To- Dept of Water Resources -

My present Well has dropped
off in Water in the last 3 years,
I have talked to 3 well drillers
And they all agree that the well
has probably filled in with Silt
And maybe the casing in the
well has caved in, the well
was drilled 30 years ago, so the
casing has to be getting quite rotten.

So due to those facts we think
that it would be better to just
drill a new well, & I will cap the
old one. My plan is to just
~~go~~ go to the West a little way and
drill the new well. So all this is
will be like replacing a old piece of
machinery so I can keep my operation
going as it always has.

1 over 1

Now my plans are to drill this
late fall but you know these
well drillers they tell you they
will be here sometime this month
and you might be lucky to get
them this year.

Respectfully Yours
Robert Ward

P.S. I will be in the same 40 acre
lot.

I don't know if I owe you the
\$100 fee or not, but I will send it
a fee has been paid on this permit.

Re: Permit ~~NO~~-28028

Wesley B. Ward
Elba, Idaho

Dear Mr. Ward:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the BURLEY HERALD-BULLETIN, all submitted in proof of completion of works and beneficial use on Permit ~~NO~~-28028.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER

Dear Mr. Ward:

Returned herewith is your proof of completion of works and beneficial use forms 16 and 17A, under the above noted permit for correction in Question 6.

All three depositions show the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 24. This land was on your original permit, but it was not included in your legal notice, therefore, it cannot be included in your proof.

The two witnesses show the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, but you have not included it on your deposition. The land shown on all three forms should be in agreement.

Please correct these items and return the forms as soon as possible.

Very truly yours,

Re: Permit No. G- 28028

May 1, 1964

Wesley B. Ward
Elba, Idaho

Dear Mr. Ward:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28028 are due not later than July 9, 1964

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN
