Re: Permit No. G-27029

Alvin Newbold
Bridge, Idaho

Dear Mr. Newbold:

Returned herewith are the Forms 36 and 11.

There is a question of the land being irrigated as shown under 5. Your permit shows SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23; NW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 24, T. 15 S., R. 26 E. If you are irrigating other lands, the permit must be amended. The description must not contain a 40-acre subdivision which is not being irrigated, though it should show even if only a portion is irrigated.

Kindly correct and return promptly.

Very truly yours,

GEO. N. CARTER

Mr. Alvin Newbold
Bridge,
Idaho

Dear Mr. Newbold:

We are in receipt of your application for permit to appropriate the subterranean waters of the State of Idaho to the amount of 3. c.f.s.

You state that the well location is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23, Township 15 South, Range 26 East, B. M. Under the tabulation under question 12 you have check-marked the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23; the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and the S $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 24, Township 15 South, Range 26 East.

As you did not enclose a sketch-map showing the land location, we are enclosing a sketch map showing the location of the lands to be irrigated as above described. Please check over the lands as shown on said sketch map and if not correct, scratch out what is shown on the map as being incorrect and show the correct 40's to be irrigated.

The reason we are requesting this information is that the land is not connected the way that you describe same in your application.

Please return sketch map immediately.

RE: Application for Permit

Mr. Alvin Newbold
Bridge, Idaho

Dear Mr. Newbold:

In reply to your letter of July 8th, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

State Reclamation Engineer,
Dear Sir,

In response to your letter of last week concerning a permit for an irrigation well drilled last July & August - I call your attention to a letter written by me to your office on June 27-1966 and a reply to me on June 28-1966 listing permits H-20726 and H-27029 granted to Alvin Newbold Bridge Idaho.

The new hole is in the same 40 acres and the test shows 80 in. of water at 90 ft.

Thank you for your interest and hoping this clears up your questions,

Mr. Ivan Darrington
Almo, Idaho

Dear Mr. Darrington:

We have your letter of June 27, 1966, in which you request authority to drill a new well under Permits G-20726 and G-27029. Our records show that licenses were issued on Permit G-20726 for .21 c.f.s. (10½ inches) and on Permit G-27029 for 1.5 c.f.s. (75 inches). Therefore, you would be entitled to drill a new well or make repairs on the existing wells to obtain this amount.

If the new well is to be drilled in the SE¼SE¼, Section 23, T 15 S., R 26 E., B.M., you would require no further approval from this office. However, if the new well is to be at some other location you will have to ask for a transfer. Forms for this will be supplied upon request.

In any event you should understand that your rights are limited to a total of 1.71 c.f.s., (85½ inches) and if the new well produces this amount the old wells which are abandoned, should be filled in and permanently plugged.

Dear Sir:

I have purchased the 160 acre tract of land at Bridges, Cassia, Idaho. Originally belonging to Alvin Newbold. On which there are two existing wells under permit No. 20726 dated May 29-1951 and No. 27029 approved Aug 26-1957 and completion of work and application to beneficial use dated Aug 27-1962. These two wells deliver about 30 miners inches of water under continuous pumping. As this is insufficient to irrigate with I hereby request permission to drill a third hole on the east corner of the same 160 acre tract and attempt to bring the amount of useable water up to the 3 second feet claimed under each permit. If the new hole produces the needed amount the other two holes will be abandoned.

Will you please inform me as to the steps to take to get this accomplished. Thank you for your time & consideration.

Alvin Newbold
Bridge, Idaho

Dear Sir:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the The Herald
Bulletin, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Newbold:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27029. The proofs are to be made at 1:00 o'clock P.M., on the 27th day of August, 1962, before Gene Baxter, Malta, Idaho, Notary Public.

As of this date we have mailed the Notice to the Burley Herald Bulletin Burley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Newbold:

Returned herewith are the Forms 36 and 11.

There is a question of the land being irrigated as shown under 5. Your permit shows SE¹/₄ Sec. 23; NW¹/₄ Sec. 24, T. 15 S., R. 26 E. If you are irrigating other lands, the permit must be amended. The description must not contain a 40-acre subdivision which is not being irrigated, though it should show even if only a portion is irrigated.

Kindly correct and return promptly.

Dear Mr. Newbold:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 27029 are due not later than **August 26, 1962**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Dear Mr. Newbold:

We are in receipt of your application for permit to appropriate the subterranean waters of the State of Idaho to the amount of 3. c.f.s.

You state that the well location is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23, Township 15 South, Range 26 East, B. M. Under the tabulation under question 12 you have check-marked the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23; the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and the S $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 24, Township 15 South, Range 26 East.

As you did not enclose a sketch-map showing the land location, we are enclosing a sketch map showing the location of the lands to be irrigated as above described. Please check over the lands as shown on said sketch map and if not correct, scratch out what is shown on the map as being incorrect and show the correct 40's to be irrigated.

The reason we are requesting this information is that the land is not connected the way that you describe same in your application.

Please return sketch map immediately.
