Dear Mr. Wight:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Burley Herald all in connection with your proof of beneficial use under your permit number 20450.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say when this examination will be made, as this department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, field engineer for this department, will try and contact you at the time he makes the examinations in order that you may arrange to show him over the ground.

We return the statement of the Burley Herald Bulletin for publication costs which is to be paid by you.

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, July 2, 1948

Re: Permit No. 20450
Elaine Wight

Mr. J. Henry Thompson,
Notary Public
Malta, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 20450.....

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On July 12, 1948....., the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
Malta, Idaho.....before J. Henry Thompson, Notary Public.....

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Re: Permit No. 20450

Mr. Blaine Wight
Malta, Idaho

Dear Mr. Wight:

We enclose Certificate of Completion of Works issued under Permit No. 20450, for the diversion of 2.4 second feet of water from a well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 13, Township 13 S., Range 26 E. B.M., for the irrigation of land in the N $\frac{1}{2}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ NW $\frac{1}{4}$ of said section.

We also enclose Departmental Receipt No. 20644 for the \$5.00 fee paid by you in connection with Completion of Works proof.

We have sent to the Burley Herald a copy of notice of beneficial use proof to be made under this Permit on July 12, 1948, with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the affidavit of publication together with statement of costs.

We have made one change in the notice as sent us, as the earliest priority that can be established under a permit is the date the application for permit is received in this Department which was May 10, 1948. If an earlier priority is required this can perhaps be established through the District Court by proving continuous use.

About ten days prior to the date set for proof we shall send Mr. J. Henry Thompson, Notary Public, the necessary forms of deposition, consisting of one for yourself and one for each of two witnesses so that he may have them in ample time for the proof.

At the time set you should appear before the Notary Public with two disinterested witnesses who are familiar with the terms of your permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

Re: Permit No. 20450

Mr. Blaine Wight
Malta, Idaho

Dear Mr. Wight:

We enclose herewith Permit No. 20450, also Departmental Receipt No. 20601 for the \$5.50 filing fee.

As your permit states that the works are completed and that the water has been used for a number of years, we have allowed three months or until August 12, 1948 within which to make the proofs required by statute to complete your water right.

The first proof or proof of completion of works is made by executing the enclosed affidavit (Form 6) before a Notary Public and returning to this Department with statutory fee of \$5.00. Upon receipt and approval of this proof a certificate of completion of works will be issued.

The final or beneficial use proof requires publication once a week for four consecutive weeks in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof will be made. The date, of course, should be set sufficiently far ahead to allow for the four weeks publication.

Both copies of the notice are to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated newspaper. We shall then send one copy of the notice to the newspaper with instructions in regard to publishing and shall send to the Notary Public the necessary forms of deposition consisting of one for yourself and one for each of two witnesses, so that he may have them in ample time for the proof.

At the time set you should appear before the Notary Public with two disinterested witnesses who are familiar with your permit and the work done there-under, for the purpose of executing the depositions.

March 25, 1948

Mr. Blaine Wight
Box 42

Dear Mr. Wight:

In reply to your letter of March 20, 1948, the records in this Department show no filing on a well on the SW Corner of the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13, Township 13 S., Range 26 E. B.M. There is a record of a filing having been made by H. F. Deardorff on January 17, 1927, for water from wells on the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, Township 13 S., Range 26 E. B.M., for the irrigation of land in Sections 11, 12, 13 and 14 including the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13. However, this permit was cancelled April 30, 1932 for failure to make the statutory proofs necessary to complete the water right.

We enclose a form of application for your use if you wish to file on water from this well, together with instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Dear Sir,

I have purchased some ground from H. F. Deardorff that has a irrigation well on it. I would like to know if this well has ever been filed on. If not, can you tell me what I should do to have this done.

The well is located in the South west corner of NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13, Twp. 13S., Rge. 26 E. B. M.
