Dear Sirs:

I bought this said property
from a Floyd Knight from
almo. the old well had caved in
and was not useable for two years.
This new well replaces it. —

I made a special trip to Boise
and I came in and talked to all you
guys in the office there and
any one I could find that it pertained
to. You told me that I did not have
to fill a permit on this well as long as
we stayed in the same 40 acres of the 60
acres as long as it was replacing the
old well. I asked if there was any

43-2410 25002

papers I had to fill out - and the
answer was no - not as long as
stayed in the same 40 acres.

So that is what we did

Seems as though you was aware
of the fact about the other well
going out when the Mathews farmed
the 160 acres. any way that was
brought across when I talked to you.

Sincerely.

Dear Mr. Meadore:

On a recent trip to the Malta area, one of our field examiners observed the drilling of a well located within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 8, T. 15 S, R. 27 E, B. M. In the investigation of this matter, we find that the lands involved apparently belong to you, and that there has not been an application for permit to drill a new well filed with this department.

We also find in checking our records that the well and the lands involved apparently belonged to Ruben M. Jones, who has a license issued in the amount of 1.93 c.f.s. with a priority of June 15, 1954. This license covers the same lands and the same point of diversion that you are apparently using at this time. As you are probably aware, the area involved is within a critical ground water area where it is illegal to drill new wells.

This department will appreciate information concerning the well; such as, present owner of the lands involved; is the well a replacement well; and if not, what is its purpose?

Your prompt attention in this matter will be greatly appreciated.

MEMO

To: A. Kenneth Dunn
From: Bill Davis
Subject: A well located at Bridge, Idaho
Date: August 24, 1970

The well is located in the NW1/4SW1/4, Sec. 8; Twp. 15S, Rge. 27E, B.M. On the well, there is now a 30 hp. motor installed, Layne-Bowler pump with an 8" discharge pumping water into an open ditch. The water is used for irrigation in the NW1/4SW1/4, NE1/4SW1/4 and some in the S1/2NW1/4, south of Highway 30 and above the gravel road. The pole number, Raft River Electric Co-op is 29014. According to the Raft River Electric records, it belongs to a Fred Meador, Malta, Idaho. The power was hooked up June 26, 1970. The lady at the power company said that she thought the drilling was an expansion on an existing well, but there was a large pile of well tailings and I couldn't tell if it was a new well, size, or depth, etc.

8-24-70

Dec - write letter asking why the well was drilled, what water right, is it a replacement, etc. if we do not get satisfactory answer within 30 days - we will order well closed.

Dear Mr. Jones:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25002 shows the well is capable of conveying 96 miner's inches (1.93 c.f.s.) of water for irrigation of 135 acres.

Upon receipt of the statutory fees, totaling \$13.00 we will issue the Certificate of Completion of works (fee \$5.00) and the License and Certificate of Water Right (fee \$8.00- based at the rate of \$2.00 for each 40-acre subdivision) confirming the right with priority June 15, 1954 to the use of 1.93 second feet of subterranean water with the point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, T. 15 S., R. 27 E., for the irrigation of 135 acres in S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 8, T. 15 S., R. 27 E.

Dear Mr. Jones:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Burley Herald, all submitted in Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-25002.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Sir;

I received the canceled check for \$5.75 which I sent you about June 5, but I haven't received my permit as yet. Was wondering if it could have been misssent or mislaid.

Mr Young asked me to write you and see if you would send it at once, as he would like to have it to present, along with my application for the well, to the committee.

Will be looking forward to receiving it soon

Thanking you kindly in advance,
I remain,

Resp yours

Dear Mr. Jones:

In reply to your letter of June 5, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,

MARK R. KULP
