Re: License No. G-27606²⁶⁷⁰⁶

Mr. Floyd Bell
Malta, Idaho

Dear Mr. Bell:

It has come to our attention that there is possibly an error in the Certificates of Water Rights we sent to you last January. The land is described as $SE\frac{1}{4}SW\frac{1}{4}$, $SW\frac{1}{4}SE\frac{1}{4}$, Sec. 6; $N\frac{1}{2}NE\frac{1}{4}$, $NE\frac{1}{4}NW\frac{1}{4}$, Sec. 7, T. 14 S., R. 27 E. The land may actually be the $NW\frac{1}{4}NE\frac{1}{4}$, $S\frac{1}{2}NE\frac{1}{4}$, $SE\frac{1}{4}NW\frac{1}{4}$ Sec. 7, T. 14 S., R. 27 E. The well is shown in the southwest corner of your irrigated land so it would be in the $SE\frac{1}{4}NW\frac{1}{4}$, Sec. 7, if the last land description is correct.

The $SE\frac{1}{4}SW\frac{1}{4}$, Sec. 6 and $NE\frac{1}{4}NW\frac{1}{4}$, Sec. 7 are shown as all being irrigated on other information. Your certificate show only 20 acres in each of those 40-acre subdivisions.

Kindly check to determine if the certificates are correct. Return them if in error and corrections will be made. Kindly advise if the certificates are correct.

Very truly yours,

RALPH W. THOMAS, Deputy

Re: Permit No. G-26706

Floyd Bell
Malta, Idaho

Dear Mr. Bell:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26706 shows the well is (are) capable of conveying 120 miner's inches, or 2.4 c.f.s. of water for the irrigation of 160 acres.

Upon receipt of the statutory fees, totaling \$ 15.00, which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 10.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of December 31, 1956 to the use of 2.4 second feet of subterranean water with the point of diversion in the NE¹/₄SW¹/₄, Sec. 7 for irrigation of 160 acres in the SE¹/₄SW¹/₄, SW¹/₄SE¹/₄, Sec. 6; NE¹/₄NE¹/₄, Sec. 7, T. 14 S., R. 27 E., B.M.

Since your permit does not include the SE¹/₄SW¹/₄, SW¹/₄SE¹/₄, Sec. 6 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included the statutory fees will total \$11.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. N. CARTER

I haven't been able to contact Floyd Bell to verify the acreage. This summer he is in Alaska. and will be ~~back~~ latter part of August before he returns.

I met the A.S.C. fieldman near Malta and ~~from~~ ^{check} his plat book for Bell's land description.

It shows Bell as owning

Re: Permit No. G-26706

Floyd Bell
Malta, Idaho

Dear Mr. Bell:

We received your letter with description of your land.

We can issue the revised certificates for 2.4 c.f.s. to cover approximately 180 acres of your land. The SE¹/₄ NW¹/₄, Sec. 6, is probably a recent purchase and cannot be included.

The amount of water, 120 miners inches, is not a bad amount for 180 acres, however it would be too small for 220 acres. Spreading the water right to that extent would not seem to be to your best interest. Your well was producing 152 miners inches, when measured, however your original permit only claimed 2.4 c.f.s. for 120 acres of land.

Your certificates of water right will be issued when Mr. Johnson's report is received.

Dear Mr. Bell:

It has come to our attention that there is possibly an error in the Certificates of Water Rights we sent to you last January. The land is described as SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6; NE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 7, T. 14 S., R. 27 E. The land may actually be the NW $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ in Sec. 7, T. 14 S., R. 27 E. The well is shown in the southwest corner of your irrigated land so it would be in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 7, if the last land description is correct.

The SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 6 and NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 7 are shown as all being irrigated on other information. Your certificate show only 20 acres in each of those 40-acre subdivisions.

Kindly check to determine if the certificates are correct. Return them if in error and corrections will be made. Kindly advise if the certificates are correct.

We received your fees in the amount of \$11.00 for the Certificate of Completion of Works and License and Certificate Water Right, as per your attached letter, but did not receive the amendment to the land list for the SE¹SW¹, SW¹SE¹, Sec. 6.

Before writing your certificates we wish to point out that we will have to lower the amount of water you will be licensed for to 2.0 cubic feet per second, instead of 2.4 c.f.s., as there will only be 100 acres under irrigation. State Statutes allow only 1 inch to the acre to be licensed.

We enclose an amendment to the land list again and will wait for further word from you before issuing these certificates. There is a \$1.00 fee for the amendment, plus extra \$4.00 for land included.

Dear Mr. Bell:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Herald Bulletin, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Bell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26706. The proofs are to be made at 2:00 o'clock P.M., on the 13th day of January, 19 62, before Gene Baxter, Malta, Idaho, Notary Public.

As of this date we have mailed the Notice to the Herald Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

All data in this office, including the application record, shows the amount of water as 2.4 c.f.s. This is verified by the number of acres to be irrigated shown on the sketch map you sent in, namely 120 acres. As the statutory maximum amount of water allowed per acre, namely 1 miner's inch, this would be 120 inches, or 2.4 c.f.s.

If examination shows that your well can produce more than 2.4 c.f.s. of water you could apply for a new permit for the amount of water over the 2.4 c.f.s. for use on additional land, such as the land included in the amendment, at the rate of 1 inch per acre.

Re: Permit No. G- 26706

Date: Nov. 1, 1961

Malta, Idaho

Dear Mr. Bell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26706 are due not later than January 21, 1962

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Dear Sirs:

This is to advise that the Farmers Home Administration closed another real estate loan for Floyd Bell of Malta, Idaho, who is holder of water Permit No. G-26706.

On April 24, 1957, we closed a first real estate loan and notified you of same. We are once again requesting that you make note on the file of Mr. Bell of this second loan, as he has agreed not to assign, transfer or make any other changes in the permit (which is a portion of the security) which would be adverse to the interests of F.H.A. without prior notice in writing for our consent.

If you will sign the copy attached and return same to this office as acknowledgment of this request for our records.

Sincerely yours,

RE: Application of Permit

Mr. Floyd Bell
Malta, Idaho

Dear Mr. Bell:

In reply to your letter of December 2, 1956, you requested a application blank for a well drilling Permit. We do not have blanks for application for well drilling, but we do issue a License on request. Not knowing which you wanted, we are enclosing a form for application to appropriate the public waters of the State of Idaho, together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 in the application.
