Re: Permit No. G-26485/43-2451

Merle Roberts
1827 Yale Avenue,
Burley, Idaho

Dear Mr. Roberts:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Desert Land Entry

Assignment Approved

On May 22, 1964, the above entryman (assignor) was
allowed desert land entry, Idaho 07395, on the following lands:

T. 13 S., R. 27 E., Boise Mer., Idaho
Sec. 22: E $\frac{1}{2}$

On September 9, 1966, the entryman (assignor) filed a deed
assigning all of his right, title, and interest in the entry to the
assignee named above. The assignee has filed an affidavit showing that
he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so
far as the record shows. However, this office does not attest to the
full compliance with the desert land laws as presently reflected by the
case record.

The assignment is hereby approved and the records of this office are
noted to show that the assignee is the entryman for the lands assigned
under the above-identified desert land entry. The remaining compliance
to be met on this entry and the due dates are shown below:
