Re: Permits G-30281 & 20692

J. Deward Hall
Malta, Idaho

Dear Mr. Hall:

In reference to your letter of September 1, 1967, we could proceed to license your well under Permit G-30281 for 2.58 c.f.s. if you will supply us with an affidavit stating that you thereby abandon and relinquish all right and claim to 0.66 c.f.s. of water diverted from a sump in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, T. 13 S, R. 26 E, as licensed under Permit 20692. This would still leave 1.1 c.f.s. from a point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 14 under license 20692. We could then allow you a full inch per acre under Permit G-30281 for the lands not covered by the remaining portion of Permit 20692.

If this arrangement is agreeable to you,, please supply us with the above notarized affidavits within 30 days. If you have any further questions, please contact us.

Very truly yours,

This is to certify that J. DEWARD HALL
 of Malta, County of Cassia, and State of
Idaho, the holder of Permit No. G-30281, issued upon
 Application No. G-38318, bearing date of priority of November 2, 1961, authorizing the
 diversion of 3.25 second feet of waters of a well,

County of Cassia, State of Idaho, for irrigation
 purposes, has fully complied with the provisions of the laws of the State of Idaho
 relating to the proof of completion of the works of diversion set out and described in said
 Permit; that said works are adequate for diverting and conveying to the place of intended
 use 2.02 second feet of the waters of a well, from subterranean
 flow;

that the point of diversion of said waters is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 14, Township
13 South, Range 26 East, Boise Meridian,

and that the lands proposed to be irrigated by the use or place of use of said water are
 described as follows, to-wit: E $\frac{1}{2}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 14, Township 13

Dear Sir:

In reply to your letter of Aug 15 1967
you state that 2.94 c.f.s. of water have
been diverted, and that only 1.92 c.f.s.
can be recognized as beneficially used
under Idaho Law.

I take it that the full amount can
be recognized as beneficially used in
because of other existing permits on
this same land.

I have abandoned a sump well
which was replaced by this drilled
well.

As I recall the sump was licensed
for 34 inches of water.

At this time I am unable to find my

Permit on the abandoned well, and
cannot give the permit No. This well
or sump was in the exact location as
the existing well under permit G-30281

This above mentioned sump has
been completely filled in and there is
no evidence of it having existed.

What I would like to know can
the 34 inches of water licensed to the
above mentioned sump be applied
to permit G-30281 as there is 102 c.f.s.
of water which you state in your
letter cannot be recognized as beneficially
used.

In closed plainfold check in the
Amount of \$15.00 with you request.

Yours truly

Dear Mr. Hall:

A representative of this department has made an examination of the works covered by your permit G-30281 and has found the following:

Quantity of water diverted: 2.94 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho Law: 1.92 c.f.s.

Purpose of use: irrigation of 184 acres in E $\frac{1}{2}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, T. 13 S, R. 26 E, B.M.

The priority date established is: November 2, 1961.

Dear Mr. Hall:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Burley Herald Bulletin all submitted in proof of completion of works and beneficial use on Permit No. G-30281.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G - 30281

Sept. 1, 1966

J. Deward Hall
Malta, Idaho

Dear Mr. Hall:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30281 are due not later than **Nov. 3, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
