Re: Permit No. G - 30461

Lano Elison
Malta, Idaho

Dear Mr. Elison

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30461 are due not later than April 20, 1967

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Dear Sir:

This is to advise that Farmers Home Administration has closed a real estate loan to Lano A. Elison and Lois Z. Elison of Malta, Idaho. Mr. Elison holds water permit number G-30461.

We are requesting that you make note on the files of Mr. Elison of this loan as he has agreed not to assign, transfer or make any other changes in the Permit (said permit and the water developed under same has been pledged as a portion of the security for said loan) which would be adverse to the interests of Farmers Home Administration without prior notice in writing for our consent.

If you will, please sign the copy of this letter which is attached and return the same to this office as acknowledgment of this request for our records.

Sincerely yours,

Fred L. Johnson

Dear Mr. Ellison:

You requested information in regard to your application for permit.

We requested payment of the fees by letter dated April 5th and received the fees April 17. The application has been approved and you should receive the permit next week, after recording and indexing in this office. We will be a few days slower than you were in remitting the fee.

Very truly yours,

Dear Sirs :

Some time ago I wrote you about a Permit for a well. In the application I forgot to send in a check to cover the Permit you wrote and said it had been approved if I sent the check. I returned your letter with a check to cover same on April 16 and have not heard from you about it.

Will you please check into this and see if you got my check and send the Permit.

Respectfully

RE: Application for Permit

Lano Ellison
Malta, Idaho

Dear Mr. Ellison:

Your application for permit to appropriate 3.0 cubic feet per second of subterranean water has been received without the filing fee of \$5.50.

The application can be approved, subject to condition that not over one miner's inch per acre will be diverted from subterranean source for irrigation of the land, upon payment of the fees noted above.

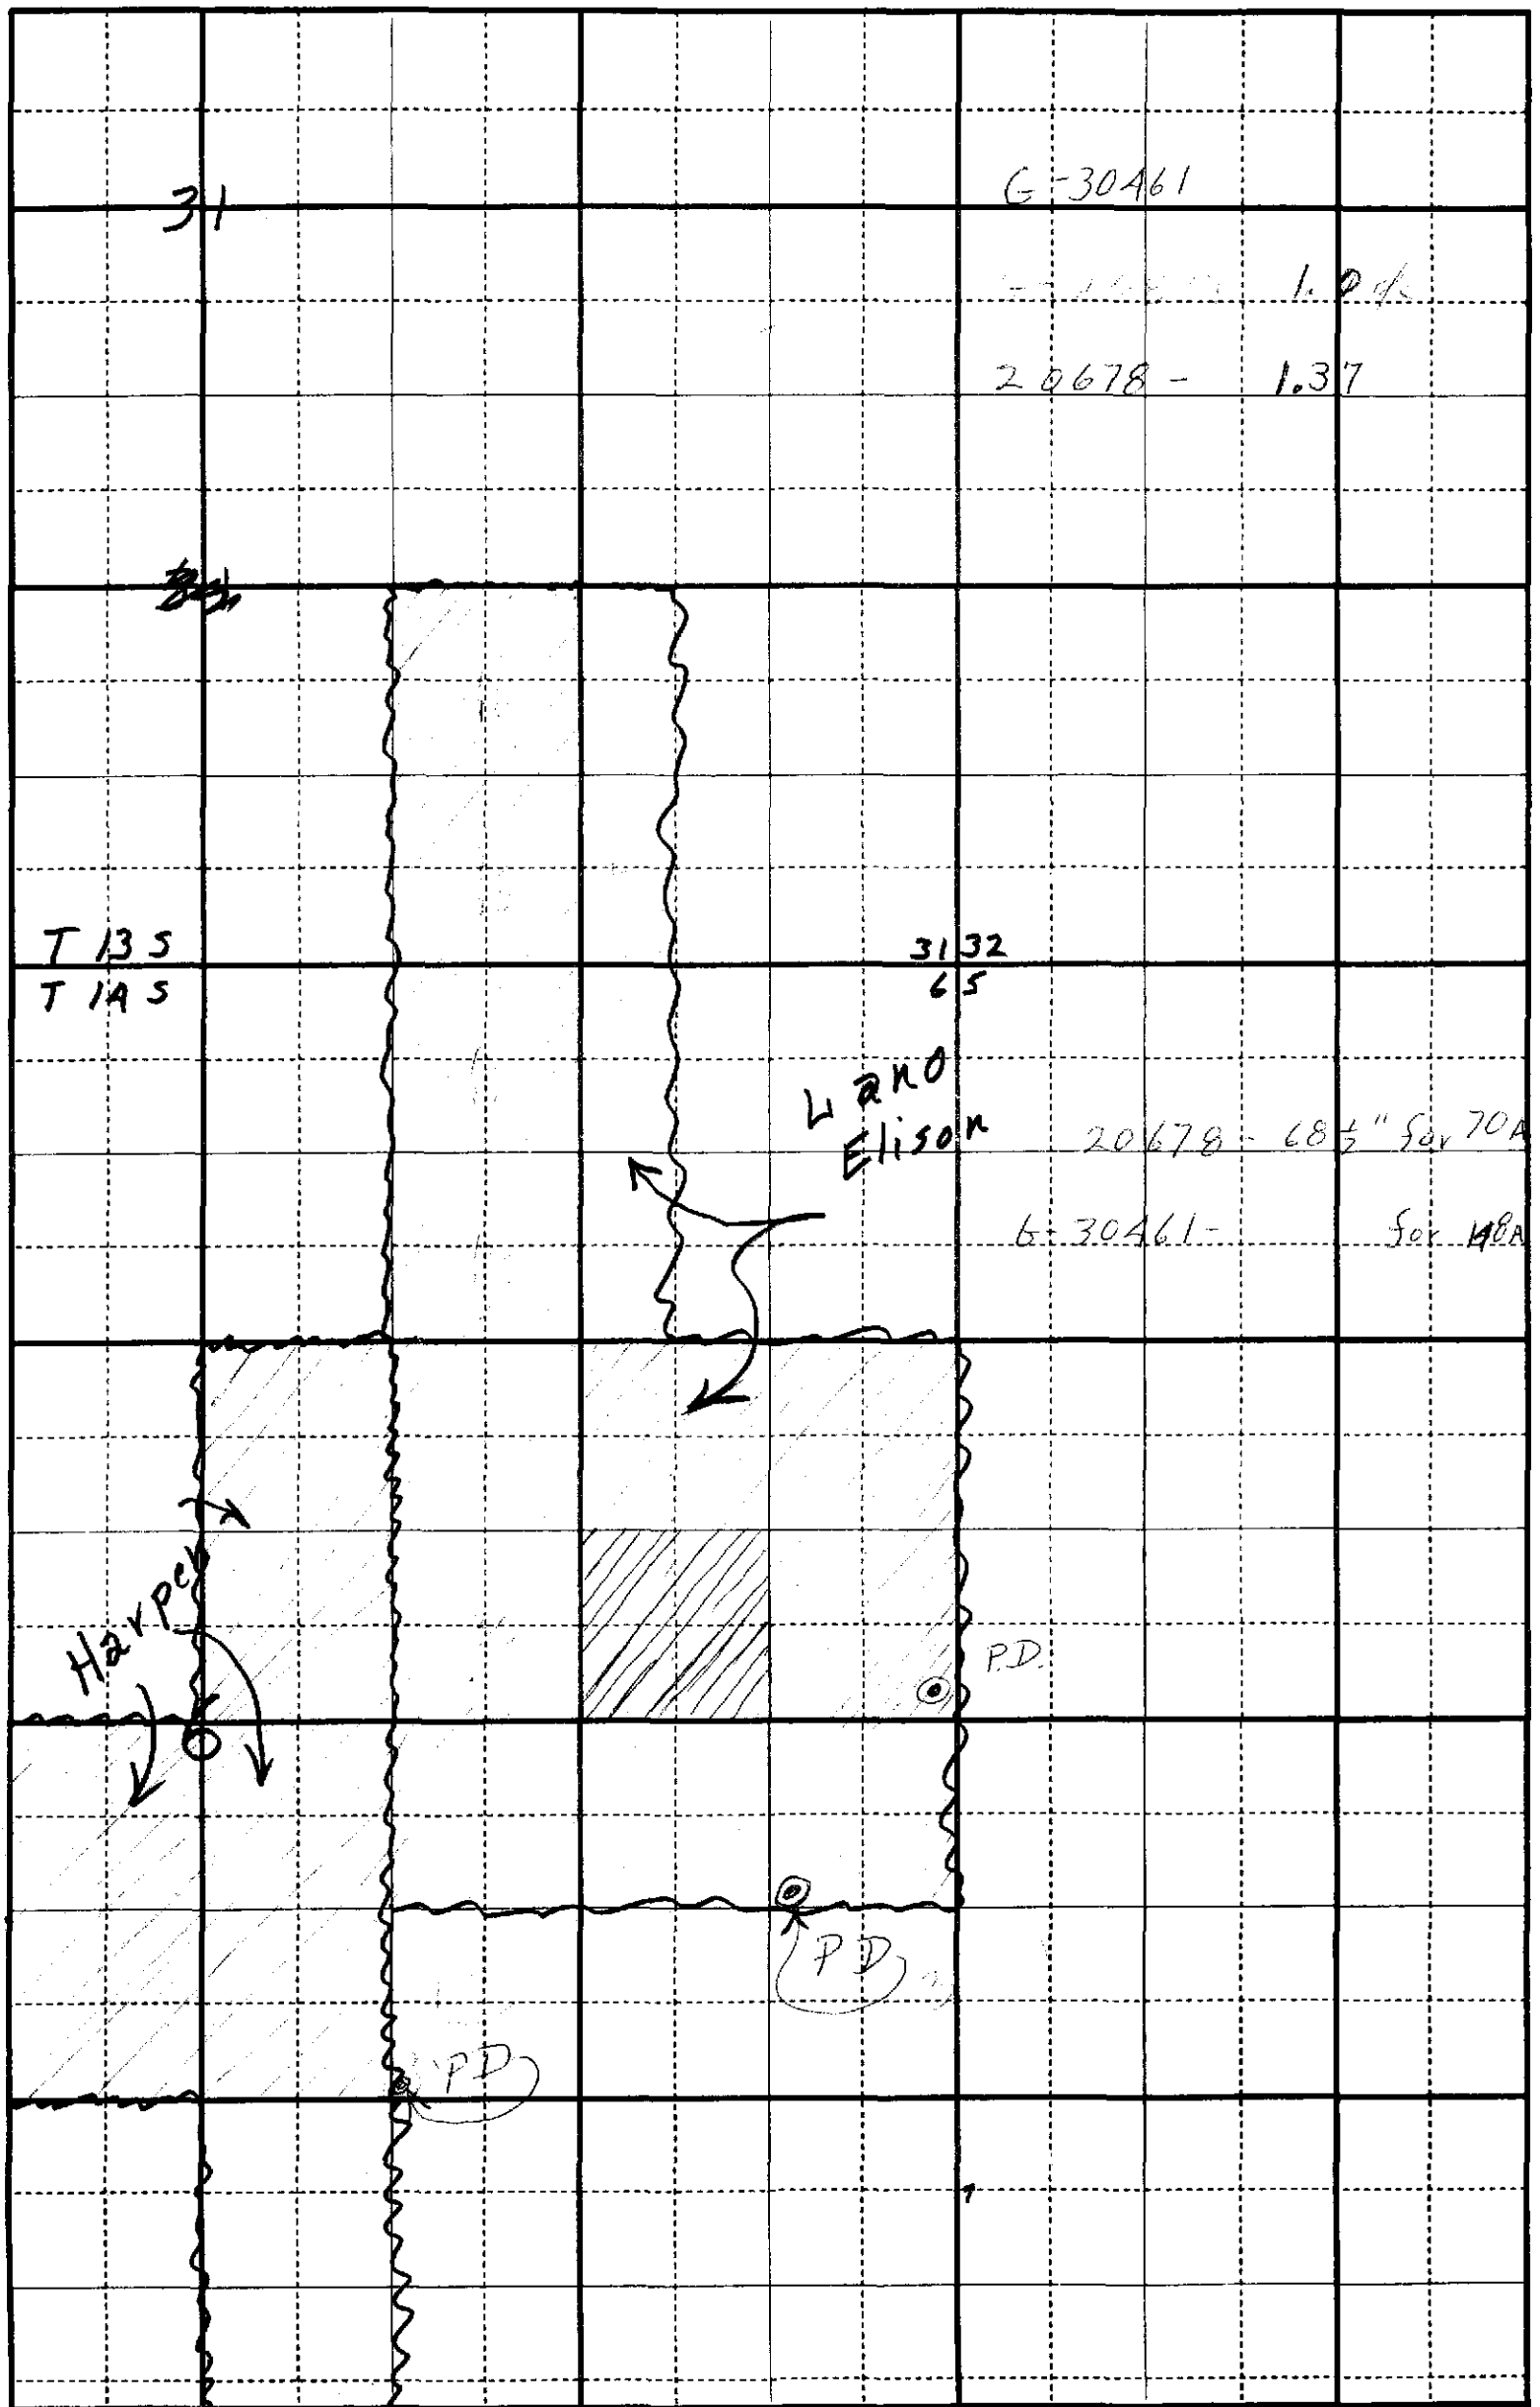

Very truly yours,
