FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4585

DATE: June 23, 1995

=====

Transfer No. 4585 was filed to change and add points of diversion and change the place of use to create a permissible place of use under the above referenced water rights. These rights are delivered through a common mainline system from three wells to pivots and handlines.

Ownership of all the land under the proposed place of use, which includes all the licensed parcels, was confirmed by the Cassia County Assessor's office and a warranty deed for 40 acres recently purchased.

The place of use combines the acres developed under each individual right and includes the 40 new acres. The total land base is 622 acres with the combined rights limited a total of 505 irrigated acres each season. Each right is limited to irrigation of the specific number of licensed acres within the land base. These rights are located within the Raft River Critical Groundwater Management Area and combined limits are applied to negate any expansion through this transfer approval.

Other recommended conditions include irrigation overlap, multiple points of diversion/measuring devices and standard transfer conditions.

FROM: Allen Merritt

DATE: May 12, 1995

TO: FILE: TRANSFER #4585

SUBJECT: REVIEW & RECOMMENDATION

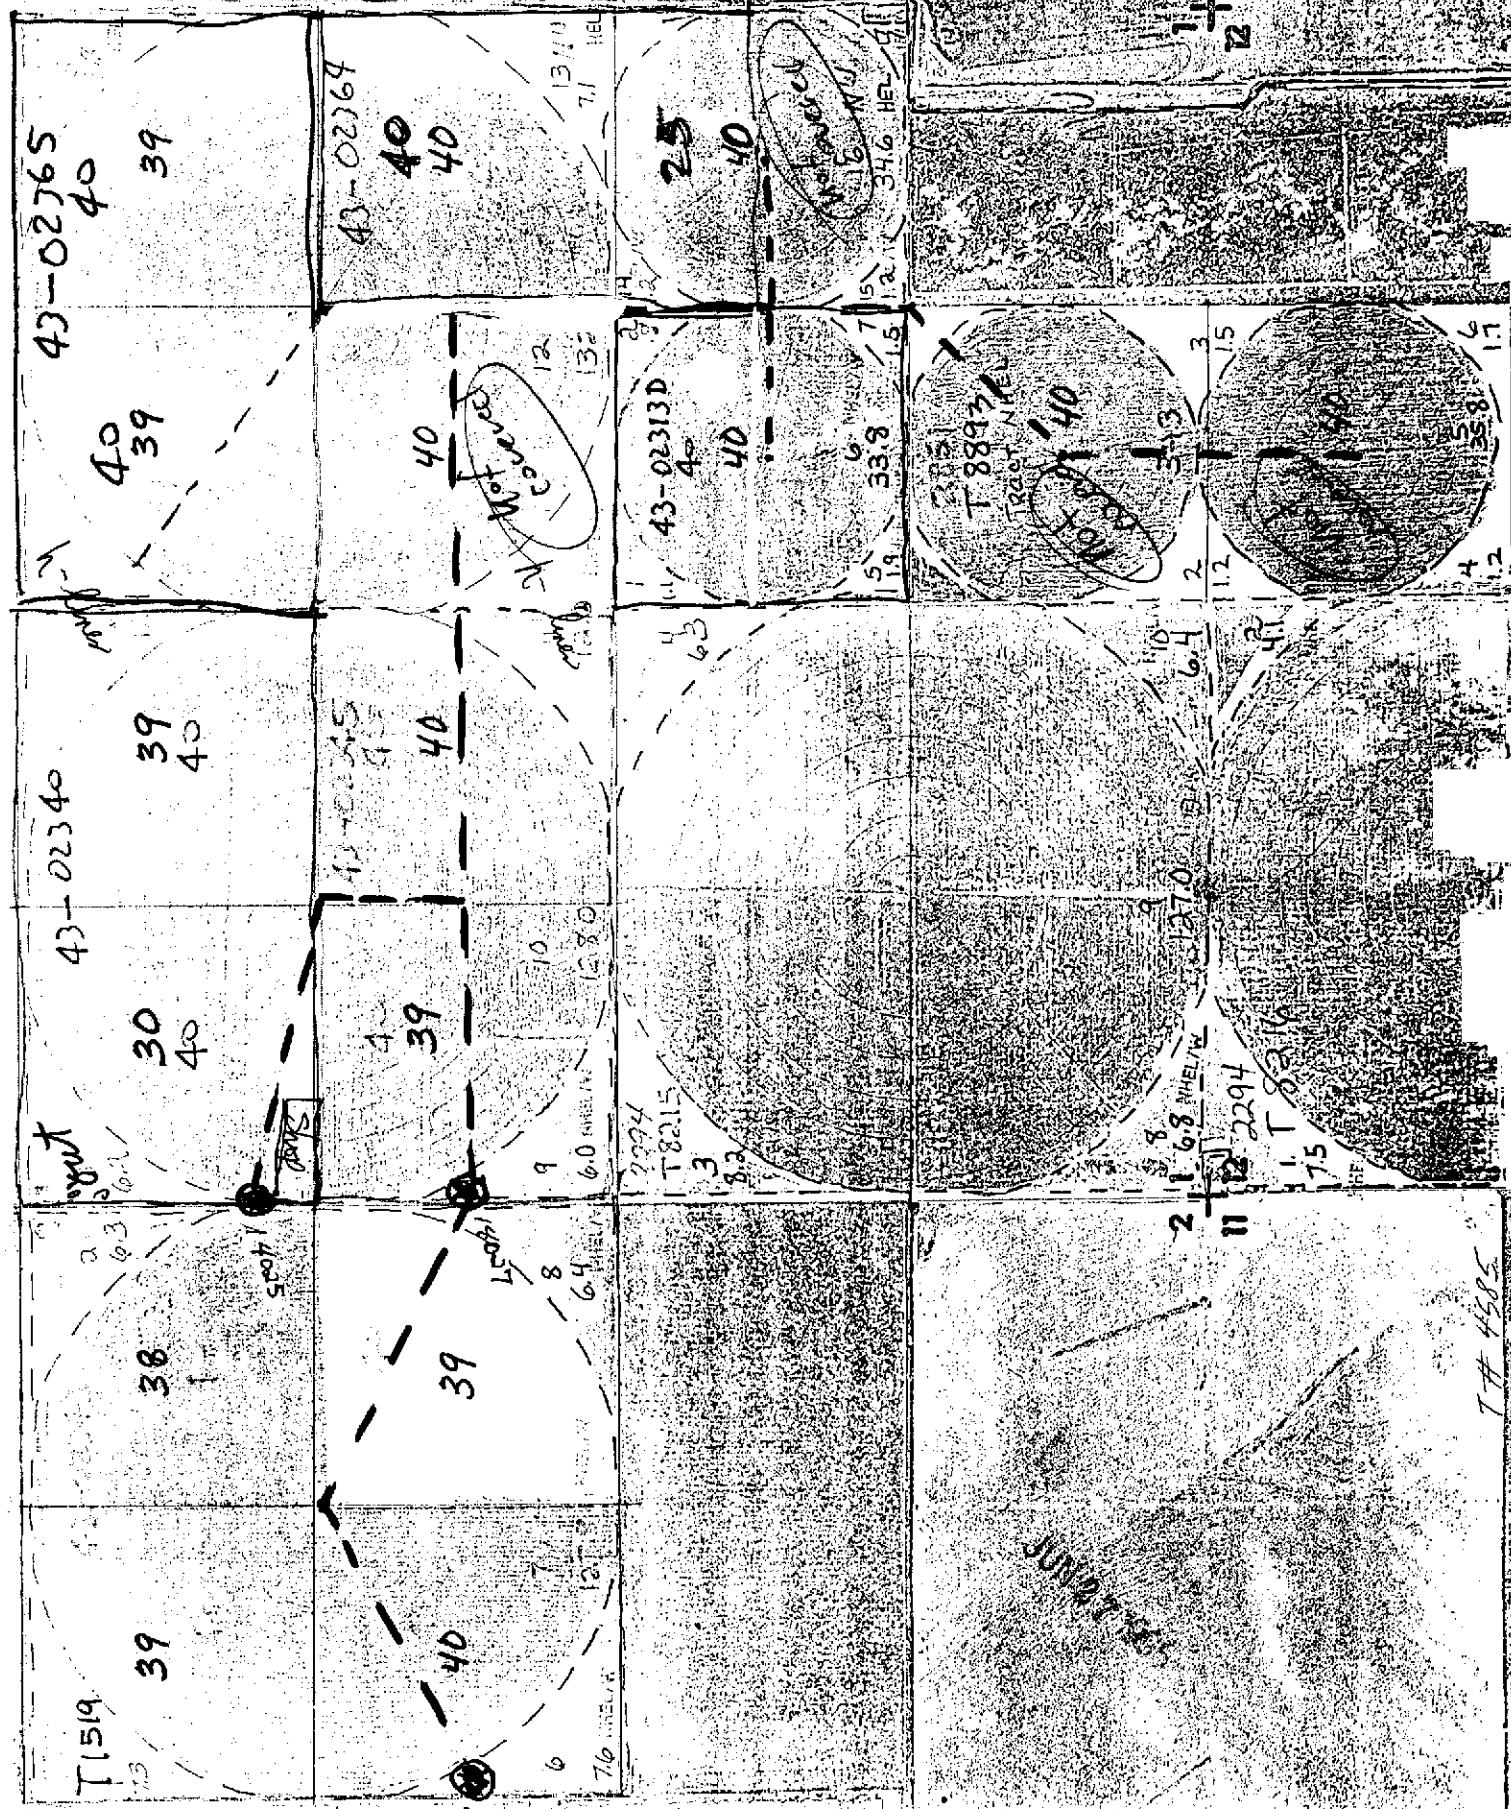

The transfer proposes to combine six licensed water rights which represent 505 irrigated acres and divert the rights out of a common diversion system which connect three irrigation wells. The common system serves irrigation of 622 acres. In essence a permissible place of use is proposed to be created. The additional 114 acres are covered by SRBA expansion claims not part of this transfer. The original rights were individually diverted out of separate wells.

Recommendation

I recommend that the transfer be approved with the following conditions:

- To prevent expansion these rights should be limited to a total of no more than 505 irrigated acres in any one season within the 622 acre place of use.
- The rights are subject to SRBA review.
- Measuring devices must be installed at all points of diversion.

Re: Application for Transfer No. 4585

Dear Applicants:

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office has scheduled advertising the application in the South Idaho Press for 4/10 & 4/17/95. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Before we can forward your application to our state office for approval we must include in the file evidence of ownership of the land to which the water is appurtenant such as copies of deeds, tax records, etc. and a notarized statement from any lien holder on the property agreeing to the proposed change.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

SUBJECT: Thayne Buck App. for Transfer

This property is in the Raft River Critical Groundwater Area. It has been visited by SRBA staff; P/D & P/U were verified, but wells were not measured. All of the land except for maybe a couple of small corners is presently under irrigation. I do not plan to visit this property, as it would only duplicate SRBA work.

There are 505 licensed acres on this farm, but the transfer seeks to legalize irrigation on 622 acres. Claim A43-10366 covers the expanded acres, but is very suspect at this point due to CGWA restrictions. Until this claim becomes a water right, the existing rights should be limited to 505 acres per annum in order to avoid an illegal expansion.

The irrigation season is 4-1 to 10-31, not the old season as shown on the transfer. If approved, transfer should reflect the correct period of use.

A federal estate tax return has been filed for this estate and the tax shown to be due has been paid. The return has not yet been audited and the Administrator has not been released from personal liability for federal estate tax.

There will be no further closing expenses except a balance due to Racine, Huntley & Olson, attorneys, in the sum of \$375.00.

The said Victor R. Kobe, appearing by and through his attorney, Robert C. Huntley, Jr., this Court proceeded to the hearing of said account and petition; and it appearing to the satisfaction of the Court that said account is in all respects true and correct; that all statements and allegations made in the said petition are true and correct; that all claims against said estate have been paid and discharged; that all taxes that have attached to or accrued against said estate have been paid and discharged; that the transfer and inheritance tax due and payable to the State of Idaho has been paid and that the transfer and inheritance tax due and payable to the United States of America has been paid; that since the rendition of said final account there have been received and expended by said Administrator no sums; that said estate is now in a condition to be closed and settled.

IT IS ORDERED, ADJUDGED AND DECREED, AND THIS DOES ORDER, ADJUDGE AND DECREE, that the said final account be, and the same is, in all respects as the same was rendered and presented for settlement, approved, allowed and settled.

JOHN P. KOBE, died intestate on November 5, 1966, in the County of Bannock, State of Idaho, being at the time of his death a resident of Blaine County, Idaho.

On June 10, 1968, Victor R. Kobe was appointed Administrator of the decedent's estate. He qualified as Administrator of decedent's estate on that date and ever since has been and now is the Administrator of the decedent's estate.

Notice to creditors has been duly given as required by law, the time for filing or presenting claims has expired, and the estate now is in a condition to be closed.

All the assets of the estate are the separate property of the decedent.

That under and by virtue of the laws of the State of Idaho, said heirs at law are entitled to receive all of the residue of said estate.

NOW, THEREFORE, it is hereby ordered and adjudged that notice to creditors has been duly given as required by law and that said Victor R. Kobe has in his possession belonging to said estate, a balance of \$3,297.52 in cash, and the remainder consists of the property hereafter described at the appraised value; that said account be allowed and settled accordingly; that the following described property be and the same hereby is distributed in the following manner:

TO EDWARD, VICTOR AND JOHN T. KOBE, SONS OF THE DECEDENT, AS TENANTS IN COMMON WITH EQUAL SHARES:

Re: Permit No. 20508 (Part)

Mr. John Kobe
198 Maplewood Ave.
Pocatello, Idaho

Dear Mr. Kobe:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 20508 (Part) shows the well is capable of conveying 160 miner's inches (3.2 c.f.s.) of water for irrigation of 220 acres.

Upon receipt of the statutory fees of \$12.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the license and Certificate of Water Right with priority of June 19, 1948 to the use of 3.2 second feet of subterranean water with the point of diversion in the SW 1/4, Sec. 1, for the irrigation of 220 acres in the SW 1/4, NW 1/4, SW 1/4, Sec. 1, T. 12 N., R. 26 E., S. 1 N.

Attn: Ruby Y. Brown

Dear Madam:

Your letter of September 25, is very similar to your letter of June 5, 1959 in regard to this same water right. Kindly refer to our answer of June 9, 1959, last paragraph, which should be in your files. In case you don't keep files, a copy of the last paragraph of that letter is shown below.

"Mr. John Kobe made his proof of completion of works for 3.2 cubic feet per second. That proof limits the amount of water which can be licensed under Permit No. 20508. An application for permit may be made to irrigate the SW₁, SW₁NE₄, NW₁SE₄, Sec. 1, T. 12 S., R. 26 E. from the same well. The amount of water claimed could be 80 miner's inches, or 1.6 c.f.s."

Kindly remember that the amount of water claimed on a permit cannot be increased. Also the amount of water claimed on the proof of completion of works cannot be increased.

Mr. Kobe's only recourse is to file an application for a permit to cover any additional water he may obtain from the well over the 3.2 cubic feet per second.

Dear Mrs. Rutledge:

This will acknowledge receipt of your letter of September 22nd addressed to Mr. John Kobe and Mr. Kobe is desirous of having the permit cover more than 3.2 second feet as set forth in your letter and says the well will produce more by the installation of a larger pump, which he proposes to do. Is it possible for him to amend his application for the installation of a larger pump and thereby prove up on the 5 second feet as set forth in his proof. If this is permissible then should Mr. Kobe pay the \$12.00 mentioned in your letter or should it wait until the final proof is made.

Your advise will be greatly appreciated.

Dear Mr. Kobe:

We acknowledge receipt of the Deposition of Holder and two Witnesses, also Affidavit of Publication in the Burley Herald, all submitted in proof of the Application of Water to Beneficial Use on Permit No. 20508.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Madam:

Enclosed are the depositions of the holder and two witnesses,
proof of application of water to beneficial use under Permit No. 20508.

The Notary Public, O. R. Baum, noted in the notice of proof,
did not sign the depositions. If Mr. Baum was not in the office at the
time, the Notary Public who took the depositions may sign, however,
it will be necessary to have an affidavit from Mr. Baum that he was
out of the office at that time, that his office was open that day
and that no protests were received in regard to the proof of beneficial
use of the water under permit 20508.

Mr. John Kobe made his proof of completion of works for 3.2
cubic feet per second. That proof limits the amount of water which
can be licensed under Permit 20508. An application for permit may
be made to irrigate the SW₁, SW₁NE₁, NW₁SE₁, Sec. 1, T. 12 S., R.
26 E. from the same well. The amount of water claimed could be 80
miner's inches, or 1.6 c.f.s.

Dear Sir:

I enclose herewith the following papers:

1. Affidavit of Publication;
2. Deposition of Holder, John Kobe;
3. Deposition of Witness, John T. Kobe;
4. Deposition of Witness, O. A. Power.

We do not have before us the original permit nor the original application. Hence, we have applied for 4.8 second feet of water for beneficial use. You will note the application was amended April 22nd to include 80 more acres of land. If this is not permissible will you please advise what Mr. Kobe should do in order to make his water rights on this 80 acres good.

Dear Madam:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use under Permit No. 20508 (part), in the name of John Kobe. Final proof is to be made at 11:00 A. M. on the 5th day of June, 1959, at Pocatello, before O. R. Baum, Notary Public.

As of this date we have mailed the notice to the Burley Herald, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date, and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Sir:

I enclose herewith the following:

1. Application for Amendment in duplicate.
2. Notice of Proof Application of Water to Beneficial Use in duplicate.
3. Authorization for publication.

You will note on the Notice of Proof Application of Water to Beneficial Use, the last line where it says, "The date of priority which said user is prepared to establish is" is not filled in. Mr. Kobe does not have the date his application was filed. The date he actually started using the water was June 28, 1952. However, it is my understanding that his priority date would be the date of the filing of the application. He would appreciate it if you would put this date in, as Mr. Kobe could not find his copy of the permit, and will you please advise us the priority date.

If there is any question, please advise this office.

In filling out the notice to be published, I set the date for hearing as of the 5th of June, as this would give us time to publish April 30 and May 7, 14 and 21, or, if you prefer, May 7, 14, 21 and 28.

STATE OF IDAHO
DEPARTMENT OF RECLAMATIONRE: Permit No. 20508 (Part)Date April 1, 1959Mr. John Kobe
198 Maplewood Ave.
Pocatello, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20508 is due not later than June 29, 1959. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated—by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

RE: Permit No. 20508

Mr. J. R. Simplot
Continental Bank Building
Boise, Idaho

Dear Mr. Simplot:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 20508 of Ruby A. Simplot shows that the two wells in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Township 12 South, Range 26 East B.M. have been used to irrigate 305 acres in the NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ and N $\frac{1}{2}$ NE $\frac{1}{4}$ of said Section 2.

The N $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 2 is not included in Permit No. 20508 and an application for amendment to include this 80 acres should be filed on the form enclosed.

Certificate of Completion of Works and License can then be issued for 2.6 second feet of water from each well upon receipt of the statutory fees which amount to \$5.00 for Certificate of Completion of Works and \$16.00 License fee.

INSTRUCTIONS TO EXAMINERS

- Always carefully note the location of the point of diversion and accurately plat same.
- When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
- Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
- If any unusual conditions are discovered, make plain statement of them under remarks.
- Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
- Give general characteristics of soils, topography, and crops raised.

RE: Permits Nos. 20507 & 20508

J. R. Simplot Company
Continental Bank Building
Boise, Idaho

ATT: Mr. L. E. Haight

Dear Mr. Haight:

We return Mr. J. R. Simplot's application for amendment to the location of the wells in Permit No. 20507 which has been approved by the State Reclamation Engineer and recorded in this Department.

We have placed on file the depositions of Mr. Simplot and two witnesses, also affidavit of publication in the Burley Herald-Bulletin, which completes proof of Completion of Works and Beneficial Use on Permit No. 20507.

We have also placed on file the depositions of Ruby A. Simplot and two witnesses and affidavit of publication in the Burley Herald-Bulletin which completes proof on Permit No. 20508.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact someone on the grounds at the time he makes the examination in order that arrangements may be made to show him over the project.

Very truly yours,

proof will be submitted of the completion of works for the diversion of 5.2
cubic feet per second of the waters of subterranean and of
the application to beneficial use of said water, in accordance with the terms and
conditions of Permit No. 20508 heretofore issued by the Department of Reclamation
of the State of Idaho.

1. The name and postoffice address of the person or corporation
holding said permit are Ruby A. Simplot, 1500 Harrison Blvd., Boise, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of con-
veying to the place of use, in accordance with the plans accompanying the appli-
cation for such permit, is 5.2 cubic feet per second.

3. The use to which said water has been applied is domestic and
irrigation purposes, and the amount applied to beneficial use is
5.2 cubic feet per second.

4. The place where said water is used is N $\frac{1}{2}$ and N $\frac{1}{2}$ of the SW $\frac{1}{4}$
and N $\frac{1}{2}$ of the SE $\frac{1}{4}$, Section 2, T 12 S, R 26 ERM.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mrs. Ruby A. Simplot
1500 Harrison Boulevard
Boise, Idaho

Boise, Idaho,

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 20508.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before June 29, 1953. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Haight:

We return the assignment of a portion of Permit No. 20508 from Ruby A. Simplot and J. R. Simplot to John Kobe, which has been recorded in this department.

We also enclose Certificate of Completion of Works issued to Mr. Kobe for the diversion of 3.2 second feet of water from a well in the Southwest corner of Section 1, Township 12 South, Range 26 East, E.M., for the irrigation of land in the SW $\frac{1}{4}$ of said section.

We also enclose departmental receipt No. 25384 for \$5.50 which includes 50 cents fee for recording the assignment and \$5.00 in connection with proof of completion of works.

Will you please advise us of Mr. Kobe's address. The assignment only gives it as Bennecko County and his proof of completion of works gives it as Pocatello, but that is not a sufficient mailing address for our records.

RE: Permit No. 20508

Mr. L. E. Haight
C/o J. R. Simplot Company
Continental Bank Building
Boise, Idaho

Dear Mr. Haight:

We return the affidavit of Ruby A. Simplot, submitted in proof of completion of works on a part of Permit No. 20508, together with your check for the \$5.00 fee in connection therewith.

As explained to you at the time, we cannot accept a partial proof of completion of works.

However, if we understand it correctly, and a portion of this permit has been assigned to someone else, when such assignment has been filed in this department and approved it might be possible to accept Mrs. Simplot's proof of completion of works on the part of the permit that she has retained.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
