Dear Mr. Neddo:

This acknowledges the depositio s of Holder and two Witnesses and the Affidavit of Publication in the Burley Herald in proof of completion of works and beneficial use under Permit No. G-26359.

Before a permit can be licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

Mr. Kales E. Lowe
Attorney at Law
1337 Albion Ave.
Burley, Idaho

Dear Mr. Lowe:

This acknowledges the Notice of proof of completion of works and application of water to beneficial use under Permit No. G-26359, in the name of Alvin Heddo. Final proof is to be made before you as Notary on the 15th day of July at 10:00 A.M.

As of this date we have mailed the Notice to the Burley Herald with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by the Permit Holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date, and before you as Notary as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witness) are being returned. Also, be sure to enclose the Affidavit of Publication.

Dear Mr. Lowe:

In reply to your letter of May 15, 1958 in connection with the above captioned permit, you state that there is insufficient time left to make the necessary publication of notice of Proof of Completion of Works and Application of Water to Beneficial Use, which is required to be made not later than June 4, 1958, that you hereby request that Mr. Neddo be granted an extension of time long enough to make proofs.

We wish to state that an extension of time is not necessary in this case providing proofs are made anytime during the month of June, however, we are enclosing an Application for Extension of Time, in case you feel like the same should be recorded in this department.

Dear Mr. Kulp:

Your letter of April 1, 1958, addressed to Mr. Alvin Neddo has been referred by him to me for reply. However, there is insufficient time left to make the necessary publication of Notice of Proof of Completion of Works and Application of Water to Beneficial Use, which is required to be made not later than June 4, 1958.

On behalf of Mr. Neddo, I hereby request that he be granted an extension of time for the making of proof in connection with this permit to a date sufficiently far in the future to permit the necessary publication. If you will advise me whether or not this request will be granted, or if you require the filing of a special form of request, forward the same to me, and oblige.

RE: Permit No. G-26359

Date April 1, 1958

**Alvin Neddo,
Malta, Idaho**

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-26359 are due not later than June 4, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
