. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

The department's review process may have to include field investigation and verification of the claims which is required as part of the Snake River Basin Adjudication.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Georgia Satterlee

DATE: 16 June 1998
RE: Transfer per 43-02557,-07086,-07087

The application for transfer was encouraged when a complaint was filed regarding illegal water use on lands around Reed Spring. See documentation dated July-August 1997 from an assortment of folks.

The application for transfer was filed (April 1998) and the Steed's are proposing to move around acres to cover ground that does not have water rights. All the licensed rights associated with the application have SRBA claims.

There is a domestic and stockwater claim, A43-10271, that has a well in the SWSWSW $\frac{1}{4}$ of Section 13. I did not record any information associated with this well or claim.

I visited the Steed property on 08 June 1998. A young man, at the home near the stock yards, (I am assuming he is one of Gary Steed's sons) gave me permission to photograph the irrigation wells. He said Gary Steed was in the hospital and had been in the hospital for the last month.

I verified the location of the irrigation wells. Part 1 of the transfer application depicts the correct point of diversion to the ten acre tract. Although I photographed and obtained the pump and motor information of each well, I did not locate the points of diversion by GPS.

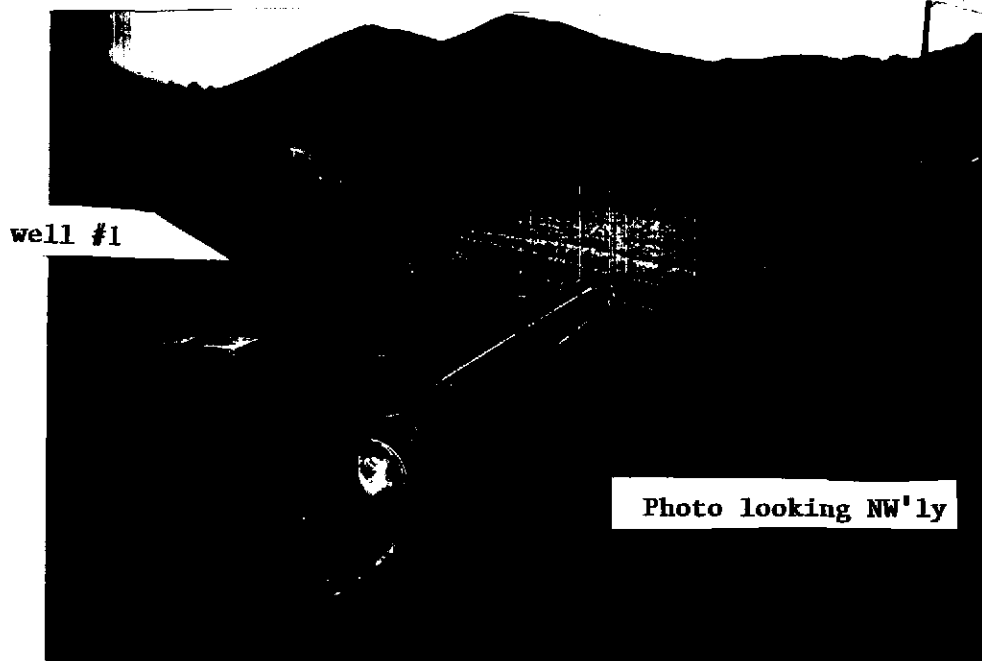

The application for transfer appears to be in order and could be recommended with the normal conditions included.

RE: Groundwater affects on Reed Springs

Gentlemen:

As you know it has been noted in the past that groundwater pumping in the vicinity of Reed Springs affects the flow of the springs which may affect the delivery of senior rights on Raft River. In recognition of this potential injury to senior rights it is my understanding the groundwater pumpers (Erickson & Durfee) have in the past mitigated their groundwater use by replacing water back into Reed Springs &/or Raft River. As you may know the last groundwater right issued in this area (License 43-07086 to Erickson) is conditioned as follows:

- Flows of Reed Springs, depleted by pumpage of groundwater under this license, shall be replaced to protect prior water rights.
- Use of this water right will be regulated by the watermaster of State Water District 43-B.

Recently Mr. Harper representing the water district requested that the department look into this matter and give further direction to the watermaster as to how to regulate this/these rights. In light of the vague condition on 43-07086, past non-formal mitigation, potential drought related affects on the spring, potential affects of other land use changes in the basin on the spring and the recent ownership change from Erickson to Steed; it is appropriate to formalize a mitigation plan for this situation.

I asked Glen Saxton to review the records available in the department's state office (copy of my 9/11/1997 memo to Saxton, copy enclosed) to help determine the basis of the condition on license 43-07086. His report is contained in memorandum dated 9/16/1997 (copy enclosed). I also talked with Mr. Erickson who indicated that in the past he has provided 2/3 and Durfee has provided 1/3 of the mitigation for pumping the wells. I asked that he write a letter describing the mitigation in detail but he has not yet responded.

NOV 2 1997

The purpose of this letter is to inform the known parties of what has recently been looked at by the department and to see if this matter can be resolved by a written agreement. The issues which need agreement appear to be:

-How much of the replacement water should be provided by each groundwater pumper?

(Steed 2/3 & Durfee 1/3)*

-What will the basis of the replacement amount be?
((1/2 of the difference between 120" and the flow of the Reed Spring measured in the spring before groundwater pumping starts) plus the amount of flow of the Reed Spring measured in the spring before groundwater pumping starts)... for example if 80" was measured in the spring then 100" would be mitigated.*

*For illustrative purposes only; the basis described is a compromise between what I presently understand the parties positions may be. This could be described as a splitting the baby scenario. All of this would be subject to negotiation by the parties.

-Other issues important to parties.

Please review this matter and advise me if an agreement can be worked out before the end of this year; hopefully something can be finalized before next irrigation season. If an agreement can be worked out, I would propose that it would be incorporated into a future preliminary order to be issued by the department which would direct mitigation for use of the Steed and Durfee groundwater rights. If an agreement cannot be worked out then the department may consider further action. If you have questions about this matter please feel free to contact me at this office.

Sincerely,

Allen Merritt, PE
Southern Region Manager

RE: Complaints of illegal water use on lands around Reed Springs

Dear Mr. Dyer:

Thank you for your response to my letter of 8/13. In your letter you ask several questions which I may not be able to fully answer at this time. The final answers are dependant on future actions by either Mr. Steed or the BLM by filing claims in the SRBA, transfers of existing rights or other filings which either document an existing, but unrecorded water right for these lands or move/provide a valid water right to these lands.

If water rights are not secured, then the lands must not be irrigated. The burden of securing water rights either rests with the landowner (BLM) or the user (Mr. Steed).

For your information, please find enclosed a memo I prepared after a recent visit by Mr. Steed regarding this matter.

If you have questions and wish to discuss this matter further, I welcome your call to our office.

Sincerely,

Allen Merritt, PE
Southern Region Manager

August 20, 1997

Allen Merritt, P.E.
Southern Region Manager
Idaho Department of Water Resources
1341 Fillmore Street, Suite 200
Twin Falls, ID 83301-3380

Dear Mr. Merritt:

In your letter of August 13, 1997, you indicated that public lands within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of section 23, Township.16 South., Range.24 East., are being irrigated and that no valid water right for those lands exist. The irrigated farming that is occurring here is not authorized by BLM and is considered an agricultural trespass situation. We are not aware of any water right for this parcel of land.

We have two options to handle this trespass situation, authorize the continued farming of public land or terminate the farming use and rehabilitate the land. Your response to the following questions will help us take necessary action that would be consistent with IDWR policy and that would be agreeable with the upper Raft River water users.

Private water is apparently being used to irrigate this parcel of public land. Is the existing private water right sufficient to allow the irrigation of this additional acreage?

Should BLM allow continued farming on this land, would IDWR allow the individual to appropriate additional water for use on the land? Would IDWR allow the private individual to transfer part of his existing water right to this parcel of public land for irrigation purposes? As you are aware, should IDWR allow this, our current policy is to have the water right put in the name of the United States for that portion used on public land.

MICROFILMED

NOV 20 2000

T# 5287

Should you determine that there be insufficient water to irrigate this land, I would appreciate it if you would send a letter to the individual and request that he cease applying water on the public land parcel. I would also appreciate receiving a copy of that letter so that I can use it as support in our effort to resolve the trespass. With this support, I would then notify him to cease farming, remove all irrigation facilities, and rehabilitate the land.

Thank you for your bringing this trespass situation to our attention and for your response to this letter.

SUBJECT: VISIT BY STEED

ON 8/18 MR. STEED VISITED THE OFFICE AND WE DISCUSSED THE RECENT LETTER SENT REGARDING APPARENT ACRES IRRIGATED WITHOUT A WATER RIGHT. MR. STEED INDICATED THAT SOME OF THE ACRES MAY HAVE HISTORICALLY BEEN IRRIGATED BEFORE 1987 AND WOULD QUALIFY AS EXPANSION ACRES. WE ALSO DISCUSSED THE POSSIBILITY OF FILING A TRANSFER TO MOVE WATER FROM LESS DESIRABLE LAND TO MORE PRODUCTIVE ACRES. WE ALSO DISCUSSED HIS USE OF BLM LAND WHICH HE INDICATED WAS IN SOME AGREEMENT WHICH HE PROVIDED ACCESS TO REED SPRINGS FOR CATTLE GRAZING ON BLM IN EXCHANGE FOR IRRIGATION OR TRESPASS ON BLM. I TOLD HIM THE MATTER OF TRESPASS WAS NOT OUR CONCERN, OURS WAS THAT THE LAND IRRIGATED NEEDED TO BE COVERED BY A WATER RIGHT SO IT WAS UP TO HIM OR BLM TO MAKE APPROPRIATE FILINGS. (IT APPEARS THAT THESE LANDS MAY QUALIFY FOR EXPANSION ACRES SINCE IRRIGATED FOR LONG TIME.)

AS FOR THIS YEAR HE INDICATED THAT NO MORE IRRIGATION OF THE SUBJECT LANDS WOULD OCCUR. I TOLD HIM THAT BEFORE THESE LANDS ARE IRRIGATED AGAIN THAT THE WATER RIGHTS ISSUES WILL NEED TO BE DEALT WITH.

I PROVIDED MR. STEED WITH COPIES OF THE WATER RIGHTS ON THE RANCH AS WELL AS COPIES OF MAPS/PHOTOS. I WAS MY UNDERSTANDING HE WAS GOING TO GET AN ACCURATE MEASUREMENT OF THE ACRES AND DETERMINE WHAT TO DO AND WILL BE BACK IN TOUCH.

FROM: Jim Stanton

SUBJECT: Bruce Durfee/Gary Steed Illegal Diversion, Basin 43

Land owner Bruce Durfee called today in response to your recent letter. As you were not here, I took the call. Mr. Durfee told me that his arrangement with Mr. Steed started 3 years ago. The land in question was virgin ground that Steed wanted for seed potatoes. Mr. Durfee expected that Steed would dry up a like number of acres of licensed ground in order to provide water for the new ground, but Steed simply added the additional ground to the system. The arrangement with Durfee was only supposed to last for 1 year, but Steed is obviously still there. Durfee has tried unsuccessfully to get him off the place. The illegal ground is in grain this year, so in all likelihood there will be no more irrigation this year. Once the grain is harvested, Durfee plans to plant crested wheat on this property after removing the irrigation equipment. So there should not be any more irrigation on the unlicensed ground. I'm not sure exactly what arrangement existed between the two men to allow Steed to farm the ground, but from what Durfee said it was not exactly a lease. Mr. Durfee plans to call you Monday on this. He asked me what he needs to do next, but I wasn't sure.

FROM: Allen Merritt

DATE: August 13, 1997

TO: Steed/Reed Springs/WD 43-B

SUBJECT: Meeting

On July 23, 1997 I met Gary Steed & Dave Sundberg at Steed's pond. The purpose of the meeting was to discuss the replacement of water back into Reed Springs as per condition of license 43-07086. Mr. Sundberg had requested some assistance or guidance in this matter.

At the time of the meeting there was very little water flowing in Upper Raft River above Reed Spring. We observed that some water was flowing in Reed Spring through the pond into Raft River. Mr. Steed was not discharging water from well into spring but some water may have been flowing from a small domestic well. We also observed that Durfee was discharging water from his well system into Upper Raft River. We proceeded downstream to where Raft River crossed major East West County Road and found that Raft River was dry. We also went further down Raft River where Almo Creek enters and above the confluence Raft River was dry but Almo Creek was providing water to Raft River and the river was flowing and filling rights below according to Sundberg. Pictures were taken.

As a result of the meeting Mr. Steed agreed to modify his discharge control works so that the watermaster can control said discharge. He also agreed to improve the measuring device below the pond per watermaster requirements. The watermaster (Sundberg) agreed that pumping water to spring was not then required since Raft River dry and he also would contact Durfee to cease replacement. It was agreed that the watermaster was the one to make the call when replacement was necessary.

While at the road crossing Mr. Ward stopped and talked to Steed and I about related issues of Reed Spring and protest of pond application. During the discussion Steed and Ward did not resolve anything so Steed requested that I schedule a hearing. Both Steed and Ward provided me some dates and I have scheduled said hearing for the 9/10/97. During the discussion we talked about expansion of acres and affects on springs which seems to be an issue. I told them that if someone provided me with a written complaint describing what lands are being illegally watered that we would investigate. If I found lands without water rights then I would initiate a NOV if irrigation continued. I recommended that Mr. Steed review his water filings and see if he was within his rights.

A few days after returning to my office Terry Blau received a call from Erickson regarding Steed watering lands he purchased from Erickson without a water right. I have investigated and found potentially lands without rights so I have sent out the first letter. (See letter to Steed/Durfee/BLM dated 8/13/97).

RE: Complaints of illegal water use on lands around Reed Springs

Gentlemen:

Our office has been contacted by waterusers in the upper Raft River drainage to investigate potential illegal water use on lands in the Reed Springs vicinity (Sections 13, 14, 23, & 24 Twp.16S, Rge.24E). Our office has reviewed the 1997 CFSA aerial slides for this area and compared these with ownership records at Cassia County and water right and SRBA claim records with the department. We confirm that there appears to be irrigated lands that do not have a valid water right. The particular lands falling in this category include:

Lands within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 23, Twp.16S, Rge.24E, B.M. belonging to Bruce Durfee. (Approximately 25 acres)

Lands within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 23, Twp.16S, Rge.24E, B.M. belonging to Gary Steed. (Approximately 34 acres)

Lands within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 23, Twp.16S, Rge.24E, B.M. belonging to the BLM. (Approximately 7 acres)

Since no right or permit exists in our records I request your cooperation in:

-identifying what water right covers the irrigation of these lands if our records are not correct.

-do not divert water for irrigation of these lands if you do not have a water right.

-&/or obtain a valid permit or water right for your for irrigation of these lands.

Please respond to our office within 14 days of the date of this letter as to the status of the irrigation of these lands. Please also note that to divert water in Idaho without a valid water right

Water District: 43-B, Upper Raft River

Dear Mr. Sundberg;

We have received your letter of July 13 detailing problems within your district. I have tried unsuccessfully to call you at your Utah number, so hopefully to postal service will have better luck. Allen Merritt, our regional manager, would like to meet with you next week to view the problem areas referred to in your letter. Please contact him next week to arrange a meeting, as he is out of the office until Monday. It sounds like additional measuring devices and lockable controlling works may be needed out there, and Allen plans to advise you on this.

Allen Merritt
IDWR
1341 Fillmore Street, Suite 200
Twin Falls Id. 83301

Dear Mr. Merritt:

I received your letter dated July 10, 1997 on July 11 and followed the river from Malta to Reed Springs and found the following conditions.

Warr Brothers of Malta Irrigated Lands were receiving about 20 inches of water as compared to about 80 inches a few days earlier. I had discussed this with Oleen Warr the day before and we had agreed that if the stream dropped any more we would allow Stewart to take it upstream where there was about 100 inches. Mr. Stewart has contacted me several times asking if he could take it because his well is hot and he doesn't like to use it on hot days. Warrs were clinging to Raft river trying to re-wet their fields where they recently cut their hay.

Farther upstream I discovered that Richard Miller was pumping water from the river. I have called him not too long ago and told him not to pump from the river. This has been a problem in the past years when he has used the excuse that his Mexican turned it on. However, I talked to Lupe Jimenez who told me that Miller had told him to turn the pump on. I told Lupe to turn it back off, which he did. The next day there was about 100 inches reaching Warrs, half of which was turned down the channel to Alan Harner. At the present time there are two people using Raft River water and two others who are calling for it. The two who are using the water do not have their rights filled so there are actually four people calling for water at this time.

Water is running the full length of Raft River so if Gary Steed puts water into the river it will reach the people who are calling for it.

I called Gary on Monday June 16 and told him that he needed to start putting water into the river. He told me that he had been, and that the reason there was none there when I looked on Sunday is that he does not irrigate on Sundays. Later I called him and he said that he had put water in earlier and didn't need to now because of that. I have measured the weir below his pond twice per week since April 1 and since May 10 there has never been a significant part of 60 inches running out of his pond, which was not important until I called him on June 16. No significant amount of water has run out of the pond since June 16. After calling Gary twice I asked Bob Hope what he would do and he said he had not tried to enforce the call in other years when Gary hasn't put water in the river.

After receiving your letter I have talked to several water users on Raft River and the general consensus has been that Miller should be required to put in a headgate that can be locked and a measuring device since he has been a chronic problem for several years and that Steed should replace the water he is taking from Reed Springs. Sunday I went to Reed Springs and opened the valve to as near as I could guess 60 inches of water. The water comes out of the pipes swirling and is hard to guess. The pond below the pipe is grown in with vegetation so thick that you can not see the stream as it leaves so the stream can not be measured until it has had time to fill the pond and stabilize the flow in the measuring device below the pond. With the amount of moss in the pond I am sure that the screen on the stand-pipe will plug up so that the pond level will raise and lower each time it is cleaned so that it will probably not be possible to measure it the same day I turned it. I will go back in the morning and measure it.

NOV 20 2003

T #5287

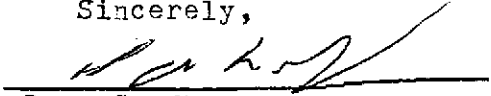

With the present measuring device the flow at any given time depends on how plugged the standpipe is and how recently it has been cleaned, whether the pond is filling or losing water. To accurately measure the flow from the spring at any given moment a measuring device needs to be placed in the channel reasonably close to the spring where the entire spring is running together, above the pond. The most common comment I have heard is that the water users are tired of the Reed Springs problem and arrangements should be made to assure that the water is replaced. This will probably require a lockable adjustment on the injection pipe since Gary is obviously not capable of delivering the water of his own free will. It wouldn't do much good for a watermaster to keep turning the water back on if Gary is going to turn it back off. A device to insure delivery would probably cost less than a watermaster running around would cost.

Gary told me that he doesn't pump on Sundays so he doesn't put water back in the stream on Sundays. As I understand the condition on his licence, any flow depleted by his pumpage should be replaced, so if pumping 6 days per week causes the spring to not flow 7 days per week, on the 6 days that he pumps he would need to put 70 inches into the river instead of 60 inches. During June he put about 20 inches into the river so he was about 40 inches short. From June 16-30 he was short .8cfs x 15 days = 12cfs/24hr. In July he has not put any water back. 1.2cfs x 13 days = 15.6cfs/24hr. Gary has taken 27.6cfs/24hr from Raft River which he was not entitled to since I first called for it. Should this water be replaced?

Alan Harper said he could use another 3line- which the 60 inches I turned today will supply, I don't know what more Warren want. Stewart wants 2cfs so he doesn't have to pump hot water. So any water replaced will be used by it's rightful owner as much as possible.

I welcome advice from any one concerned in this matter.

Sincerely,

Dave Sundberg

JULY 15, 1997

TODAY I LOOKED AT THE POND AND NO WATER WAS RUNNING OUT OF IT AND THE MOSS APPEARED AS IF VERY LITTLE WATER HAS REACHED THE POND.

I TURNED WATER ON SUNDAY AND THEY SHUT IT OFF SO I TURNED IT BACK ON MONDAY, I TALKED TO GARY FOR ABOUT AN HOUR AND HE AGREED TO PUT WATER INTO THE RIVER UNTIL I TOLD HIM TO STOP. WHEN I LEFT THEY APPARENTLY TURNED IT OFF IMMEDIATELY BECAUSE THIS MORNING THERE WAS NO WATER LEAVING THE POND AND THE MOSS WAS NOT DISTURBED.

RE: Application for Permit 43-07322 (Pond)
Control by watermaster of License 43-07086

Dear Mr. Steed:

As you may recall, at the pre-hearing conference for your protested application 43-07322 held on June 12th, it was decided that the parties involved would get together and explore options for agreement and/or settlement of the protests. I requested that you contact me by July 1 to inform me of the progress of these negotiations or to advise me if I need to schedule another conference or set the hearing if things cannot be worked out. Todate I have not heard from you. Please contact me as soon as possible to inform me of what needs to be done.

On another note, at the conference, you may recall the discussion regarding the requirement for you to replace water in Reed Springs as mitigation for pumping water from your nearby well. The question was asked if mitigation was required at all times or were there situations during flooding or drought where mitigation would not be required. I have researched our records and discussed this matter with the department administrators. I have found that license 43-07086 (copy enclosed) is conditioned that:

- Flows of Reed Springs, depleted by pumpage of groundwater under this license, shall be replaced to protect prior water rights.
- Use of water under this water right will be regulated by the watermaster of State Water District 43-B.

These two conditions were placed on the license so that the watermaster, who delivers the rights on the Upper Raft River, can regulate the water required to be replaced so that the rights of prior right holders are not injured. In the specific situations where:

-The Raft River is at flood stage and all rights called for are being filled

or

MICROFILMED

NOV 20 2000

T#5287

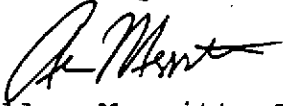

-The Raft River is at extreme low flow or dried up
(futile call),

then the watermaster is authorized to determine that no replacement is required; otherwise, the affect of pumping groundwater pursuant to license 43-07086 on Reed Springs shall be mitigated by replacing water from the well back into the Reed Springs or the Raft River.

By copy of this letter I will inform the watermaster to take control of this situation. Please note that measuring devices may need to be installed by you to allow the watermaster to make the measurements necessary to determine and monitor the water replaced if they do not presently exist.

If you have questions, please feel free to contact our office.

Sincerely,

Allen Merritt, PE
Southern Region Manager

Re: Permit No. G-30822

Jack Emery Erickson
Almo, Idaho

Dear Mr. Erickson:

We acknowledge receipt of the depositions and affidavit of publication in the
The World of Idaho submitted as proof of com-
pletion of works and beneficial use on Permit G-30822.

Before a certificate and license of water right can be issued, a field
examination must be made by a representative from this department. We
cannot tell just when this examination will be made, but our field examiner
will try to contact you at the time he makes the examination so that you
may show him the system.

Very truly yours,

Donald W. McEldevney
Appropriation Examiner

Dear Mr. Erickson:

This acknowledges receipt of the notice of intent to make proof of completion of works and application of water to beneficial use for permit G-30822.

We have mailed the notice to the World of Idaho to be published once a week for four consecutive weeks prior to February 28, 1968, which is the hearing date when the permit holder

Jack Henry Erickson and two disinterested witnesses must appear before Jay L. Nielsen, notary public, to complete the enclosed depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by Jack Henry Erickson. Be sure all the forms have the notary's seal and are signed.

Please feel free to contact us if we may be of any assistance.

RECEIVED

JAN 17 1968

Department of Reclamation

NOTICE OF PROOF OF COMPLETION OF WORKS AND
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that on Feb 28, 1968, at Albion, Idaho,
County of Cassia, State of Idaho, before notary public (name & address) Jay
L. Nielson, Albion, Idaho, proof will be
submitted of the completion of works for the diversion of 11.2 c.f.s. of the waters
of three wells, and the application to beneficial use of said water,
in accordance with the terms and conditions of permit G-30822, heretofore issued by
the Department of Reclamation of the State of Idaho.

1. The name and address of permit holder is Jack Emery Erickson, Almo,
Idaho.
2. Said works of diversion will be fully completed on the date for such completion,
and the amount of water which said works are capable of conveying to the place of use is
11.2 cubic feet per second.
3. The use to which said water has been applied is _____
irrigation purposes, and the amount applied to beneficial
use is 11.2 c.f.s.
4. The point of diversion of said water is NW4SW4, Sec. 13; SE4SW4, Sec. 13;
SE4NW4, Sec. 23, T. 16 S, R. 24 E, B.M., Cassia County.
5. The place where said water is used is NW4, NW4NE4, SW4NE4, NW4SW4, Sec. 13;
S4SE4, SE4SW4, Sec. 14; NW4NE4, NE4NW4, SE4NW4, Sec. 23, T. 16 S, R. 24 E, B.M.
6. The date of priority which said user is prepared to establish is _____
November 23, 1962.

Dear Mr. Erickson:

*Cancelled on 5/19/68
Must be received
by February 2, 1968*

November 20, 1967

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than _____.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

→ We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

R. Keith Higgins
State Reclamation Engineer

Department of Reclamation

(This completed form authorizes the Department of Reclamation to publish the required notice at your expense.)

State Reclamation Engineer:

You are hereby authorized to have the attached notice published at my expense in the World Herald Bulletin of Burley, Idaho; published in the county in which the works are situated.

Jack Emery Erickson
(signature)

Almo Idaho
(address)

Sept 27, 1967
(date)

In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer when proof is for completion of works.

I hereby certify that the facts set forth in the attached notice are true.

Engineer

August 2, 1967

Re: Permit 6-30822

Jack Emory Erickson
Almo,
Idaho 83312

Dear Mr. Erickson:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than November 30, 1967.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

R. Keith Higgins
State Reclamation Engineer

RELINQUISHMENT

I hereby relinquish to the State of Idaho, all my right, title and interest in and to Permit to Appropriate the Public Waters of the State of Idaho, No. _____.

RE: Permit G-30822

Jack E. Erickson
Almo, Idaho

Dear Mr. Erickson:

Enclosed herewith are the two amendments on the point of diversion and land list which have been recorded in this office under the above referenced permit.

Also enclosed is departmental receipt No. G-11172 in the amount of \$2.00. This amount covers the recording fee.

Very truly yours,

M. RUSSELL BOSCH
Office Manager

Fee \$1.00

Application for Amendment
POINT OF DIVERSION
Permit No. G30822

RECEIVED
DEC 8 1966

Department of Reclamation

Comes now JACK EMERY FRICKSON
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of
the State of Idaho, No. G30822.

That the point of diversion is described in said Permit as being located:

SE 1/4 NW 1/4 SEC 23, T16S, R24E.

That he now requests that the point of diversion be changed to points
located:

SE 1/4 NW 1/4 SEC 23, SE 1/4 SW 1/4 SEC 13, ALL IN T16S, R24E.

That the reason for desiring to make such change is as follows:

ONE WELL DID NOT PRODUCE ENOUGH WATER.

That no one will be injured by such change, and that such change will be made at
Permit Holder's own risk.

Signed at Almo this 5th day of Dec, 1966

Jack Emery Frickson

Date of Receipt at Department of Reclamation: December 8, 1966

APPROVAL OF STATE RECLAMATION ENGINEER

I, R. Keith Higginson, State Reclamation Engineer of the State of
Idaho, hereby approve the above and foregoing application for amendment to Permit to
Appropriate the Public Waters of the State of Idaho, No. G-30822. This approval
constitutes a new permit and is issued as an amendment to the original permit, to which
it refers and of which it becomes a part, and said application is approved only insofar
as the rights of others will not be adversely affected thereby.

Re: Permit No. G-30822

December 11, 1962

Mr. Jack Emery Erickson,
Almo, Idaho.

Dear Mr. Erickson:

We enclose Permit No. G-30822 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7572 which was issued covering payment in the amount of \$7.75 for the filing fee of the above mentioned permit, ~~was handed to you.~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
