RECEIVED
JAN 18 1963

Dear Mr. Carter:

Department of Reclamation

Information is needed concerning water rights on land owned or shortly to be acquired by Charles H. Warr of Malta. The land with which I am concerned is Sw $\frac{1}{4}$, S $\frac{1}{2}$ S $\frac{1}{2}$ Nw $\frac{1}{4}$, S $\frac{1}{2}$ Ne $\frac{1}{4}$ Section 17, and S $\frac{1}{2}$ Nw $\frac{1}{4}$ Section 20, T 14 S., R 27 E B M.

There is a well situated in Ne $\frac{1}{4}$ Sw $\frac{1}{4}$ Section 17. Has a license been issued? If so, what is the number, amount of water and date of priority? If not, what evidence is there to prove a water right? To what land is the water appurtenant? I would like to have the same information on a well in the S $\frac{1}{2}$ Sw $\frac{1}{4}$ of Section 17 and one in S $\frac{1}{2}$ Nw $\frac{1}{4}$ Section 20. The latter may be in the name of Joe Barrett.

6-24810-
7476

I understand that there is a Raft River water right on some or all of the land as follows:

55 M.I.	1871✓
150 M.I.	1879✓
20 M.I.	1882✓
80 M.I.	1910
80 M.I.	1909✓

Would you please verify or correct the amounts and dates of priority and indicate to what land each is appurtenant?

I certainly do appreciate your assistance in these matters.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Application No. 33255

Mr. Wesley R. Bronson

Dear Mr. Bronson:

We acknowledge receipt of your application for permit to appropriate 100 inches of water from a well accompanied by money order for \$5.50.

However, the location of the well as given in Question 4 and the land description as given in Question 6 do not agree with the sketch map and since you have not answered Question 12 we are at a loss to understand just what land is to be irrigated.

We suggest that you ask Mr. Edwin Paskett or J. Henry Thompson to assist you in drawing a correct map showing the location of the well and the land to be irrigated and also give the correct description of the land by subdivision, Section, Township, and range as called for in Question 12.

Very truly yours,
