Dear Mr. Hill:

We are this morning in receipt of the Affidavit of Publication in the Burley Herald-Bulletin which completes Beneficial Use Proof under Permit No. 21655.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Re: Permit No. 21655

Mr. Walter R. Hill
Malta, Idaho

Dear Mr. Hill:

We enclose Permit No. 21655, together with Departmental Receipt No. 22569 for the \$5.25 filing fee.

Since the application states that the works are completed and that no additional time will be required for making Proof of Beneficial Use, we have allowed three months or until November 21, 1950, within which to make these proofs.

The first proof or proof of completion of works is made by executing Form 6 enclosed before a Notary Public, and returning to this Department with a statutory fee of \$5.00, upon receipt and approval of which, a Certificate of Completion of Works will be issued.

The final or beneficial use proof requires publication once a week for four consecutive weeks in a county newspaper, prior to the date set for making proof. Notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of the notice to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated newspaper at your expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and on the date set, you should appear before the Notary Public together with two disinterested witnesses to execute depositions of proof on forms furnished by this Department.

Dear Mr. Hill:

We return your application for permit to appropriate water from a well for the following corrections:

We are unable to reconcile the land description under Question 14 with the sketch map. Question 14 shows the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 12.

Please indicate clearly on the sketch map by cross-hatching or coloring, exactly where the land is located.

Also, please indicate under Question 14 the number of acres in each subdivision to be irrigated. Since the total acreage is given as 71.10 acres, the application can not be approved for more than 72 inches which is the maximum allowed for irrigation by Statute.

Mr. Walter R. Hill
Malta, Idaho

Dear Mr. Hill:

We are in receipt of your letter of July 26, 1950, in regard to filing on a well for the irrigation of your land. In reply, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
