Permit No. G- 24026

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Edward O. Muir, residence is Salt Lake City, Utah, occupation, farmer and car lot shipper of fruits & vegetables, P. O. Address 458 S. 1st St. W., Salt Lake City, Utah.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #G-24026, date of permit, 4-23-53, date of priority which I propose to establish is 4-18-53.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is drilled well to raise subterranean water, located in SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, T 11 S. R. 26 E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. My works consist of $\frac{1}{2}$ mile of 14" pipeline, $\frac{3}{4}$ mile of ditch 3' deep, 6' wide at top and 18" bottom, a drilled well with 16" casing to a depth of 260' which will deliver 175 miner's inches of water. The depth of the water is approximately 40' and is equipped with turbine type pump and motor, with 12" discharge on the pump. My estimation was made from the well drillers measurement, all the water is through a gravity system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on the entire NE $\frac{1}{4}$ (except for some 8 or 10 acres in the extreme NE corner which is not suitable for irrigation) Section 26, T. 11 S. R. 26 E. Every 40 acres is fully irrigated except the NE $\frac{1}{4}$ NE $\frac{1}{4}$ above mentioned which has some 8 or 10 acres out. This was started in the spring of 1954 and has been used on the full area (estimated at 152 acres) for each cropping year since then. There is no natural irrigation or no natural meadow. In all, improvements including the ditches, land preparation, well drilling, pump and motor have been made as a direct result of this irrigation development and in my estimation I have spent over \$15,000.00 in this development.

L 24026

AMF

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used entirely for irrigation purposes.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The water now produced under this well is the minimum that could be used for cultivating the land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Ralph Baxter originally applied for this permit and by assignment I acquired the permit from Baxter.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water has been used to the full amount on this entire acreage during the cropping seasons of 1954 and 1955.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are no other waters appurtenant to this land and no other water is used, except sometimes on the adjacent 160 acres (NW $\frac{1}{4}$ Sec. 26) some water may be used where it can be efficiently done to cover this land. However the water produced from this well is adequate to cover the entire area.
