this well was drilled
by Clarence Bishop many
years ago. It has
1160 ft of 20" I.D. pipe.
This pipe appears to be
3/4 with ralled and riveted
to construction. It is said
to be perforated from
90' to 160'. The hole
was drilled down at that
time to a depth of 265'
but no casing was put
in the bottom. It finally
filled up to 155 ft from
the surface.
We could not drill
this hole out without
putting in pipe. The
fill material was
nearly straight gravel.
We installed 113' of 3/4

casing with 10' steel
drive shoe on top. plain
pipe on the bottom. Bottom
113 ft not perforated.
Drive shoe on top was
3/4 x 18" x 18"
Drive pipe when
necessary with a 20" bit.
Top of liner at 150 ft
Bottom at 263 ft.

Dear Mr. Parr:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the IDAHO HERALD-BULLETIN, all submitted in proof of completion of work and beneficial use on Permit No. 21540 & 211541.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

Re: Permit No. 21540

Date:

Fe. 1, 1965

Clarence Bishop
732 W. 20th
Burley, Idaho

Dear Mr. Bishop:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21540 is due not later than April 9, 1965. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

21540

RE: Permit Nos. 21540, 21541
Clarence Bishop

Allen Parr
902 "H" Street
Rupert, Idaho

Dear Mr. Parr:

The following information is being furnished to you as per your recent verbal request.

The above permits relate to the property now reportedly owned by Kenneth Henderson.

Permit No. 21540 was originally issued to Irwin D. Bishop for three wells, with points of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, and SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 32, T. 11 S., R. 27 E., B.M. This permit was assigned to Clarence Bishop, April 18, 1959. Certificate of Completion of Works was issued May 29, 1959 for 6.4 c.f.s. from two wells, one in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, and one in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 32, to irrigate the SE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, and S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 32, T. 11 S., R. 27 E., B.M. Proof of Beneficial Use of the water under this permit is due April 9, 1965.

Permit No. 21541 was originally issued to Margaret L. Bishop for two wells, with points of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 29, T. 11 S., R. 29 E., B.M. This permit was assigned to Clarence Bishop, April 18, 1959. An amendment was made to this permit for Clarence Bishop to change the above points of diversion to a single point located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 32, T. 11 S., R. 27 E., B.M. A Certificate of Completion of Works was issued May 29, 1959 for 6.4 c.f.s. from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 32, T. 11 S., R. 27 E., B.M. to irrigate the NW $\frac{1}{4}$, Sec. 32 and the SW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, Section 29, both in T. 11 S., R. 27 E., B.M. Proof of Beneficial Use of the water under this permit is due April 9, 1965.

Please note the Certificate of Completion of Works issued under both the above permits cover the well located in the SE 1/4, Sec. 32, T. 11 S., R. 27 E., B.M.; however the land to be irrigated is described as two separate 320 acre tracts.

We believe the above information is in accord with your request.

Gordon C. Elliot

Dear Mr. Elliot:

Our record of Permit 21540 shows that the well in SE₄SE₄,
Sec. 32, T. 11 S., R. 27 E. produced 3.14 c.f.s. on May 16, 1956, using
Cook Turbine pump with propane gas motor. The well was 20" diameter
266 feet deep with lift of 120 feet while pumping.

The file for Permit No. 21541, well in SE₄NW₄, said
Sec. 32 does not show that any one from this office has checked the
well.

Proof of beneficial use is due April 9, 1965, under both
permits.

Thank you for the information given in your letter.

Very truly yours,

RALPH W. THOMAS, Deputy

Dear Sirs:

We are attaching some papers, which we take to be copies of Water permits 21540 and 21541; licenses for same; extensions, assignments and amendments pertaining to same permits, and are requesting that you check these with your files and certify to us as to their validity, legality and their correctness. We are attempting to prepare a real estate loan for the land involved and these papers do not give us the certainty of their being true copies.

We would also like to have you check your records and advise if any further (or later) amendments and liens are listed on these two water permits. Thank you!

Dear Mr. Mead:

Permit No. 21540 in the name of Clarence Bishop; Certificate of Completion of Works was issued May 29, 1959 for 6.4 c.f.s. from two wells SE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32, to irrigate SE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 32, T. 11 S., R. 27 E. The field engineer measured flow of well in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 32, as 157 miners inches on May 16, 1956. Proof of beneficial use of the water is due April 9, 1965.

Permit No. 21541 in the name of Clarence Bishop; Certificate of Completion of Works was issued May 29, 1959 for 6.4 c.f.s. from well in SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32 to irrigate N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 32; SW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 29, T. 11 S., R. 27 E. Proof of beneficial use of the water is due April 9, 1965. We do not find a record of measurement of well production. This permit originally showed wells in SE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29, however the points were amended to one point as shown above.

We find no other permit showing point of diversion from SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29, T. 11 S., R. 27 E.

Enclosed are two forms for assignment of permit.

Attention: Mr. Ralph W. Thomas,
Deputy State Reclamation Engineer

Dear Mr. Thomas:

Thank you very much for answering our letter of April 21, as has to do with our processing of a loan to Mr. Kenneth T. Henderson. I have more accurate information at this time, which is as follows, as to the location of the wells:

- Well #1 - SE $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 32, Twp. 11 S., R. 27 E.
- Well #2 - SE $\frac{1}{4}$ of the NW $\frac{1}{4}$, Section 32, Twp. 11 S., R. 27 E.
- Well #3 - SE $\frac{1}{4}$ of the SW $\frac{1}{4}$, Section 29, Twp. 11 S., R. 27 E.

We would appreciate any information you may have on these wells, especially, the amount of water they are reported to be producing, the depth from which they are pumping; also, we need to know the application number or the permit numbers and the amount of water allotted to each well.

We note that you say that these wells are not in Mr. Henderson's name. Mr. Henderson informs us that he bought this property in April of 1955 from Mr. Clarence Bishop, and that the wells were drilled in 1955, and 1957.

Thank you very much for your time and cooperation.

Dear Sir:

Enclosed please find Proof of Completion of Works for Permit No. 21540 and Application for Amendment on Permit No. 21541 and Proof of Completion of Works of 21541. You will notice that Clarence Bishop has executed the said Proof of Completion of Works. This was done because Mr. Clarence Bishop acquired from Margaret L. Bishop, the owner of Permit No. 21541, all her interest in and to the lands on which the wells were to be located and has also acquired from Ervin B. Bishop, the owner of 21540, all his interest in the said lands on which the wells are located and also their right to the said water from the wells. He received the deed from both Ervin B. Bishop and Margaret L. Bishop on the 21st day of March, 1959, and the deed has been recorded in the office of County Recorder of Cassia County.

If you have forms in your office for transferring these permits and you desire to have one executed on your records, *2 assigning* why not! would you please forward me the forms, and I shall see that they are executed and returned to your office. *for both permits*

I am also enclosing a check for \$10.00 as a fee for the Certificate of Completion of Works on the said permits.

Mr. Irwin D. Bishop
Malta, Idaho

Dear Mr. Bishop:

Enclosed are Forms 36 and Form 11 which were sent to you and Form 6, Proof of Completion of Works.

The forms previously sent you are the regular forms for proving use of subterranean water, however your Permit was obtained before the Ground Water Statutes were passed in 1951. You have to prove completion of works on or before April 9, 1959, and have an additional six years before proof of beneficial use of the water is due.

Form 6 can be completed to make your proof of completion of works without advertising. Under "Seventh" you cannot claim over 6.4 c.f.s. or the amount claimed on your permit. Under "Eighth" you can spread the water over more than the 320 acres, S¹/₄ NW¹/₄, E¹/₂ SW¹/₄, SE¹/₄, Sec. 32, Twp. 11 S., Rge. 27 E., B. M., listed on your permit by making an amendment to your land list, on form furnished by this office on your request.

RE: Permit No. 21540

Date February 1, 1959

Irwin D. Bishop
Malta 801 G St., Rupert,
Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. 21540 are due not later than April 9, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RE: Permits Nos. 21540 & 21541

Mr. Irwin D. Bishop
801 G Street
Rupert, Idaho

Dear Mr. Bishop:

We enclose Approval of the State Reclamation Engineer for Extension of Time for Completion of Works on the above numbered Permits in the name of yourself and Margaret L. Bishop, to April 9, 1959.

These should be attached to the original Permits of which they now form a part.

Very truly yours,

Dear Mr. Bishop:

We have received no reply to office letter addressed you on April 5 in reply to your request for an extension of time for completion of works on the above numbered Permits in the name of yourself and Margaret L. Bishop.

These proofs are due in June, 1955, and if the Permits are to be continued in good standing, it is important that an extension be obtained before that time.

As we wrote you on April 5, if you will write a letter stating the exact date of allowance of your desert land entries, an extension can be granted in proportion to the time you were prevented from proceeding pending such allowance.

Very truly yours,

MARK R. KULP

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Irwin D. Bishop
Malta
Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21540 you are required to complete your diversion works on or before June 14, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
