Dear Mr. Edlund:

We have your letter of April 4 requesting an additional five years within which to make proof of completion of works on your Permit No. 21450.

The maximum of five years allowed by statute will expire April 21, 1955 and no extension can be allowed.

You may, however, make proof of completion of works on the well that you have completed and in that way retain priority for that well.

You may then file an application for a new Permit on Well no. 2 to take the place of Permit No. 21450 and we enclose a form of application herewith. This new Permit will, however, take a later priority than the priority to be established under Permit No. 21450.

Dear Sir:-

Under the terms of your permit No. 21450 you are required to complete your diversion works on or before April 21, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Oscar Edlund

Boise, Idaho

February 2, 1953

Vridge, Idaho

Dear Sir:-

Under the terms of your Permit No. 21130 you are required to complete your diversion works on or before April 21, 1953. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Mr. S. T. Lowe
Attorney at Law
Burley, Idaho

Dear Mr. Lowe:

We enclose Permit No. 21450 in the name of
Oscar Edlund, together with Departmental Receipt No.
22223 for the \$6.25 filing fee.

The application states that Well No. 1 will
be completed in one year and Well No. 2 in three years,
but Proof of Completion of Works should be made when the
works are entirely completed, that is, both wells, so
we have allowed three years within which to make Proof
of Completion of Works and two additional years for mak-
ing Proof of Beneficial Use.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
