WATER RIGHT NO. 43-2309
As Modified by Transfer No. 66921

CONDITIONS OF APPROVAL

1. Water right no. 43-2309 is limited to the irrigation of 160 acres within the place of use described above in a single irrigation season.
2. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
3. Rights 43-2309, 43-2312A, 43-2385, 43-2391, 43-2564, 43-4009, 43-4091, 43-4092, 43-4141, 43-10037 when combined shall not exceed a total diversion rate of 23.07 cfs from all authorized points of diversion, a total annual maximum diversion volume of 5680 af at the field headgate, and the irrigation of 1579 acres.
4. After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
6. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
7. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
8. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
9. Right no. 43-10037 is an expansion of right nos. 43-2309, 43-2312A, 43-2385, 43-2391, 43-2564, 43-4009, 43-4091, 43-4092 and 43-4141 pursuant to section 42-1416B, Idaho Code.
10. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Oregon

Dear Mr. Hopworth:

We are returning herewith Currenty Deed from Edward O. Muir and Mary W. Muir, parties of the first part and William C. Hopworth and Alice H. Hopworth, parties of the second part.

This Department has made photostatic copies of this Deed, therefore, wish to return the original to you for your files.

We are also enclosing herewith two forms of Assignment which will be the legal method of transferring the water Permits Nos. 24026 and 23602 from Mr. Muir to yourself. These Assignments are necessary for the reason that said Deed does not specifically state or describe the Permits in question.

We wish to thank you for furnishing the Department this Deed and are sorry that it will not suffice and take the place of an Assignment of Water Right.

Very truly yours,

Dear Mr. Muir:

State law requires inspection on any Permit being brought
to license within the State of Idaho.

I intend to make inspection in connection with your two permits
Friday morning, June 1. Please be prepared to accompany me on the
inspection or have someone familiar with the works do so. In case you
wish to contact me, I will be at the National Hotel in Burley on Thursday
evening. If I do not hear from you, I will drive to the farm where the
wells are located.

Dear Mr. Kulp: Re: Permits #G-23602 and G-24026

This is to advise that Mr. Edward O. Muir who is the holder of the above two designated permits on which proof for beneficial use and completion of works has been taken has advised that he has sold his land including all the wells and water improvements to Mr. William G. Hepworth.

Mr. Hepworth has appeared in our office and requested that the licenses and all correspondence pertaining to these permits be directed to me at Box 2161, Boise, Idaho and I will see they are properly given to him.

If you will please send the correspondence relative to these matters to us, we will see that it is taken care of.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 28 day of January, 1956, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the completion of works for the diversion of 6 cubic feet per second of the waters of subterranean source, Well in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 26, T11S-R26E., B.M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23602 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Edward O. Muir, 458 S. 1st West, Salt Lake City, Utah.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 6 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 6 cubic feet per second.

4. The place where said water is used is NW $\frac{1}{4}$, Sec. 26, T 11 S—R 26 E., B.M.

5. The date of priority which said user is prepared to establish is 1-20-53.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Edward O. Muir, residence is Salt Lake City, Utah, occupation, farmer and car lot shipper of fruits and vegetables, P. O. Address 458 S. 1st St. W. Salt Lake City Utah.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is G-23602, date of permit is January 30th, 1953 and date of priority which I propose to establish is January 20th, 1953

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean, from a drilled well located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 26, T. 11 S. R. 26 E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works consist of a drilled well to a depth of 305' with a 16" casing and 12" discharge. Turbine type pump and motor installed and equipped to convey up to 275 miner's inches. However the well and the water stands at around 40' (draws down upon pumping) will discharge approximately 210 miner's inches. 60 H.P. Motor. The ditch is $\frac{3}{4}$ mile long 3' deep 6' wide at the top and an 18" bottom. This was measured by the pump company who installed the pump and in my opinion, from irrigating, I feel that it is correct. All irrigation is by gravity surface system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation. The place of use is on the entire NW $\frac{1}{4}$ Section 26, All of the 160 acres in this is irrigable and all of the entire area has been irrigated from this water. There is no possibility of cultivation or any natural meadow land or any natural irrigation. My improvements consist of land preparation, ditching, water development well and pumping and as a direct result of this improvement I have spent approximately \$20,000.00 on this 160 acres.

T 11 S - R26E

23602

Ans. The only purpose is for irrigation.

Ans. I am the person who filed on this permit and holds at this time.

Ans. There is no other water appurtenant to this land and no other water has been applied for beneficial use. However under permit #8-24026 I have a well on the adjacent 160 and sometimes change water back and forth when it can be more economically used to an advantage.

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is William Kerbs, age is 32, residence is Rupert, Idaho, occupation
if farming and P. O. address, 51, Rupert, Idaho.

Ques. 2. Are you acquainted with Edward O. Muir, the
holder of Permit No. G-23602? How long have you known him and where does
he reside?

Ans. I have known him 6 years and know that he now resides at Salt Lake City, Utah.

Ques. 3. Have you read or heard read said Permit No. G-23602, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Subterranean. Place of diversion is from a drilled well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$
Section 26, T. 11 S. R. 26 E., B. M. The works consist of a drilled well to a depth
of 305' with a 12" casing and 12" discharge. Turbine type pump and motor installed and
equipped to convey up to 275 miner's inches. However the well and the water stands at
around 40', will discharge approximately 210 miner's inches and has a 60 H.P. motor. The
ditch is 3/4 mile long, 3' deep, 6' wide at the top and an 18" bottom.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I believe this well and pump system will produce 210 miner's inches and I feel
this is true from seeing the water discharged.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen this pump deliver 210 miner's inches and my estimation is from seeing
water pumped through this system, as compared to other lands irrigated.

S 23602

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation on 160 acres described as NW $\frac{1}{4}$ Section 26, T. 11 South, Range 26 East, I know there is no natural meadow land and no natural means of cultivating this land otherwise. The land preparation, ditching and all of the water development has cost the applicant approximately \$20,000.00 as a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a lava ash, deep, fertile and very productive and capable of producing diversified crops. The amount of water now being produced is the minimum necessary for intensive production.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Yes. I own land next to this and I have even helped irrigate on this ranch, so I have been very familiar with it since the development.

Dear Sir:

RE: Permit #G-23602

I refer to the above designated permit #G-23602 issued in the name of Edward O. Muir.

Upon checking your records I find that this permit was issued for 6 second feet and that proof of completion of works was due January 30th, 1955. I have advised Mr. Muir of this and he has informed me that all of the works were completed and the water was put to beneficial use prior to this date. However he was not advised and as I did not know the permit was due at this early date (it was not issued for the full statutory time) so no submission of works were made.

At this time I respectfully request in behalf of Mr. Muir an extension of time until March 1, 1956, in order to complete publication and proof.

Very truly yours,

Harley M. McDowell
