Gentlemen:

We are trying to locate some information regarding a well located in the SENW, Sec. 29, Twp 11S, Rng 27EBM on property (Cassia Co.) that belongs to Paar Brothers. We believe that there is a permit or license under #G-29174. Would you please verify this number and indicate the amount and date of priority? Thank you.

Yours truly,

That the point of diversion is described in said Permit as being located: NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 29, T11S, R27E BM

That he now requests that the points of diversion be changed to a point located: NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 29, T11S, R27E BM

That the reason for desiring to make such change is as follows: Well for Permit G-29173 will probably produce sufficient water for both tracts. That no one will be injured by such change, and that such change will be made at Permit Holder's risk.

That he now requests that the point of diversion be changed to a point located: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 29, Township 11 South - Range 27 East, B.M.

That the reason for desiring to make such change is as follows: This well has been drilled since 1955 & was not included in Completion of Works of 21541 & was not equipped with a pump at that time. New change in point of diversion is only slightly over 1/4 mile from point of diversion in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 29 and 1/2 mile from point of diversion in NE $\frac{1}{4}$ NW $\frac{1}{4}$ & does eliminate one point of diversion. U. S. Department of Interior
Bureau of Land Management
P. O. Box 2237
Boise, Idaho

Gentlemen:

It has recently come to my attention that the Bureau of Land Management is not considering or granting desert land applications within designated "Critical Ground Water Areas" in this state. This is apparently true whether the applicant has an approved water permit or water is available to him from some reliable source or not.

This has come to our attention in connection with a permit to appropriate water which was granted prior to the date of our order closing the Raft River critical ground water area. It and the many similar applications were taken into consideration and we assumed water would be developed under a majority of them. This was, in part, the reason for our closure order. Without the possibility of such additional approved development these basins may not, in fact, be critical.

We therefore request that you review your policy concerning this matter, as we are satisfied you do not intend to attempt to control the appropriation of water within this state through action on desert entry filings. We will be happy to discuss this with you if you should desire.

Dear Mr. Gray:

In reply to your inquiry of January 13 our records indicate that Permit No. G-29174 for 4.0 c.f.s. is in the name of Clarence A. Parr. The well is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29, T. 11 S., R. 27 E., B.M., and the date of priority is November 30, 1960.

We find no record of a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, T. 11 S., R. 27 E., B.M. If there is one there we would appreciate hearing from you confirming its existence so that we may investigate.

Re: Permit No. G-29174

Clarence A. Parr
1900 Yale Avenue
Burley, Idaho

Dear Mr. Parr:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the BURLEY HERALD-BULLETIN, all submitted in proof of completion of works and beneficial use on Permit No. G-29174.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Church:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29174, in the name of Clarence A. Parr. Final Proof is to be made before you, as Notary on the 6th day of December, 19 65, at 10:00 o'clock A.M., at Room 203, Gem Bldg., Burley, Idaho.

As of this date, we have mailed the Notice to the Burley Herald Bulletin, Burley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Re: Permit No. G - 29174

Clarence A. Parr
901 7th St.
Rupert, Idaho

Dear Mr. Parr:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29174 are due not later than Dec. 6, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

POINT OF DIVERSION

Permit No. G-29174

RECEIVED
FEB 18 1965

Department of Reclamation

Comes now Clarence A. Parr and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to Appropriate the Public
Waters of the State of Idaho, No. G-29174.

That the points of diversion ~~is~~ ^{are} described in said Permit as being located:

NE1/4, SE1/4, Section 29, Township 11 South - Range 27 East, B.M.

That he now requests that the point of diversion be changed to a point
located: SE1/4, Section 29, Township 11 South - Range 27 East, B.M.

That the reason for desiring to make such change is as follows: This well has been
drilled since 1955 & was not included in Completion of Works of 21541 & was not equipped with a
pump at that time. New change in point of diversion is only slightly over 1/4 mile from point
of diversion in SE1/4, Section 29 and 1/2 mile from point of diversion in NE1/4 & does
eliminate one point of diversion. This is a proven well site & will irrigate all of the
lands efficiently and will save the cost of drilling an additional well.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.
