Dear Mr. Hall:

The report of our field engineer on examination for beneficial use on Permit No. 20691 shows that your well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 24, Township 12 South, Range 26 East B.M. will deliver 54 inches of water which has been used to irrigate 120 acres in the W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 13, and W $\frac{1}{2}$ NE $\frac{1}{4}$ Section 24, same Township and Range.

A License can, therefore, be issued for 54 inches or 1.08 second feet of water from said well upon receipt of the statutory fee of \$8.00.

We enclose two forms of application for filing on wells as requested of our Mr. Humphrey when he made the inspection.

Idaho

Dear Mr. Hall:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Burley Bulletin, all submitted in proof of beneficial use under Permit No. 20691.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

We return your receipted bill for the publication costs which you will doubtless wish to keep in your own files.

Mr. J. Deward Hall

Malta, Idaho

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. ~~20691~~. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than ~~October 20, 1952~~, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KULP

Dear Mr. Hall:

We acknowledge return of your Affidavit in Proof of Completion of Works under Permit No. 20691, accompanied by your check for the \$5.00 fee.

While your application is for 3.2 second feet, your proof only describes 2.5 second feet. Do you only intend to prove up on this smaller amount of water?

Also, under Question 9, please describe your pump as to kind, horsepower and etc.

Dear Mr. Hall:

We have received no reply to office letter addressed you on August 7, 1950, returning the affidavit which you submitted on Permit No. 20691, but giving the wrong descriptions, and enclosing another form on which to make corrected proof.

It is important that this matter be given your early attention and affidavit returned, together with the statutory \$5.00 fee.

Dear Mr. Hall:

We return your Proof of Completion of Works on Permit No. 20691 which you have evidently confused with Permit No. 20692, on which the proofs have already been made and Certificate of Completion of Works issued.

Permit No. 20691 is for water from a well in a different location, and to be used on other land.

We enclose another form on which to make correct proof on Permit No. 20691, which should be accompanied by the statutory fee of \$5.00.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. J. Deward Hall

Malta, Idaho

Boise, Idaho **August 1, 1950**

Dear Sir:-

Under the terms of your permit No. 20691 you are required to complete your diversion works on or before October 20, 1950. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

Mr. Kales E. Lowe
Attorney at Law
Burley, Idaho

Dear Mr. Lowe:

We enclose Permits Nos. 20691 and 20692 in the name of J. Deward Hall of Malta, Idaho, together with Departmental Receipts Nos. 20935 and 20944 totaling the \$11.50 filing fees.

Mr. Hall's attention is directed to the limitations and conditions of these permits as given on the fourth page under approval of the State Reclamation Engineer.

The application on Permit No. 20692 states that the works are completed and the water completely applied to beneficial use. We have therefore allowed three months or until January 20, 1949, to make the two statutory proofs necessary to complete the water right. These proofs, however, may be made at any time prior to that date.

The first proof or proof of completion of works is made by executing Form 6, enclosed, before a Notary Public, and returning to this Department with a statutory fee of \$5.00, upon receipt and approval of which a certificate of completion of works will be issued.

The final or beneficial use proof requires publication once a week in a county newspaper for four consecutive weeks prior to the date set for making proof. Notice should be made in duplicate on Form 10, enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of the notice to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated newspaper at applicant's expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and on the date set Mr. Hall should appear before the Notary Public together with two disinterested witnesses to execute depositions of proof on forms furnished by this Department.

Very truly yours,

MARK R. KULP

Dear Mr. Lowe:

We are in receipt of the applications of J. D. Ward Paul, one for 3.2 second feet and one for 4.0 second feet, filing on subterranean water.

We wish to draw your attention to the fact that the two checks received, one for \$6.75 and one for \$4.50, is \$.25 short of the statutory filing amount. The fee should be \$5.75 on each application, based on \$5.00 for the first second foot and \$.25 additional for each second foot or fraction thereof.

Dear Mr. Lowe:

We acknowledge receipt of your letter of September 27 enclosing application of J. Deward Hall to appropriate eight (8) second feet of subterranean water, accompanied by your check for \$6.75.

On checking this application it would seem that the two wells and the land in Section 14 are in Twp. 13 S. Range 26 E., whereas the well and land in Section 13 and 24 are in Twp. 12 S., Range 26 E., which would make them six miles apart.

If that is the case it would be better to make two separate filings and we enclose two forms of application herewith, together with two each of Form O.

On the other hand if this is an error in the present application and the land is really all in one township, please advise us to that effect and we will correct the present application accordingly.
