Dear Mr. Endow:

I checked the aerial photo in the ASC office pertaining to the land and pump I examined June 21st.

I had to cut a few more acres off. I believe we had figured 203 acres. Checking the photo, the most I could come up with is 197 acres. There is approximately 15 acres of crested wheat and about 2 acres for the house and other buildings in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 14. There is still plenty of land for the amount of water your well produces.
