Dear Mr. Church:

The above referenced water rights are properly recorded with the Department and no action is required to maintain their validity for amounts of water, points of diversion, and places of use as recorded.

Water licenses and claims are appurtenant to the real property described in the water right and follow real property ownership unless specifically withheld in a transfer of title.

There is no requirement to change the owner name on a license unless some change is being made to the right under Section 42-222 of the Idaho Code.

We will include your inquiring letter in the appropriate files as evidence of current ownership.

If you have any further questions, please feel free to contact this office.

Very truly yours,

Claim to a Water Right No. 43-4049 - A.D. Nye

Gentlemen:

This office represents Mr. A. D. Nye of Malta, Idaho, who owns and operates agricultural real property in the vicinity of Malta, Cassia County, Idaho. Mr. Nye has asked us to check on the situation as now exists with regard to the above captioned license and certificate of water right and the above captioned claims to a water right and thus, we are asking your assistance at this time.

Water License and Certificate No. G-30158 was issued to Garrett Hutchison on January 19, 1968, a photocopy of which I enclose. Under date of March 29, 1968, by Warranty Deed, Garrett Hutchison and Myrtle Hutchison, husband and wife, transferred and conveyed to A. D. Nye and Annie H. Nye, his wife, the real property described and set forth in said license and certificate of water right, which said deed likewise provides for the transfer and conveyance of all appurtenances to said real property. My purpose in writing with regard to said water license and certificate is to inquire as to whether or not your records reflect the transfer and conveyance to Mr. Nye of such license and certificate. If so, kindly confirm that fact, and if not, please advise me of what must be done in order that the transfer and conveyance might be effected in your records.

With regard to the two claims to a water right (No. 43-4048 and No. 43-4049), kindly confirm if your records reflect such claims and if your files and records with regard to such claims are complete at this point; and, whether or not Mr. Nye need do anything further at this time with regard to such claims.
