Re: Permit G-26441

R. J. Harper
Malta, Idaho

Dear Mr. Harper:

The Department of Reclamation has recently conducted a field examination of the system and lands irrigated under the above referenced permit.

It is noted that you are irrigating the lands from an additional well located in Lot 3 of Sec. 1, T. 13 S, R. 26 E; therefore, in order for this department to license you for the water diverted from this well, you must amend the point of diversion on this permit to include additional point located in Lot 3. Form for amendment is enclosed for which there is a \$5.00 fee. Please sign this amendment form and return it with the proper fee.

In addition, permit G-26441 must be readvertised at your expense, prior to licensing. Form 11, authorization to publish, is enclosed. Please sign and return to this office and we will submit the advertising to the newspaper.

If you have any question, please contact us. Your prompt attention to this matter will be greatly appreciated.

Very truly yours,

Donald W. McEldowney

Dear Mr. Harper:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Burley Herald-Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-26441.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

I would like this application extended another five years as the Government has not yet approved my application for Desert Land Entry, because of a protest filed in the Raft River Valley.

There is a hearing on the protest in Burley Idaho on Aug 1, 1961

We who have applications hope to have them approved after that date.

Very truly yours

Dear Mr. Harper

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26441 are due not later than July 25, 1961.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mr. Harper:

We have your letter of inquiry re the Application For Permit which we received in this office July 13, 1956.

The Application for Permit has been approved and will possibly be in tomorrow's mail.

However, the Bureau of Land Management called us regarding this Permit and if this Permit is being filed in connection with a Desert-Land Entry it will be necessary for you to have two copies of this Permit sent to the Bureau of Land Management. One of which must be certified and there is a fee of \$2.00 for having these copies made.

Dear Mr. Harper:

In reply to your request, we enclose a form of application for Permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of Completion of Works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such Beneficial Use. The additional time required for making this proof should be stated under Question 13 of the application.

Dear Mr. Harper:

We are returning herewith your application for permit to appropriate 1.6 cubic feet per second from subterranean flow by well.

As you made out this application on the wrong form and also overlooked signing said application we are returning said application and will request that you place same on the form enclosed which is Form No. 3.

Relative to your sketch map it will be necessary that you furnish these maps in duplicate with your application showing the exact location of your well as well as the land to be irrigated.

We are returning your check to the amount of \$5.25 which you can return with the new application.
