State Reclamation Engineer,
Dear Sir,

In response to your letter of last week concerning a permit for an irrigation well drilled last July & August - I call your attention to a letter written by me to your office on June 27-1966 and a reply to me on June 28-1966 listing permits H-20726 and H-21029 granted to Alvin Newbold Bridge Idaho.

The new hole is in the same 40 acres and the test shows 80 in. of water at 90 ft.

Thank you for your interest and hoping this clears up your questions,

Very truly yours

RE: Permit G-20726 and

(See permit G-27029 for
copy of letter).

Mr. Ivan Darrington
Almo, Idaho

Dear Mr. Darrington:

We have your letter of June 27, 1966, in which you request authority to drill a new well under Permits G-20726 and G-27029. Our records show that licenses were issued on Permit G-20726 for .21 c.f.s. (10½ inches) and on Permit G-27029 for 1.5 c.f.s. (75 inches). Therefore, you would be entitled to drill a new well or make repairs on the existing wells to obtain this amount.

If the new well is to be drilled in the SE¼SE¼, Section 23, T 15 S., R 26 E., B.M., you would require no further approval from this office. However, if the new well is to be at some other location you will have to ask for a transfer. Forms for this will be supplied upon request.

In any event you should understand that your rights are limited to a total of 1.71 c.f.s., (85½ inches) and if the new well produces this amount the old wells which are abandoned, should be filled in and permanently plugged.

Very truly yours,

RE: Permit No. 20726

Mr. Alvin Newbold
Bridge
Idaho

Dear Mr. Newbold:

We now have on file the report of our field engineer on examination for beneficial use under your Permit No. 20726.

This report shows that your well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 15 South, Range 26 East, B.M., will deliver 0.21 cubic foot per second, and that you have irrigated 80 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 24, and the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 15 South, Range 26 East, B.M.

Therefore, upon receipt of the statutory fee of \$8.00, which is at the rate of \$2.00 for each 40 acre subdivision in which the land is located, a license will be issued for 0.21 second foot of water from your well.

Permit No. 20726

This proof is for Beneficial use In Water District No. _____1. Name of applicant Alvin Newbold, Bridge, Idaho2. Source of water supply: Subterranean from an artesian well3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23T. 15 S. R. 26 E. County of Cassia

4. Describe works as they exist, giving dimensions and capacities of same: This is a flowing hot water drilled well 540' deep and 16" diameter. Casing 150' x 16". Two 50 gal. oil drums set on end with ends removed forms a stand pipe 4' above the ground level. Overflow built into the stand pipe flows toward the south into shallow open pool that surrounds the well. A 3/4" pipe taps water at the bottom of the stand pipe and takes it to a small house and chicken house. Length of the 3/4" pipe is approx. 75'. Ditch with a 1' cipolletti installed runs 30' to south into existing ditch from pool around the well.

5. Water is used for: Irrigation and domestic purposes.6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 24, Twp. 15 South, Range 26 East, B. M.

(SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, in permit, and notice, but not in proof)

See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Existing ditches are for water from Raft River. Crops: hay, potatoes, and grain. Water is 184° F. and is too hot to use in the immediate vicinity of the well for irrigation.

Dear Mr. Newbold:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Burley Herald-Bulletin, all submitted in proof of beneficial use under Permit No. 20726.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time examination is made so that arrangements may be made to show him over the grounds.

Mr. J. Henry Thompson,
Notary Public,
Malta, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 20726

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On August 1, 1951, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Malta, Idaho before J. Henry Thompson, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MARK R. KULP

Dear Mr. Newbold:

We acknowledge receipt of the depositions of yourself and two witnesses submitted in Proof of Completion of Works under Permit No. 20726; also Notice of Beneficial Use Proof to be made under this Permit On May 31, 1951.

We note that your Proofs of Completion of Works only give a capacity of 17 inches, although the Permit is for three cubic feet per second. If we accept your Proof of Completion of Works at this time for 17 inches, you cannot make a further proof on a larger amount later on under this same Permit.

If you expect to develop more water later on, you may file an application for extension of time for making this proof, using the form enclosed.

On the other hand, if you wish to finish the matter now by proving up on 17 inches, you may complete the depositions of your two witnesses which are returned herewith, so that under Question 5, they may state that the works were completed on or before November 5, 1950, as called for in the Permit, if such is the case.

There is also a fee of \$5.00 required in connection with Proof of Completion of Works, and upon return of these corrected depositions and the fee, the Permit may be reinstated and a Certificate of Completion of Works issued.

Dear Sir:

Under the terms of your permit No. 20726 you are required to complete your diversion works and make proof of beneficial use on or before November 5, 1950.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is November 5, 1950, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

MARK R. KULP

Dear Mr. Lowe:

We acknowledge receipt of your letter of October 30, 1948, enclosing application of Alvin Newbold to appropriate three (3) second feet of subterranean water, and we enclose Departmental Receipt No. 20982 for the \$5.50 filing fee.

We note that while the sketch map describes the NE 1/4 SW 1/4, SW 1/4 SW 1/4 and SE 1/4 SW 1/4 of Section 24, the application itself describes the NE 1/4 SW 1/4, NE 1/4 SW 1/4 and SE 1/4 SW 1/4 of this section.

With your permission we shall correct the application to conform with the sketch map which we assume to be correct.

Very truly yours,
